FRUITS IN DEMAND

All Kinds of Fresh Produce Sell Well.

WOOL MARKET ALSO ACTIVE

Buyers Taking Up the Glip as Fast as It is Offered--Cereals of All Kinds Slow-Hops Growing Well.

The week just closed was not marked by any striking feature in the local markets. A 'The greatest activity was in green produce and fruits, which were abundant and in strong demand. The wool market. was also very ac several weeks. Cereals of all kinds ruled quiet unchanged from a week ago. nd flour was also very dull. There was not much trading in hops, attention being principally directed to the growing crop.

WHEAT-it is not to be expected that much usiness can be done in the wheat market at this time of year. Only a few small lots changed hands in the past week, and they were sold by farmers who wanted to clean up pefore the new erop came on. Only a small quantity of old wheat remains in first hands. No buying is being done by millers and ex-porters are only taking such parcels as they can secure advantageously. Quotations show but little change from a week ago, buyers offering 72 cents for club, so cents for blue stem and \$1 cents for Valley.

The European situation is reported by J. W. Rush, of London, in the Northwestern Miller of May 25 as follows:

wheat markets during the past week, and gather better prices have been obtainable. potwithstanding the very large shipments. The inference, of course, is that the requirements are also very large, and that there will be not much difficulty in disposing of the big quantity (6,260,000 qrs.) affoat as it arrives. It is noticeable that of the 0.260,000 are, nor

It is noticeable that of the 0,260,000 qrs. now affoat only 1,060,000 qrs. are for the United Ringdom direct, 2,100,000 qrs. being for the Continent direct and no loss than 2,260,000 qrs. for orders. This latter, then, is capable of being diverted to the Continent, and to some amont this is very likely to be the case. That which is having a rather decided effect upon men's ruinds just now, however, is the American crop and its prospects. The Washington bureau's report for May has been received; it is disappointing to wheat holders maximuch as it does not show any decrease in the general average condition of the Winter wheat during the month; but this is offset by the very large area abandoned and we transthe very large area abundoned and we trans late the report as indicating a yield of only to \$50,000,000 bus compared with 400,000,000 bushels. Thus we argue that if the Spring wheat crop prove to be only an ordinary one of 250,000,000 bushels, America's production this year will probably not reach 600,000,000 bushels, and, consequently, the surplus next season will not exceed 100,000,000 bushels of which about 50 per cent will be required by hon-European countries. If this be finally found to represent the true condition on the west side of the Atlantic, I am decidedly of outside that the late Summer and Autumn will nion that the late Bummer and Autumn will opinion that the late Summer and Autumn will witness higher prices, for by the end of June we shall see the end of the hig Argentino shipments, and the new English crop will probably prove to be the amallest on record. Thus, the 500,000 qrs. a week which America has been in the habit of exporting in the four mounts from July to October in past years would be sorely missed.

Meanwhile we have generally favorable cropprospects in Europe, excepting Russia, where,

respects in Europe, excepting Russia, where, owever, the conditions are not favorable for se important Epring wheat erop. The world's visible supply on May 1, which gave you in detail last week for the last here years, compares as follows for the past

provement. While a good local business is be-ing transacted, there is practically nothing under way of an export nature. An occasional inquiry is received for quotations from points on the other side of the Pacific, but so far these inquiries have not developed into actual More strength is noted in the market for

account of Government business, bids on BEANS-Small white, 3%c; large white, 5%c; bayou, 3%c; Lima, 4c. mill feed, with supplies decreasing and the demand holding good. Oats are also firmer on

The activity that is so pronounced on the Coast is not apparent in the East, though there are signs of a somewhat better inquiry there. The latest issue of the American Wool

of the past two days has somewhat checked arrivals. On account of the scarcity, quo-tations yesterday were \$3 for Oregons and \$1.50 for Californias. Cherries and gooseber-ries are also plentiful and a few Legan berries have come in. The latest arrivals were cantaloups, two crates being received yesterday from Coachella. They sold at \$6.50

