Portland Academy 7, Hill 2. The Portland Academy baseball nine, by defeating the Hill Military Academy at the Vaughn-street ball grounds, yes-terday afternoon, pushed its standing up to a point to which there is not a ghost of a chance of any one else equalling it in the Interscholastic League.

Though the Academy had only eight hits and Hill had six, those of the former were well bunched and aggregated seven runs, while Hill made only two. Hill aided in its own defeat considerably by making six costly errors, while the Academy's record in this regard was next to perfect.

NEW YORK, May 25.-L. J. Curran, of Chicago, president of the freighthandlers' and, therefore, he had been organization, who is in charge of the strike against the New York, New Haven & Hartford Road, tonight denied that he had ordered a general strike along the line of that railroad as was reported yesterday. He said he had received word from Providence, New Bedford, Stonington, Fall River and Waterbury to the effect that all of the freighthandlers and marine firemen had stopped work, but that the action was against his advice. He said that his proposition to the marine fire-men, made through the Civic Federation, was that the strikers will be taken back on the old terms of 30 cents an hour pend-

ing arbitration. Captain Miller, superintendent of the marine department, said tonight that the proposition of the Civic Federation had been received, but that no conference with the strikers would be granted, as it was useless. He had promised the men taking the strikers' places to keep them

permanently. President Curran received a telegram late today stating that the railroad com-pany had succeeded in securing in Buffalo about 50 marine firemen and were sending them down to New York. Pickets were im-mediately dispatched to the ferries to catch the men on their arrival and turn back if possible. President Curran said the company was employing profes-sional strikebreakers.

ROME, May E.—The Omervatore Romano, the Vatican organ, publishes an official statement reviewing the relations existing between Cardinal Merry del Val, the Papal Secretary of State, and M. Nisard, French Ambassador to the Vatican, immediately before the recall of the latter as the result of the papal protest against President Loubet's visit to Rome.

Friday last, according to the paper, M. Nisard visited Cardinal Merry del Val and told him he had been instructed by Foreign Minister Delcasse to inquire as to the authenticity of the text of the note to the Catholic powers as published in L'Humanite, of Paris, which varied from that directed to the French government, and to ask especially if the phrase regarding the recall of the nuncio, which was omitted from the note addressed to France, really occurred in that sent to the other powers.

other powers.

The cardinal said he would reply immediately if the Ambassador's interrogations were put in writing. M. Nisard pointed out that there was no time to do this, and the cardinal then said he would give an answer within an hour or even within half an hour. M. Nisard, however, in-sisted on an immediate reply and pleaded that the cardinal should answer "yes"

that the cardinal should be a considered to comply with the Ambassador's demands. M. Nisard replied:

"Then I shall telegraph Minister Delcasse that you decline to answer."

M. Nisard then withdrew, saying he would write. Two hours later Cardinal Merry del Val, not receiving word from the Ambassador, sent a communication to the Embassy saying that he was at M. Nisard's disposal and prepared to give an answer, but no reply to this communication was received.

On Saturday morning M. Nisard again visited the Secretary of State and informed him that the insistence upon a written form of his questions had been in terpeted as a desire to elude the subject, and, therefore, he had been instructed to loave Rome on a vacation.
