bill, and was then treated to a spirited speech by Bailey on civil service Balley announced in plain terms that be had no sympathy with the iridiscent dream of civil service. He declared that each party should control the patronage while in power, and vowed himself a spollsman. Hale was in ac-cord with much that Balley said, but thought that Congress could not be in-duced to change the law, even though convinced that it should be changed. The appropriation for the service was debate when the Senate ad-

WASHINGTON. April IL.—The Senate today passed a joint resolution ordering the printing of 19,000 copies of the report of the Anthracite Coal Strike Commission. The joint resolution authorizing Major T. W. Symons, of the Corps of Engineers, and as consulting engineer in connections. to act as consulting engineer in connec-tion with the navigable canals of New York, was adopted without debate.

The postoffice appropriation bill was re-ferred to a conference committee. A bill extending to the outlying possessions of the United States the law pro-hibiting the transmission by express of obscome literature from one state to an-

other, was passed.

The Panama Canal bill was taken up and its reading continued. When the last section of the bill, that providing for a Government depository in the canal zone, was reached, Aldrich moved it be tricken out sowing the committee stricken out, saying the committee on finance was of the opinion that it should not be retained, notwithstanding the recommendation of the Secretary of the Treasury.

Morgan congratulated Aldrich upon the

motion, at the same time expressing his surprise,
"I am astonished at the Senator's bold-

ness in venturing upon a course not in-dorsed by the Executive department," he said. "but I hall it as an indication of the return to the virility manifested by the Senate in its earlier days." (Laughter.) Hale, upon the suggestion of Aldrich and Hopkins, withdrew his amendment requiring that men, supplies, etc., be shipped to the Isthmus in American vessels. It was also suggested that the McComas amendment extending the coastwise laws to the business with Panama be withdrawn, and Morgan made this suggestion the basis of a speech to which he and the basis of a speech in which he said that unless the United States should take complete possession of the canal zone it could not adequately regulate such matters as the admission of supplies or men to be used on the canal.

President to Approve Salaries.

Spooner took issue with this view, conling that the United States would have as much right to regulate these matters is sensational. He says after he kins if the canal were entirely within the limits of this country. Spooner spoke in house and told the girl of his deed. favor of the amendment proposed by Mor-gan that the pardoning power rest in the married, but the girl changed her mind Governor instead of in the commission.

The amendment was adopted after an explanation that this would ed after an explanation that this would clear away all doubt as to the authority to make the payment.

Morgan made a final speech against the bill and ceased speaking at 5:25 P. M. In less than a minute afterward, the bill was passed. There was no di-

Immediately after the passage of the canal bill, the sundry civil appropriation bill was taken up and the reading of the amendments begun.

Balley Attacks Civil Service.

There was no debate until the amendment authorizing the Secretary of the Interior to appoint agents for the protection of public timber, "without regard to party affiliation," was reported. Gorman made an inquiry concerning the civil service feature of the provision, whereupon Balley made an attack on practices under the civil service law. He spoke of the civil service requirement as a "dream, an irridescent dream," and added the conviction the present President has suspended the civil service law in order to make poli tical appointments more times than all of his predecessors." He then announced himself a spoilsman and said that he "delighted in it," adding he never had been able to attain the intellectual enthusiasm of those who would entirely disassociate an applicant for

office from political conviction. "I believe," he said, "that to the vic-tor the spoils belong, and if I had my way under a Republican administration, I would not allow a Democratic indorsement to be filed, nor would I as a Democrat permit the filing of a Repub lican indorsement under a Democratic

administration." Asks No Favor of Enemies.

lie added that he would ask no favors of political enemies, and said if such favors were granted he would not think much of those who granted them, as he would know that they would expect favors in return. He had no complaint, he declared, that the Republicans now appoint their partisans, and he did not complain when there were violations of the law under present conditions. There never had been more scandals in the department than since the present system was in-augurated, he said, and if the Republicans had been able to turn the Democratic rascals out of office when they took control of the Government, they would not now be able to plead every time the Postoffice scandal was men- pr

continued the country would soon have a civil pension list.

Hale interrupted Bailey with the statement that he fully agreed with much that the Texan had said; yet, he added, it was impossible to get a change because of the unwillingness of Congress to put itself on record. He called attention to the fact that whenever there was a rolled! on the subever there was a rollcall on the sub-ject in the House of Representatives it failed to sustain other votes against the civil service system. "In view of this fact," he asked, "does the Senator from Texas think there is the slight-est chance of a change?"

