ON BANDITS' TRAIL

Officers Know Who Held Up Train at Copley.

ROBBERS CONFESS TO WOMAN

Mrs. Thomas Whiteman, Lodging-House Keeper of Dunsmuir, Received Letters From George Gates, Principal in Affair.

REDDING, Cal., May 9.-Mrs. Thomas Whiteman, of Dunsmuir, made a statement to District Attorney Dozier in Redding today regarding the connection of George Gates and E. Vernon Gates, brothers, whose parents live in Alameda, with the hold-up of the Oregon Express at Copley on March 21, just, Mrs. Whiteman's story, in Frief, is that the Gates brothers, under the names of Bruce Van and Ed Lee, stayed at her Riverview lodging-house at Dunsmuir for several weeks preceding the crime; that they went south on the very train that was held up when the stop was made at Copley; that they returned to their rooms the Saturday succeeding the hold-up, which was on Thursday; that they left the following Monday and that she has since received letter from George Gates, whom she knew as Bruce Van Drake, in which-he had confessed the crime. The letters, of which she had received

three, were turned over to the authori-ties. All the letters were from George Gates. The last letter was dropped by him in Portland on the night of April 28, but was dated May 1, and in it Gates claimed to be in San Francisco intending to sail

the next day for Australia.

The officers established the bandit's identity through a laundry mark. The mark was on a piece of handkerchief found in the Nigger Hill cabin near Keswick, and torn from the handkerchief that formed one of the masks, and was found at the scene of the crime. Through the Redding steam laundry, and its Dunsmuir agent, the mark was found to be that of George Gates at Mrs. Whiteman's lodging-house in Dunsmuir. The detec-tives later intercepted all of George Gates' letters to Mrs. Whiteman, addressed as Miss Agnes Brown, and then for fear that she might know more than they had found out, made her come to District Attorney Dozier here and make a complete confession. Through intercepting the letters the officers had their hands on George Gates several times, but he managed to allp through their fingers each time. He is now believed to be around Portland.

Vernon Gates, the younger brother, is said to have been in Alameda last Saturday, and Arnett is in hiding in the Kla-

math Falls country. The whereabouts of the fourth man is unknown. Mrs. Whiteman was "on the carpet" nearly all morning and the only startling feature of her confession was that the Gates brothers left Dunsmuir on the train that was robbed at Copley when the Oregon Express stopped there for water. They must have jumped off, joined Arnett and the fourth man, donned their masks and proceeded to hold up the train and kill Messenger O'Neill.

Jealousy of Officers Prevents Capture "Jealousy existing between the Wells,

Fargo & Co. and Southern Pacific detectives has been the means of frustrating several good chances to catch the Copley trainrobbers," said a well-known local detective last night. "Each detective was afraid the other would make the arrest and the result is that they tipped everything off to the newspapers and the rob-bers read the papers and acted accordings ly and have in this manner evaded cap-ture with ease. Everything that comes out in the papers regarding the chase is read by the hunted men, who profit by the news. The authorities have had their hands on the robbers several times and the case has been one of the prettiest ever worked up on the Coast, but jealousy and newspaper publicity have prevented either force of detectives from capturing the

HARLOW MESSENGER PARDONED

Reasons Given by the Governor In Granting the Petition.

SALEM, Or., May 2.-(Special)-Govsalina, of., May 2.—Special.—Gov-ernor Chamberlain today granted a par-flon in favor of Harlow C. Messeager, who was convicted of manslaughter and sen-tenced to 15 years in the penitentiary. He has served two years of his time. Three reasons are given for the pardon—that the killing may have been justified, that the trial court committed errors which would have caused a reversal if the case had been appealed, and that neither the trial Judge nor the District Attorney offered objections to the granting of a par-

