Carlisle, Pa., School Will Be Removed Thither.

SITE SIX MILES FROM CITY

Cost of Transportation to the Government Will Be Reduced and Western Agriculture Can Be Taught More Effectually.

HELENA, Mont., May 20.—(Special.)—The Carlisle Indian School, located at Carlisle, Pa., is to be removed to Helena, Agents of the Department of the Interior have recommended the Helena site and a definite proposition has been submitted to local men who have taken the project up and secured options on the land required and these were tendered to the Government, thus, with the settlement of formalities, the school will be removed here.

The land selected and approved by the Government agents is located six miles north of Helena and consists of about 700 acres, together with the buildings of the Montana Wesleyan University, chief of which is a four-story brick structure.

The university has been re-established in the city, and the trustees made a very low price to the Government for their interests. The landowners in that vicinity also transfer their land at a nominal figure.

Exercises at Oregon City Are Carried Out Successfully.

OREGON CITY, Or., May 20.—(Special.)—Today was Pioneer day with the Women's League and Clark Club of Oregon City. The members of this organization today entertained at Willamette Hall, in this city, more than 100 of the early settlers of Clackamas County.

Among the pioneers in attendance were two who came to Oregon in 1842. They were: William Vaughan, of Multnomah, and Mrs. Dan O'Neill, of this city. Miss Harding sang two solos at the reception.

DRILL STARTS HOT WATER.

Miners Driven From Shaft in the Cyclone Mine.

BAKER CITY, Or., May 20.—(Special.)—The men working in the Cyclone mine, about six miles east of this city, struck a flow of hot water yesterday afternoon. They were driving a drill hole at the time and cut through into the geyser. The hot water rushed out into the tunnel with a roar, and the men barely escaped being scalded.

The water was about 115 degrees at first, and became warmer as it flowed until it was scalding hot. The pumps are working now, and the flow of water under control, but the mine in that vicinity is uncomfortably warm on account of the steam.

BUTTE, Mont., May 20.—(Special.)—Annie Morrison, of Baker City, Or., who says she ran away from home a year ago and has traveled 1200 miles on the streets in men's clothes since that time from Portland, Or., to Minnesota, was arrested here today for wearing male attire and fined \$30. Being unable to pay, she was committed. OLYMPIA, Wash., May 20.—(Special.)—The 8-year-old daughter of William Schincke, a farmer of South Bay, was run over by a heavy logging truck yesterday, the wheel passing directly over her head. The girl was riding on the "reach" of the truck and fell off, but luckily the ground was soft and her head was forced into the mud, and did not receive the full weight of the truck. Although there is a fracture at the base of the skull, the physician in attendance believes she will recover.

Fullbright owned a good fruit ranch and considerable other property.

Ask for Lower License.

EQQUIAM, Wash., May 20.—(Special.)—Shall the license of the city be reduced from \$1000 to \$500 per year? This is the question agitating the Council just now. A representative body of the saloon men met the Council and made an earnest plea for such reduction. W. F. Parsons made a strong talk, telling the Council that it was easier to pay \$1000 last year than \$500 this year. He called attention to the fact that Seattle saloonkeepers paid but \$1000, where the population was so much greater.

Patton & Lamping said their licenses expired this week and would not be renewed at the old rate. After a lengthy debate a meeting was arranged at which

PLAN OF POOL ROOMS

How They May Get Service From the Western Union.

GREAT CIRCUIT IS FORMED

Results of Races, Sent as Private Messages, Would Be Received at Several of Principal Cities of Country.

SEATTLE, May 20.—(Special.)—Seattle poolroom men are interested in a scheme by which it is hoped to circumvent the Western Union, which has cut off race-track reports. The details of the scheme have been partially worked out.

The operators have founded an organization similar in many respects to the Associated Press. The following cities

have been taken into the circuit: New York, Boston (the Readville track), New Orleans, Hot Springs, Los Angeles, San Francisco and Seattle.

The scheme is simply that while the Western Union might refuse to give a service to the poolrooms, there is no law in the world that the abolition of the room men sending racing reports in the form of private messages. For instance, the Seattle poolroom operators will telegraph the results of each race at the Meadows to the co-operating poolrooms all over the United States, and in the local poolrooms will receive the daily results of the races held in other cities.

It is said on very good authority that this scheme was the main cause of William Carter's migration to Georgetown. At any rate there can be no question but that the movement will be undertaken when the betting public will be able to lose its money as rapidly in the future as in the past.

Poolrooms Cut Off for All Time.

NEW YORK, May 20.—President Clowry, of the Western Union Telegraph Company, said today that the abolition of the company's racing department announced by him on Thursday, is to be permanent. He also said that the company will not lease wires to poolrooms. The company's branch offices at the racetracks will be maintained for the transmission of such messages as may be offered in the ordinary course of business.

Colonel Clowry said: "We have stopped our racing news service absolutely all over the United States, and we are doing no business in that line. We want to refuse to have any more wire with us in the regular course of business because they contain racing news. We have to accept them and transmit them as common carriers. We are sending such messages as those when we receive them, but that is positively all we are handling. The reports and insinuations that we are distributing racing news are without foundation, and I want that fact emphatically emphasized. Our racing department has ceased to exist."

"Will the Western Union Company lease its wires to poolrooms?" was asked.

"Certainly it will not. It leases many wires, but when an application to lease a wire is made to us we will inquire into the use to which it is to be put, and if that use is illegal, we will refuse to lease it. We will keep strictly within our legal rights, but under no circumstances will we surrender them."

Meehan Jury Hangs Fire.

ST. HELENS, Or., May 20.—(Special.)—The jury in the case of Charles Meehan, charged with burglary from the Mayor store at Mayger, has been out since 3 o'clock this afternoon without being able to agree. They were called into court at 2:30 this evening and asked if there were any prospects of an agreement before being informed in the negative the Judge instructed them, in case of an agreement before morning to bring in a sealed verdict. Meehan is strictly within his legal rights, but under no circumstances will we surrender them.

Promoters Strike a Snag.

OLYMPIA, Wash., May 20.—(Special.)—The promoters of the Doffmeyer townsite have apparently run up against a blockade in making their water-front improvements. After surveying his title lands Schneider claims to own all the more valuable part of the deep-water frontage.

House Burned, Jewels Stolen.

SAN MATEO, Cal., May 20.—The fine mansion of Thomas R. Turner, the capitalist and oil operator, was destroyed by fire yesterday afternoon. The loss is about \$25,000, and the property was partially insured.

Among the losses were about \$20,000 worth of jewels, chiefly diamond ornaments of Mrs. Turner. A guard has been placed around the grounds to protect it from possible thieves searching in the ruins for valuables. Turner had just completed numerous improvements and interior decorations for the house and grounds, which made it one of the most luxurious homes in San Mateo. He will probably rebuild a new and more elegant mansion.

The origin of the fire is not known, but it is supposed to have been caused by a wire, as it started in the garret.

After all, the thing I like best about "FORCE" is the enjoyment I get from eating it. It makes little difference how "good" a food is if you don't like it. I've met mighty few people who don't like "FORCE."

You can relax "FORCE" for a longer time, without change, than any other food I know of. But it isn't such a bad notion, now and then, to switch off onto something else for a day or so. Even though you can't change to anything quite so good.
