Farmers Want Engineer to Look Into Irrigation Possibilities.

OREGONIAN NEWS BUREAU, Washington, April 20 .- The Farmers' Co-Operative Irrigation Association, an organization of certain farmers of Crook County. Oregon, has sent a petition to the Sec retary of the Interior bearing 300 signatures and asking that a thorough investigation be made by the reciamation engineers of the irrigation possibilities in that section of the state.

Senator Mitchell has interested himself in the matter and has urged upon the department an early investigation of this section. The location of the proposed work has been studied in a general way by the Engineers of the Reclamation rvice, and the situation has been found to be complicated by the fact that the water supply must apparently be obtained either from Crooked River, the Summer flow of which is practically all appropri-ated, or from Deschutes River, the water upply from which must be carried across

Crooked River Valley at great expense.

It has been found that the lands which
may be watered from Deschutes River have to a large extent been selected by the State of Oregon, and will require the greater part if not all, of the flow of the Deschutes. The question of water rights, therefore, is a very serious one, and under the circumstances the Reclamation Service does not think it practicable for the Government to go into this region while the state is attempting to reclaim larger tracts under the operation of the large tracts under the operation of the Carey Act, or before it is definitely known what action will be taken under the contracts made with the state for the reclamation of lands along the Des

Insist on having just what you call for when
