FIRE RUINS MANY

Over 200 Toronto Firms Out of Business.

POSITIONS OF 10,000 GONE

Loss Placed at $12,000,000, Insurance $8,360,000.

CITY ACTS FOR SUFFERERS

All Public Buildings Are Placed at Their Disposal -- Erection of Temporary Structures Will Be Permitted.

TORONTO, Ont., April 20.—The total loss by the fire which destroyed the wholesale district of Toronto last night will, according to the most conservative estimate, reach $12,000,000, the total insurance $8,360,000.

The area swept by the fire embraces 14 acres, and 9000 to 10,000 persons are thrown out of employment. The work of tearing down the dangerous walls was continued until this afternoon.

In the whole burned district the only walls that appear to stand intact are those of the W. R. Brock & Co. building. The City Council this afternoon placed all public buildings and the exhibition grounds at the disposal of the fire sufferers; amended the fire regulations to allow the erection of temporary structures, and appointed a committee to wait on the Legislature and secure an act ordering all wires underground.

The principal warehouses of the city were reduced to ashes and nearly 250 firms were put out of business. The area covered by the fire is three blocks in length and varies from half a block to two blocks in width. Every building on Bay street, from Melinda street southward to the waterfront, was wiped out and the fire spread on Wellington and Front streets, along the waterfront from this section and the Esplamade along the waterfront from this section with Bay street for a boundary for a few hundred feet to a whole block.

From the time the fire started on the north side of Wellington street, a short distance east of Bay street, in the E. & S. Currie manufacturing plant, till it burned itself out at daybreak, there was not a moment when a shift of the wind to the northward would not have resulted in the destruction of the greater part of the city.

At a meeting of the Toronto Legislature tonight, the Premier and the leader of the opposition expressed sympathy with the fire sufferers, and it was decided to place a sum of money in the supplementary estimates for the benefit of the firemen's fund.

It is probable that the prorogation of the Legislature, fixed for Friday, will be indefinitely delayed because of the fire. The burning of the Warwick brothers and Rutter building delays the government printing for this year.

The total number of buildings destroyed is 122; the number of firms affected is 222.

It was decided by the City Architect tonight to begin tomorrow morning the work of dynamiting all the standing walls in the ruined district.

The smouldering ruins broke out into flames of considerable size during the afternoon and evening, but there is no danger of a renewal of the conflagration.

Following is a list of the more important firms burned out:

E. & S. Currie.
Pugsley, Dingman & Co.
Toronto Soap Company; loss, $100,000; insurance, $80,000.

ON THEIR FLANK.

(Continued from First Page.)

ments for a flanking movement are complete, and experts say that such a move could properly begin at Taku Shan, as Feng Huan Cheng lies at the angle of a triangle, with Taku Shan and the mouth of the Yalu at angles at the base of the triangle.

"We will strike after they have landed," grimly said a member of the general staff.

General Kouropatkin is aware of the strategic importance of the vicinity of Taku Shan, and it is understood he has made arrangements accordingly.

FEEL SAFE IN MANCHURIA.

Russians Would Attack Japanese While They Await Reinforcements.

SPECIAL CABLE.

LONDON, April 21.—The military expert of the Times in discussing conditions at the front, says:

"So far as we can judge by the telegrams from the seat of war, the Russians mean to make their stand at the Yalu, and in this case they will speedily require all of their skill and resolution to maintain such a dangerously advanced position. The Russian calculation is that the Japanese transports only land 48,000 men each trip, and that a fortnight must intervene before the second contingent can reach the scene of action. Therefore should the Japanese land north of the Liaotung Gulf General Kouropatkin has sufficient men to fall upon the Japanese force landed, and overwhelm them before the troopships can return with reinforcements. The Russian experts say they have nothing to fear from the army of General Kurokai, as it would take fully a month for him to move his troops to the support of the other Japanese army. Therefore, the Russians aver, General Kouropatkin is in a position to crush any attempt on the part of the Japanese to operate in Manchuria.

"If these facts are obvious to the Russians, it would seem that they should be equally so to the Japanese General Staff, which is directing the campaign. The appearance of the Cossacks at Chong Sen will certainly serve to remind the board that the right flank of General Kurokai's army is still vulnerable, although at present the danger does not seem to be very formidable. The fact that nothing has been heard from General Mischtchenko and his force of Cossacks for three weeks may mean that the latter means to make a bold dash upon Northern Corea from the northeast, and endeavor to strike in upon the line of communication between Seoul and Ping Yang and the reported advance of the Cossacks upon Chong Sen may mean just this. If the Japanese have taken the precaution to run a chain of forts and stout blockhouses across the northern part of the Corean peninsula, and have garrisoned them with their second line of troops, these raiders should do no serious injury to the Japanese, since the troops on the Yalu ought by this time to have shifted their base close up to the river and thus made themselves independent of the land line of communication."

RUSSIA HOLDS IT BACK.

Extent of Disasters to Her Arms Cannot Be Sent Out.