Messenger was convicted of the killing of Jesse P. Cotton. The evidence showed that the two men quarreled and there was some evidence which tended to prove that Messenger acted in self-defense. The court instructed the jury without qualifi-cation that an intent to murder is conclu-sively presumed from the deliberate use of a deadly weapon causing death within year. No appeal was taken in the Mes-senger case, but soon afterward the Su-preme Court reversed the case of State vs. Gibson when precisely the same instruc-tion had been given where self-defense was alleged by the defendant. Relatives of Messenger interested themselves in his behalf and secured a strong petition for his pardon. The Governor has had the matter under consideration for some time and favorable action on his part was no

Mayor had appointed a committee to choose a site for the proposed plant and it was decided to permit the company to build on its property where the electric light plant is located. At the last meeting of the City Council the report was not received, although it was known that the Council would look upon the location favorably. Residents and taxpayers, who live near the proposed site, attended the meeting and made a strong protest against the proposed plant. Hot words were exchanged for a time, and the situation was finally cleared by the Council's voting to defer the choice of the site until this week. Mayor had appointed a committee lefer the choice of the site until this week With the exception of one Councilman, the Council, it is understood, is heartly in favor of the site decided upon by the mittee. The residents, however, are making strenuous efforts to have the plant located further out of the city. There, is a great deal of bitter feeling over the mater and it is quite likely that the meeting of the City Council Wednesday evening will be a stormy one.

Last Fall it was thrown into the hands of a iver, and later, on the recommenda-of the receiver, Judge Eakin ordered that the property be sold at public auc-tion to the highest bidder, no bid to be accepted for less than \$80,000 spot cash. The mine is considered valuable, and \$80,000 will not pay for the machinery in the mill and holst. It is the general be-ilef that it will be bought by Mr. Godfrey and at once reopened. Ghouls Desecrate Old Chief's Grave SPOKANE, Wash., May 9.—A report of ghoulish work comes from the Okanogan region. Within the past two weeks the grave of old Chief Moses has been desccrated for pecuniary gain. The apparent object of the ghouls was to obtain trin-kets of great value, which according to tradition were supposed to be buried with so prominent an Indian. The coffin was broken open and pipes, beads and minor articles abstracted. Although buried for over five years the body of the dead chieftain was found in an excellent state of preservation. Ever since the burial of Chief Moses rumors have been current that money and other articles of value were buried with him, and it is surmised that these tales have excited the curios-ity of the human hyenas. The body was redressed and returned to its resting place by a large crowd of his faithful people.

FELLED LIKE AN OX, AND DIZZY AND SLEEPLESS FOR WEEKS.

Rough Experience of E. C. F. Ward, of Girard, Kansas, a Veteran of Co. H, 55th Indiana.

A reporter who was seeking for Mr. Ward to get his confirmation of a statement that had been made concerning him by a fellow-townsman, found that stalwart carpenter engaged in putting a new window frame in an old house. In response to an inquiry, the robust workman dropped nimbly to-a seat on the window bench and said:

"Yes; I owe my recovery to Dr. Williams' Pink Pills and I am always glad to tell the story for the sake of others. In fact, I think there are only two kinds of medicine worth buying-at least, only two kinds that ever did me any goodand one of them is Dr. Williams' Pink Pills for Pale People.

"You see, it was this way: I was at my work in 1892 when I felt as if I had been struck on my head by a sudden blow. My heart seemed to stop and the doctor said it missed every other beat. I went through the battle of Richmond Kentucky, but I never had been through anything like this before. I thought surely I was going to pass in my checks this time.

"After that I had very trying diszy spells. I had to give up work altogether and spend every other day in bed. For two months I did not leave the house. I ould not concentrate my eyes on any object; I was in a state of extreme nervousness all the time. I would lie awake at night from nine o'clock until daylight. My circulation was bad and my feet always cold. The doctor admitted that his medicine was not doing ne a bit of good.

"Then I decided to try Dr. Williams" Pink Pills, about which I had read in an advertisement. After three or four days' use I realized that they were helping me. I began to take them in January, 1892. By the middle of February I was out and in March I resumed work as usual. I sleep without difficulty, my dizziness has never returned, and my feet are always warm when they should be. You may say that think Dr. Williams' Pink Pills can't be beat for nervousness and difficulties They are sold by all druggists throughout the world.