Pall Resting on Congress. Bailey replied that he did not think there was, and Hale said:
"Is there not a sort of pall resting

"Is there not a sort of pall resting on Congress which prevents its ex-pressing its conviction as to what should be done?"

Gallinger asked concerning executive orders creating civil service positions for many hundred employes in the rural delivery service. "You might have someone in the Senate ask the Postmaster-General what members of Congress recommended their appointments" remarked Halley, and a laugh was provoked at this reference to the recent controversy in the House. At 5:40, the Senate adjourned.

MOVE TO GET MOYER OUT.

Miners' Federation Asks Court to Release President on Habeas Corpus.

DENVER, Colo., April 15.-Attorney F E. Richardson, representing the Western Pederation of Miners, today filed in the State Supreme Court an application for a writ of habeas corpus for Charles H Moyer, president of the federation, who has been held as a prisoner by the mili-tary authorities at Telluride nearly three weeks. The petition recites the "refusal of Adjutant-General Sherman M. Bell to obey the writ of the District Court," and alleges that the incarceration of Mr. Moyer by the military is arbitrary, wicked and unlawful, and furthermore is in the court of the fourth amendment to the violation of the fourth amendment to the Constitution of the United States and in violation of the state laws.

Declarations are made that there is not and has never been a state of insurrec-tion and rebeilion in San Miguel County. Assertions are made that Mr. Moyer has been subjected to the grossest indignities for the purpose, the application mays, of causing him to show some trifling act of disobedience so his captors may siap

CHURCH AVERTED MASSACRE.

Russian Influence Used for First Time to Allay Race Trouble.

ST. PETERSBURG, April 15.-It has just developed that the powerful influ-ences of the church was used in Bessarabia to prevent trouble between Chris tians and Jews. For the first time, so far as known, the church stepped in to avert another Kishinef affair.

From the beginning of the war, Jews in Bessarabla, like the rest of the population, had shown their resdiness to serve their fatherland, which was expressed in their declarations of loyalty to the throne and their donations to the sick and wounded. This was pointed out by the Governor, who urged the bishop to direct his clergy to communicate the facts to the people. The bishop immediately in-structed all the priests of his diocese to explain on every convenient occasion the loyalty and patriotism of the Jews and to point out that reports to the contrary were false, adding that he should be in-formed of all cases where enmity was

displayed toward the Jews.

In St. Petersburg this order is regarded as an extraordinary precaution, which is bound to influence the future relations of the Christians and Jews.

ASKED HIM TO KILL HER. Who Murdered Sweetheart Makes a Confession.

JACKSON, Miss., April 15.—Ed. Gammons, who murdered Lake Kinney and the latter's daughter Fannie, with whom he was in love, at Walter Valley recent-ly, has made a confession. His statement regarding the death of the young woman is sensational. He says after he killed Mr. Kinney in the field, he went to the then told her to step off a few paces and turn her back, which she did, when he shot and killed her.

FILIPINOS SAIL FOR ST. LOUIS. They Will Not Only Visit the Fair, but Principal Cities.

Every one knows that Royal Baking Powder is absolutely pure. Hence the housewife uses it with implicit confidence and without question, and she is justified in so doing.

But how few realize that Royal Baking Powder in its chief ingredient is a direct prod-uct of the healthful and delicious grape! This constituent of the grape, crystallized and ground to an impalpable powder, is the cream of tar-tar which forms the active principle of every pound of Royal Baking Powder.

Fruit properties are indispensable to the healthfulness of the body, and those of the grape as used in the "Royal" are the most valuable and healthful of all.

Hence it is that Royal Baking Powder produces food superlative both in flavor and wholesomeness.

Underwood Criticises Pension Order of Roosevelt.

CLEVELAND IS REPUDIATED

Alabama Congressman Says the Republicans in the House Are Undertaking to Sustain an Act of Senility.

Consideration of the general deficien. cy bill was resumed in the House, after a number of minor bills had been passed. The President's recent order regarding service pensions was attacked by Underwood (Dem., Ala.), who contended there was no warrant in law for it. The President was also criticised by Hay (Dem., Va.) because of certain suspensions of the civil serv ice rules and regulations. General debate on the deficiency hill closes today, and the bill will be read for amend-

WASHINGTON April 15.-When the House met today, a resolution was agreed to directing the Secretary of the Treasury to furnish the House with the names of National banks which during the months of September, October, November, De-cember, 1966, and January, February and March, 1904, applied to him for the retire ment of National bank notes and the amount of such notes so retired.