SPECIAL CABLE TO THE LONDON TIMES AND PORTLAND OREGONIAN.

PARIS, April 21.—The Yinkow correspondent of the Paris Journal says he has tried repeatedly to ascertain the extent of the recent disasters to the Russian arms, and he has failed to do so because of the perfectly-organized secrecy of the Russians. In his concluding statement, he says:

"The people of France will be obliged to be satisfied with notices marked 'official' or semi-official statements sent from Harbin or Mukden many miles removed from the actual scene of war. I am close to Port Arthur, and might give the true version of many incidents, the news of which, as published, has been mere conjecture, but the Russians strictly forbid all communications of land or sea events. At the moment of sending this message, grave happenings are proceeding on the peninsula; in fact, I am told that another battle is being fiercely contested in the neighborhood of Port Arthur."

Favors an Alliance With Germany.

SPECIAL CABLE TO THE LONDON TIMES AND PORTLAND OREGONIAN.

ST. PETERSBURG, April 21.—The Novoe Vremya frankly repudiates the idea of a Russo-British agreement, and declares that an alliance with Germany would be better for the nation.

At the same time, it endeavors to prove that the real rival of Great Britain in Asia is not Russia, but the United States and Japan.

Russia Comes Down on Turkey.

SPECIAL CABLE TO THE LONDON TIMES AND PORTLAND OREGONIAN.

CONSTANTINOPLE, April 21.—Russia is putting pressure in the shape of demands in connection with war indemnities upon the Porte. This action is supposed to be a prelude to a demand for permission for the Black Sea fleet to pass through the Dardanelles.

CHINA EXPECTS JAPAN TO WIN

Russian Writer Says She Is Expressing Sympathy Cautiously.

ST. PETERSBURG, April 21.—The Birschevaya Viedomosti publishes this morning a letter from its correspondent at Pekin, in which it is said that the confidence of the Chinese government in the success of the Japanese arms was shown in the request of Yang Su, the Chinese Minister at Tokio that the Japanese government direct the commanders of the troops to preserve the imperial palaces and tombs at Mukden from desecration and destruction.

The writer says the Chinese government is in sympathy with Japan, and that it has begun to express this sympathy more cautiously. He adds that the Chinese in the United States have sent to the Pekin government large sums to be used in the reorganization of the army and navy, and that ostensibly because of a desire to become acquainted with old Mongolian weapons, the Japanese are supplying Mongolian hunters with modern rifles.

PORTENDS CHANGE IN POLICY.

Washington Official Circles So Interpret Retirement of Alexieff.

WASHINGTON, April 20.—The announcement from St. Petersburg by the Associated Press of the withdrawal of Alexieff from the Far East, together with the lucid and interesting story of the rise and fall of the Radical element in Russia headed by Alexieff and Bezobrazoff, was received with interest in official circles here. The change just indicated is believed to portend a complete reversal of Russian policy in Manchuria, and it is thought that could Russia save her face and pride before the civilized world by scoring a decisive victory on land, the way would speedily be opened for peace negotiations on the broad basis of the last Japanese proposition just before the outbreak of the war.

BURN JAPANESE SETTLEMENT.

Cossacks Take Possession of Fort In Northeastern Corea.

TOKIO, April 20.—Russian troops to the number of 1000 are reported in occupation of Yong Gan, in Northeastern Corea. A detachment of 40 Cossacks has appeared for a second time at Sung Jin, about 150 miles north of Gen San, where they burned the Japanese settlement and took possession of the post and telegraph offices. As there are no Japanese troops present, the Corean officials of Sung Jin were friendly to the Russians.

Another detachment of 75 Russian soldiers has advanced as far south as Puek Chyong, about 70 miles down the coast from Sung Jin.

ITO SWELLS PERRY FUND.

Japanese Takes Occasion to Express Friendship for America.

TOKIO, April 20.—Marquis Ito today contributed the sum of $750 to the Perry memorial relief fund. In a letter accompanying the contribution the Marquis said:

"Permit me to express my warmest sympathy in this work, which will not only perpetuate the name of your great Commodore who already is revered and beloved here, but will also carry home to every one of us, even the poorest of our families, the traditional friendly feeling of Americans toward our countrymen.

"This enterprise, to a certain extent, is interpreted as an endeavor on the part of those who first introduced us to Western ideals to lead us farther toward a universal community and humanitarian principles. Before these national frontiers should vanish, and they will vanish, I sincerely hope that this work will be crowned with unprecedented success."

(The Perry memorial relief fund was organized in Tokio on March 31, upon the occasion of the 50th anniversary of the signing of the Perry treaty by Japan and the United States. The purpose of the fund is to bring aid to the destitute families of Japanese soldiers and sailors. A number of prominent Japanese and Americans subscribed to the fund as soon as the movement was organized.)

FLEW THE BRITISH FLAG.

Russians Identify the Japanese Vessels Sunk at Port Arthur.