Green produce of all kinds is in full supply and moving treely at steady prices. New po-tatoes are taking the place of old stock, which is dull and dragging. Butter dealers report satisfactory business The movement is good and there is no sur-

plus hanging over the market. Eggs are again weaker, as receipts are large and buyers do not take hold so well. The same applies to the poultry trade, chickens pecially dull, except Springs. advance in sugar has not yet materialized. Other grocery staples are without feature, except tea, which continues strong. There is firmness in all the dried fruit markets, except

It has been a poor week for livestock. Receipts have been large and the demand slow. Prices are consequently demoralised and are much lower all around. Dressed means are not doing much better, though weel is a shade firmer, as Front-street dealers have succeeded tive and will continue so for in cleaning up. Hog products are easy and

orunes, and even they are doing a little

there are signs of a somewhat better linguiry there. The latest issue of the American Wool and Cotton Reporter says of Oregon wool in the Buston market:

In Gregon wools there is practically nothing doing. Interest is now centered in the State of Oregon, where, at Pendleton, the sales have been begun and preity stiff prices have been paid for wools shrinking 58f70 per cent. A wool shrinking 50 per cent. A wool shrinking 50 per cent. A wool shrinking 58f70 pe

Bapores from the yards are in the main favorable, though some claim that the old case are not showing up very well and that a short crop must be looked for. Some of the yards are not being cultivated as they ought to be probably from lack of time. In going about the country many yards are seen to be plowed up. They are mostly yards are seen to be plowed up. They are mostly yards that were almost a failure last year. There have, however, been new yards set out soafdant the arreage will remain about the same.

PRODUCE—The attention of fruit men is being given up almost entirely to the straw-berry trade. The season for California berries is practically closed and Oregon truit is taking the plane. Receipts from Hood Elver, The Dalies and local territory were good in the later part of last week, but the cool weather.

CHANGES

MOVEMENT IS CONFINED TO STOCKS OF DORMANT CLASS.

Net Earning Reports of Railroads Show the Declining Tendency is Still in Force.

NEW YORK, June 1.-There was a slightly wider movement of prices in today's stock market than the recent average, but this was largely confined to special stocks of the dor mant class. The usual market leaders were sluggish and neglected and their narrow fluc uations cannot be accepted as indicative any widely held opinions on the market. Many of the low-priced stocks which sold off

ing measures for the securities in the market abandoned.

The downward course of railroad earnings delays the hope of dividends which were distinctively prospective at best. A number of southwestern railroad stocks suffered from professional uneasiness over their financial prospects. One or two point losses resulted in the Colorado & Bouthern stocks, the St. Louis & Southwestern stocks, Missouri, Kanssa & Texas preferred and some others. The heavily in sympathy with that in these special stocks. News was taken little account of a decrease of the iron output in prospect and some others. The continued large demand for an office and thracite made the coalers relatively firm and there was besides some demand from shorts to cover in the Eries on their recent drop. A number of reports of net earnings of railroads for April aboved the declining tendency still in force.

The money market showed ne change from the court of the prospect of the prospect of the cover in the Eries on their recent drop. A number of reports of net earnings of railroads for April aboved the declining tendency still in force.

STRONG FROM THE START.

Crop Reports.
CHICAGO, June I.—From the start, when exhibited strength. At the opening the strength was due chiefly to reports of additional rain in Kansas and other sections of the south-west, the fear being quite general that the of more rain in the southwest intensified the parket received excellent support. Many of the low-priced stocks which sold off sharpily today have had the appearance of speculative affinities in the past under pool manipulation, and the suggestions put after in the course of the past manipulation have implied a possibility of seme ultimate combination between a number of such reads, small in themselves, and of small financial importance, with no dividend distribution on their stocks and with more or less mystery maintained regarding the actual earnings and operation. The common interest in these stocks of a speculative party of some prominence has conscituted a vantage point for speculative operations in the group under leadership. The scilling of these stocks for the last few days is attributed by the scileration for speculative bard have been largely reduced, and supports for the securities in the market abandoned.

