

RAIL FOR CANAL

Roosevelt Issues the Regulations.

DAVIS IS MADE GOVERNOR

Civil Service to Prevail as Far as Practicable.

TAFT TO HAVE SUPERVISION

His Control Over Commission Will Be the Same as That of Philippine Board-Judiciary System is to Be Provided.

WASHINGTON, May 9.—President Roosevelt had a long conference today with Secretaries Hay and Taft and Attorney-General Knox, at which the regulations to govern the Isthmian Canal Company were determined on finally.

While the creation and work of the commission is committed by law to the President, whose authority in that regard is practically supreme, the President, by the regulations, directs that the commission shall exercise its power under the direction and supervision of the Secretary of War.

The President's formal instructions to the Canal Commission were issued late this afternoon. They are embodied in a letter to the Secretary of War. After reciting the steps taken under legislative authority as a primary to the work of actual construction and directing that the work vested in the commission be carried on or exercised under the supervision of the Secretary of War, the letter gives the following instructions:

"Subject to the limitations of law and the conditions herein contained, the Isthmian Canal Commission are authorized and directed:

"First—To make all needful rules and regulations for the government of the zone and for the correct administration of military, civil and judicial affairs of its possessions until the close of the 58th Congress.

"Second—To establish a civil service for the government of the strip and construction of the canal, appointments to which shall be made as nearly as practicable by a merit system.

"Third—To make, or cause to be made, all needful surveys, borings, designs, plans and specifications of the engineering, hydraulic and sanitary works required and to supervise the execution of the same.

"Fourth—To make and cause to be executed, after due advertisement, all necessary contracts for any and all kinds of engineering and construction works.

"Fifth—To acquire by purchase, or through proper and uniform appropriation proceedings to be prescribed by the commission, and private lands or other real property whose ownership by the United States is essential to the excavation and completion of the canal.

"Sixth—To make all needful rules and regulations respecting an economical and correct disbursement, and an accounting for all funds that may be appropriated by Congress for the construction of the canal, its auxiliary works and the government of the canal zone, and to establish a proper and comprehensive system of bookkeeping showing the state of the work, the expenditures by classes and the amounts still available.

"Seventh—To make regulation on the Secretary of War for funds needed from time to time in the proper prosecution of the work and to designate the disbursing officers authorized to receipt for the same.

"Eighth—To make regulation on the Secretary of War for funds needed from time to time in the proper prosecution of the work and to designate the disbursing officers authorized to receipt for the same.

"Ninth—To make regulation on the Secretary of War for funds needed from time to time in the proper prosecution of the work and to designate the disbursing officers authorized to receipt for the same.

"Tenth—To make regulation on the Secretary of War for funds needed from time to time in the proper prosecution of the work and to designate the disbursing officers authorized to receipt for the same.

"Eleventh—To make regulation on the Secretary of War for funds needed from time to time in the proper prosecution of the work and to designate the disbursing officers authorized to receipt for the same.

"Twelfth—To make regulation on the Secretary of War for funds needed from time to time in the proper prosecution of the work and to designate the disbursing officers authorized to receipt for the same.

"Thirteenth—To make regulation on the Secretary of War for funds needed from time to time in the proper prosecution of the work and to designate the disbursing officers authorized to receipt for the same.

"Fourteenth—To make regulation on the Secretary of War for funds needed from time to time in the proper prosecution of the work and to designate the disbursing officers authorized to receipt for the same.

"Fifteenth—To make regulation on the Secretary of War for funds needed from time to time in the proper prosecution of the work and to designate the disbursing officers authorized to receipt for the same.

"Sixteenth—To make regulation on the Secretary of War for funds needed from time to time in the proper prosecution of the work and to designate the disbursing officers authorized to receipt for the same.

"Seventeenth—To make regulation on the Secretary of War for funds needed from time to time in the proper prosecution of the work and to designate the disbursing officers authorized to receipt for the same.

"Eighteenth—To make regulation on the Secretary of War for funds needed from time to time in the proper prosecution of the work and to designate the disbursing officers authorized to receipt for the same.

"Nineteenth—To make regulation on the Secretary of War for funds needed from time to time in the proper prosecution of the work and to designate the disbursing officers authorized to receipt for the same.

"Twentieth—To make regulation on the Secretary of War for funds needed from time to time in the proper prosecution of the work and to designate the disbursing officers authorized to receipt for the same.

"Twenty-first—To make regulation on the Secretary of War for funds needed from time to time in the proper prosecution of the work and to designate the disbursing officers authorized to receipt for the same.

"Twenty-second—To make regulation on the Secretary of War for funds needed from time to time in the proper prosecution of the work and to designate the disbursing officers authorized to receipt for the same.

Isthmian Canal Commission be elected to the board of directors of the road, and that the policy of the road be completely harmonized with the policy of the Government, of making it an adjunct to the construction of the canal, at the same time fulfilling the purpose for which it was constructed as a route of commercial movement across the Isthmus of Panama.

"No salary or per diem allowances of competition, in addition to the stated salary and per diem allowances of the members of the Isthmian Canal Commission by reason of his services in connection with the civil government of the canal zone, or his membership in any board connected with the construction of the canal, or by reason of his services as an officer or director of the Panama Railroad.

"If there now be in force within the canal zone any franchise granting to any person or persons a privilege to maintain methods, any devices of a character forbidden by the laws of the United States, or if the grantee of any such privilege has now the right to sell lottery tickets or similar devices to facilitate the business of the concessionaire, the Commission shall enact laws annulling future exercise of the same by imprisonment or fine, or both.

"These instructions may be modified and supplemented as occasion shall arise."

CULLOM NOT SEEKING IT. Senator Will Not Ask Convention to Name Him for Vice-President.

SPRINGFIELD, Ill., May 9.—Senator Cullom, who arrived here today to attend the Republican State Convention, denied the published story that his friends will ask the convention to instruct for him for the Vice-Presidency.

"There is absolutely nothing in the story, so far as my information goes," said he, "I certainly am not to be regarded as a candidate for the Vice-Presidency, and I do not think any of my friends will ask the convention to instruct for me."

STANLEY IS DEAD. (Continued from First Page.)

King of Wanda. Dr. Junker, a Russian explorer, had reported his highest state. Wealthy boatmen and the King of Belgium dispatched Stanley to the rescue. After going up the Congo as far as possible, Stanley plunged boldly into an unknown and was forest. Nine months later he reached Lake Nyansa, where a native messenger placed in his hands a packet from Emin Pasha. On April 30, 1888, the two

men met in an affecting scene. During their march toward Zanzibar on the eastern coast, Emin Pasha met with an accident which made him determined to go back into the unknown, where after many wanderings he was finally devoured by cannibals in 1889.

On his return to Europe, Stanley received the degree of LL. D. from two universities, and the degree of D. C. L. from Oxford. On July 12, 1890, he married Dorothy Tennant. Shortly afterward he was elected to Parliament. He made a lecture tour through the United States. He published: "How I Found Livingstone," "Compass and Magdala," "Through the Dark Continent," "The Congo and the Founding of Its Free State," "Perhaps his best-known book is "In Darkest Africa," published in 1890.

While journeying from Brussels, after finding Emin Pasha in Africa, the Baroness Burdett-Coutts let Stanley know that another proposal might not be treated as had the first offer. He met Miss Tennant at the Victoria Station in London, and apparently proposed to her at once. This time his hair was white, the natural color, and the answer of Miss Tennant made Stanley a married man within a short time.