PARIS, April 19.—A dispatch to the Temps from St. Petersburg says the Russian fleet, while making a reconnaissance just previous to the last attempt to blockade the entrance to the harbor at Port Arthur, sighted four ships off the Maio Tao Islands flying the British flag. After the warships and the forts had sunk the vessels used by the Japanese, the Russians identified the sunken hulks as the same British ships previously seen off the islands.

British Sympathy Much Appreciated

ST. PETERSBURG, April 20.—While accepting gratefully the world-wide expressions of sympathy which Russia has received at the death of Vice-Admiral Makaroff and the Petropavlovsk disaster, the papers seem especially impressed with the sympathy shown by the British press, several using the text to argue on the opportuneness of the decision in favor of a Russo-British treaty. The Novisky says: "A sincere rapprochment with Great Britain would guarantee our future development."

Skrydloff Given Full Power.

PARIS, April 21.—The correspondent of the Echo de Paris at St. Petersburg says that in the course of the audience between the Emperor and Vice-Admiral Skrydloff, His Majesty conferred upon the Admiral full power to act at Port Arthur in accordance with the necessities of the moment. The rumor that $10,000,000 in cash went down with the battleship Petropavlovsk, the correspondent also says, is declared to be unfounded.

Japanese Prefer Alexieff Remain.

LONDON, April 20.—The Japanese legation here is greatly interested in the announcement of Viceroy Alexieff's resignation. The opinion is expressed that if he had resigned six months ago there would have been no war, but now that hostilities are in progress the Japanese would have preferred to see Alexieff retain control.

Japanese Cruiser Reported Lost.

PORT ARTHUR, Tuesday, April 19.—(Delayed in transmission.)—It is persistently asserted that a Japanese cruiser was sunk off Port Arthur April 15, and that the Japanese armored cruisers Nishin and Kasuga were damaged, respectively, below and above the water line.

Kouropatkin Waits for More Troops.

PARIS, April 21.—The St. Petersburg correspondent of the Journal says a friend of General Kouropatkin has received a letter from him in which the General says he intends to await the arrival of another 100,000 men before risking a battle with the Japanese.

FAINTS WHEN SENTENCED.

Wealthy Colorado Cattleman Must Do Time for Murder.

AKRON, Colo., April 20.—Judge Armour today overruled the motions for a new trial in the Joseph Meenan murder case as to the defendants, Perry Tuttle and Elmer Shanks, and sentenced them to imprisonment for life at hard labor. He granted the defendant, George I. Tuttle, a new trial. Stays of 60 days were granted the two men to enable them to apply to the Supreme Court for a supersedeas and 90 days allowed them to prepare a bill of exceptions.

When Judge Armour announced his decision, Perry Tuttle fell prostrate upon the floor in a dead faint, and the services of a physician were necessary to revive him.

The murder of Meenan was the outcome of a range feud which had much the aspect of the famous Dewey case in Western Kansas. The Tuttles are members of one of the wealthiest cattle-raising families in this section. Joseph Meenan was a small ranchman.

Last of Bandits Found Guilty.

CHICAGO, April 20.—The jury in the case of Emil Roeski, the last of the car-barn bandits, returned a verdict of guilty today. The penalty fixed is penitentiary for life.

The guilt of Roeski was established on the first ballot, but hours of argument among the jurors ensued before the punishment was determined upon.

His brothers, Otto and Hermann, were later arraigned on a charge of conspiring to aid the bandit to escape. Both pleaded guilty. Otto was released, but Hermann was given an indeterminable term in the penitentiary.

Shot by Robber on Train.

HELENA, Mont., April 20.—Michael Ries, of Columbus, Mont., was killed on a Northern Pacific freight train, near Bozeman, early this morning, and the man who is supposed to have done the shooting escaped from the train and is now being hunted by the Sheriff. The murder was evidently for the purpose of robbery. Ries was en route to Bozeman and was accosted by a stranger, who attempted to rob him. A scuffle ensued, the stranger later shooting Ries. He then jumped from the train and is still at large.

M'BRIDE WINS IN SPOKANE.

Republican Primaries Elect Only 40 of His Opponents.

SPOKANE, April 20.—Republican primaries held in the City of Spokane and the incorporated towns of Spokane County today indicate that Governor McBride will have over three-fourths of the delegates at the County Convention, which will be held Saturday.

Judge A. Schiller, president of the Roosevelt-McBride Club, says that of the 220 delegates chosen not over 40 will be against Governor McBride. The forces of Colonel W. M. Ridpath, candidate for Governor, refuse to concede defeat, but decline to give out any figures.

Hunt Calls on President.

WASHINGTON, April 20.—Governor Hunt, of Porto Rico, today paid his respects to the President and later will have an extended conference with him about affairs in the island. Governor Hunt's nomination as United States District Judge in Montana was confirmed by the Senate yesterday. It is not the present intention of Governor Hunt to assume immediately his new duties. He intends to return to Porto Rico to conclude his work there, and formally to take leave of the inhabitants of the islands. It may be two months before he takes his seat on the Montana bench.