Bills were passed authorizing the Secre-tary of the Treasury to enlarge the building site in the City of Los Angeles, Cal., and to increase the limit of cost of such building, providing for an additional Circult Court Judge in the First Judicial District; amending the revised statutes so as to provide for the detail of retired officers of the Army and Navy to assist in military instruction in schools; permitting the Missouri, Kansas & Oklahema Railroad Company to seal its franchise and properties to the Missouri, Kansas & Texas Railway Company. The general deficiency bill was taken

up for further consideration, and an agreement reached limiting general debate

to four hours.
Underwood (Dem., Ala.) attacked the provision in the bill supplying a defi-ciency of \$4,000,000 for pensions, which, he said, represented \$1,500,000 as the result of the President's recent order regarding age disability, and asked if there was proper authority of law to pay those pensions under that order. Underwood said the Republicans were

undertaking to sustain the order of senil-ity issued by President Cleveland. "If Cleveland were right," said Hemenway, "we would have to retire some of our distinguished gentlemen from public life." remarking that the Democrats were not attempting to sustain Mr. Cleveland's order, Underwood asserted he had long repudiated the ex-President on that

Criticising the proposed early adjourn-ment, Underwood inquired if it was because the Republicans were afraid to investigate the frauda known to exist in the Government departments and perm the country "to look at the books" "The power of legislation," he said. "has been transferred to the Preident, although the Republicans still insist on being allowed

to pass appropriation bills."

Hay (Dem., Va.) criticised President
Roosevelt for the number of suspensions
of the civil service law, rules and regulations. He said that, although while serving on the Civil Service Commission, the President had been most strenuous in posing as "the great civil service reform er," he, since he came into executive office had made & suspensions of the law. whereas in Cleveland's two administr tions and the administration of Presi-dent Harrison no suspensions were ordered, and only three such suspensions had been made by McKinley.

Cromer (Ind.) criticised the apportion-ment of appointments to Federal offices. The House agreed to hold a session on Sunday, April 24, for the delivery of eulogies on the life and character of the late Senator M. A. Hanna and Represen-At 5:10 P. M. the House adjourned.

VETERANS HAVE WRONG IDEA

Age-Pensioning Order Does Not Give

Them Two Allowances. WASHINGTON, April 15,-To make clear the actual effect of the provisions of the recent pension-age order of Com-missioner Ware, the following official statement was made today:

"There seems to be an impression among many of the old soldiers that allowances of pensions under the 'age order' of the Commissioner of Pensions are an addition to pensions allowed heretofore.

"This is an erroneous idea of the order. The law prohibits the payment of more than one pension to a person for the same period, and the effect of the order on

those having a pension already will be only to increase such up to the age limit, if the pension already drawn is below that amount."

WILL TAKE UP STATEHOOD BILL Republican Members of Committee to Get It Up in House Tuesday.

WASHINGTON, April 15.—The Republican members of the House today by unanimous vote agreed to take up the statehood bill recently reported from the committee on territories and begin its consideration in the Houes Tuesday. The length of debate is to be fixed by a rule to be presented from the committee on rules, probably on Monday. This rule rules, probably on Monday. This rule will permit only one amendment to the bill as reported from the committee, and probably will limit debate to four hours. This amendment will require that the constitutions of the new states to be formed shall contain provisions against the sale of liquor to Indians.

The proposition before the caucus was a resolution presented by Representative Hamilton, of Michigan, chairman of the committee on territories. Mr. Hamilton and nearly every Republican member of the committee on territories made speeches in favor of the bill.

Confirmed by Hawalian Senate. HONOLULU, April 15.-The Territorial legislature has adopted practically without change a bill making appropriations for territorial expenses as recommended by Governor Carter. The Senate has confirmed a number of recess appointments, also the nomination of A. J. Campbell to also the nomination of A. J. Campbell to succeed A. N. Kopolkal as Territorial Treasurer. Kopolkal was appointed Judge of the Second Circuit Court recently by President Roosevelt to succeed J. W. Kalua, removed. The Senate also confirmed the nomination of L. E. Pinkham as President of the Territorial Board of Health. The special session of the Legislature will probably adjourn next Monday. Thus far there has been the greatest harmony between the House, Senate and Executive Department.

Prospects for Philippine Bill Poor. WASHINGTON, April 15.-The prospects are not regarded as flattering for the passage at this session of Congress in its present form of the Lodge-Cooper bill for the adoption of the act governing the Philippine Islands. Secretary Taft has been apprised of the situation, and is naking personal appeals to Democratic members not to oppose its passage. A movement has been started looking to the ernment aid to railroad building in the Philippines. If this is eliminated and several other amendments can be agreed on in advance, it is probable the bill will
