ever since the middle of January. Brewers are all complaining of slow sales and show no disconting to are all complaining of slow sales and show no disposition to operate, while there is little incentive for trading between dealers. The only business we have heard of on the local market was the sale of 160 bales last Sat-urday of medium to prime Oregons at 26c. The only encouraging feature in the situation is the comparatively moderate remaining stocks, and this fact keeps holders of fine profess stocks, and this fact keeps holders of fine stocks, and this fact keeps holders of fire grades steady in their views as they claim all will be wanted sooner or later and they are in hopes that with the advent of warm weather and increased consumption of beer brewers will be compelled to operate as the latter gen-erally have allowed their stocks of lops to rin down quite low. In this state growers have at last been enabled to get in their yards and report the roots to have wintered very well. Advices from Germany report

ANNIVERSARY OF PANIC

COMPARISONS BETWEEN CONDI-TIONS IN 1901 AND NOW.

No Relief From the Apathy of the Stock Market-Steel Bonds Recover a Point.

NEW YORK, May 9 .- There was no relief which was at about as low an ebb as Saturday. The anniversary today of the panic of 1801 was the occasion of much discussion and meralizing, and of many striking comparisons. The fact was not lost sight of that excesses such as those of the Spring of 1801 may be counted on with certainty to being reaction to such lethargy as now prevails, sithough it may be deferred by manipulative devices, such as caused the shortive "booms" which have occurred in the market since May 9, 1804. The discussion of the present has to do entirely with the ability to maintain present rates of dividend distribution rather than with reseate prospects of increased disbursements, and strict attention is given to accural returns of earnings and traffic officials continue the showing of a declining sevel from last year, with a high level of operating expenses remaining in force. Reports of coming retreachments in more than one important system were current and some which was at about as low an ebb as Satu

hope was felt that benefit would result to the net returns.

The slight upward tendency of prices seemed due rather to the intermittency of the mar-ket following the decline of last week than to any change of sentiment. The decline in the bank surplus last week and the contin-ulng factors which caused it give ground for reflection over the future of the money mar-ket, although its immediate case is un-ruffied. There were no movements of general importance.

CROP DAMAGE REPORT

Again Strengthens Wheat Prices, at Chi-

CHICAGO, May 3.—With sasier cables heavy world's ahipments and a large increase in the amount on passage, the wheat market in the amount on passage, the wheat market opened at a decline from Saturday's closing figures, the July option being 1/2 to \$\% \) clower. During the early part of the session the market was dominated by the bearish foreign situation. There was considerable long wheat offered for sale, but the demand was comparatively light. In consequence of the poor support, a further decline in prices was made, July selling off to \$5\% \text{.} As the seasion advanced the domestic situation forced itself more prominently upon the minds of traders, and damage reports were still being received and sentiment auddenly changed. Prospects of a bullish government report tomorrow started liberal covering by shorts, which resulted in a weak raily. After selling at \$6\% \text{.} Belling to \$5\% \text{.} During the early part of the day the corn market sympathized with the weakness in wheat Later, the local crowd became quite active buyers, resulting in a firm tone. July sold up to \$5\% \text{.} and closed at \$8\% \text{.} During the early part of the day the corn market were seen in the trading in oats. Closing prices showed little change from Saturday's final quotations. July closed at \$8\% \text{.} Provisions had a firm undertone throughout the entire day. The feature of trading was the buying of pork by shorts. The late strength in grain had some effect. July pork closed loc higher, iard up \$2\% \text{.} and ribs \$\% \text{.} The leading futures ranged as follows:

Ira E. Purdin Withdraws.

HILLSBORO, Or., May 9.—(Special.)
—Hon. Ira E. Purdin, the Union nomines for State Senator in opposition to Hon. E. W. Haines, has withdrawn from the race and James H. Sewell placed on the ticket to fill the vacancy. Purdin claimed that he was very much encouraged over the prospects of his candidacy, and says that he resigned from the ticket only to please his wife. whose health is very poor. James H. Sewell, the successor, is a big hop-grower of West Union, and has been interested in Washington County politics for some years.

LESS DEMAND FOR OREGONS AT SAN FRANCISCO.

Grain Market Moderately Active and Cash Prices Higher--Butter on 18-Cent Basis.

SAN FRANCISCO, Cal., May 9 .- (Special.)-Probably owing to warm weather and the trade being well supplied, the attendance on the dock at the sale of Oregon potatoes by the Steamer Elder was light and the market quiet. er and a shade easter. Sales did not exceed three carloads and the top price for best Burbanks was \$1.70, with poorer grades as low as \$1.50. Offerings did not average well in quality. Other potatoes were also quiet and casy. New red onlone were slightly higher on account of small arrivals and firmness of Austrailan, which constitute about all the remain-ing stock of old onions. Asparagus and other early vegetables came in largely ecorched by the hot sun and sold lower.

Oranges moved off briskly at firm prices on the street and at auction, where 11 carloads sold at \$1 to \$2.05. Lemons were firmer and demand. Bananas were active and firm. Four

TREASURE NEARLY LOST.

Relic of Chinese Dynasty Discovered Through Smelting Company.

BAN FRANCISCO, May 8.—The Call this morning says:

A massive gold seal worth intrin-sically \$5000 and one of the priceless treasures of an ancient Chinese dynasty has been offered for sale in this city to a local smelting company. Word was sent from there to the Chinese Consul-General. He deciphered the worn inscriptions upon its head and declared it was one of the most valuable relies of an ancient Chi-nese dynasty. He said the gold came from the great range of the Khinga Mountains and the sands of the Gobi Desert, and was gathered by hand from the rocks and channels more than 4000 years ago. Melted and refined in one solid mass, the artisans of those ages carved the inscriptions upon the gold that have formed the official seal of the dynasty for thousands of years, until more modern times and a greater sway caused a new imperial seal to be developed. Then the seal was delewas subsequently wandrawn from sale by its present owner, who professes to have picked it up in China. It is said the Chinese Consul-General has guaranteed the payment of \$10,000 for it, which is twice its intrinsic value if meited up.