The downward course of railroad saraines. strength in corn was a further aid in creati

BUTTER AND EGG BOARD

SAN FRANCISCO DAIRY TRADE TO ORGANIZE AN EXCHANGE.

Wheat Closes Near Top Notch at Chicago on Object is to Put the Business on a More Substantial Basis--Stocks of Grain.

> SAN FRANCISCO, Cal., June I .- (Special.) Merchants' Exchange are: Wheat, 33.000 tone; barley, 11,900; cats, 1800; corn, 200 bran, 200. Wheat and bran show a small increase and barley, cats and corn a liberal rease, as compared with a month ago. Wheat and harley options had a sharp adbut spot prices of both cereals were unchanged. Oats were slightly lower, as buy ers are offish and some holders are making concessions. New volunteer hay is mor plentiful and wealter. Old grain hay teady pending the opening of Government bids. Feedstuffs are firm.

Leading people in the dairy trade are tak ing preliminary steps towards organising a butter, eggs and cheese board in this city, the object being to put the business in thos products on a more substantial plans. The first work proposed for the new exchange will be to gather and disseminate statistics and useful information. No quotations will be made for a long time. Dairy products, except fanciest ranch eggs, are in large supply and easy. Receipts, 82,000 pounds butter, 6000 pounds cheese, 32,000 dozen eggs. Stocks of hope are small and all in second

and third hands with trade of light jobbin character at unchanged prices. The wool market is in good shape. Deciduous fruits were in liberal supply, with prices generally easy. Fancy, sound oranges were scarce and firm. Six carload suctioned at 75 cents to \$2.80.

New potatoes were plentiful and lower, but selling well. Old potatoes were neglected and very weak. New red onions were lower Garden vegetables were easy.

ELKS ENTERTAIN AT SOCIAL. Mock Initiation of a Candidate Amuses Their Guests.

The ladies' social given by Portland Lodge No. 142, B. P. O. Elks, at the Armory last night, was one of the most \$30 P. M. successful social events of the year. Fully 1500 people witnessed the mock imitation of a candidate, and the programme was as well rendered as it was prepared by the committee. The enter-tainment committee was composed of the following: Sig. Warthiemer, W. Seton, W. W. Bretherton, Joe Forestel, C. M. Bills, G. Bebvet, Otto Schuman, L. F. Smith, W. Diggles and Fred Merrill.

Smith, W. Diggles and Fred Merrill.

Promptly at \$ o'clock the lodge was opened. W. W. Robinson, royal stag; C. E. McDonell, knight of the robe; Dr. H. F. McKay, knight of the plume; Jay Upton, knight of the gauntlet; James Berger, executioner; J. Kaliszy, custodian of the kcg; A. Harris, organ grinder; William Barry, gatekeeper; J. B. Coffee, knight of the quill; E. W. Rowe, keeper of the sack, and W. F. McPherson, clergyman, entered the hall and took their respective entered the hall and took their respective altars and positions. While the sacred ritual was being recited the screeches of a woman was heard from the loft overaltars and a strong recited the second ritual was being recited the second ritual was being recited the second ritual was heard from the loft leaser, and to the surprise of all discovered a woman, who was brought to the foot of the royal stag's altar, where she announced that her name was Mrs. King, of Ballard, that she had witnessed all the initiations of the past three months, and demanded admittance to the lodge, and demanded admittance to the lodge.

The independence—Monmouth motor line operates daily to Monmouth and Airlie, connecting with 5. P. Co. strains at Dallas and Independence. royal stag, and Mrs. King was com-pelled to atone for her diagraceful con-duct in the presence of the audience. The iniation, which followed, was exceedingly amusing, and received continued appliause. Dancing commenced at 10 o'clock and continued until a late hour. During the dance refreshments were served in two side rooms. Music was furnished by Par-sons' Orchestra.

The decorations consisted principally of flags of all nations, several hundred beau-tiful embloms being hung from the cell-
