HOT SKIRMISH AT VAFANGOW

Japanese Used the Trick of Display ing Dummies, but the Russians Waste No Shots on Them.

LIAO YANG, May 20 (delayed in transmission).-The Japanese lost 200 men killed and a number of horses in the fight at Vafangow today. The Russians opened fire at 8 in the morning, and after two hours and a half long-range firing the Japanese, under General Akkiama, prepared to charge and crush the force which had been harassing them for 21

In the meantime, General Samsonoff was approaching Vafangow with a strong force of cavalry. It was a sight worth seeing, when, at the word of comworth seeing, when, at the word of com-mand, the Russian squadrons formed and rushed like a whiriwind across the terribly cut-up country, clearing away terribly cut-up country, clearing away all obstacles, the Japanese at the same time trotting along the frightful roads. Having passed the railroad station, the troops came under the fire of the Japanese machine guns, but withdrew without suffering much loss. anese machine guns, but withdrew with-out suffering much loss.

Wounded Russians Reach Mukden.

MUKDEN, June 1.—A hospital train arrived last night with wounded from the fighting at Vagenfuchu, bringing three offloers and 23 men. General Kuropatkin visited them, complimented them on their bravery, and awarded eight crosses of St. George. Four of those wounded at Va-fangow were left at Liao Yang in too serious a condition to be moved. Some of these have four to six bullet wounds. One

### One Squadron Annihilated.

ST. PETERSBURG, June 1.—General Sakaroff has telegraphed as follows, under today's date, to the general staff: "According to reports, the Japanese mmander in the action of May 30 near

Vafangow had three battalions of infantry in reserve. Our losses were 17 men killed and 23 men wounded and Lleutenant Meyer and another officer, whose name has not been ascertained, wounded. The Japanese losses were very considerable. One squad-ron of the Thirteenth Japanese Cavalry was annihilated in a hand-to-hand en counter, and another squadron which came to its assistance, suffered great loss from the fire of our frontier guards and riflemen. We captured 19 horses,"

ST. PETERSBURG, June 1.-The War Office does not believe the report from Tokie that a Japanese division has em-barked for Northern Corea to check an alleged advance of Lieutenant-General Linevitch's army. A high military offi-cial points out that Linevitch would have had to march 300 miles over

Arthur Roadstead. ST. PETERSBURG, June 1.—The following dispatch from Viceroy Alexieff to the Emperor, dated May II, has been re-

ceived here:
"Rear-Admirals Wittsoeft and Grigoro Japanese mines had been discovered and exploded in the roadstead of Port Arthur. The Japanese evidently have replaced the fireships which they formerly used by mines sown by merchant steam ers in their service."

The Emperor has received the following dispatch from General Kuropatkin, dated

"All is quiet in the direction of Feng Wang Cheng, Siu Yen has not been occu-pled by Japanese detachments. "On May 30, two camps of Japanese in fantry and 30 dragoons advanced along the Takushan road towards Onalassi for the purpose of turning the left finsh of our outposts. Our scouts discovered the move-

ment and firing ensued, in the course of which one Cossack was wounded and one horse was killed. "The Japanese detachment, which our cavalry successfully engaged May 20, is now stationed four versis from Vafangow,

fortifying its position.
"There have been further Japanese advances from Saimatas toward Feng Chow Ling Pass on the Liao Yang road."

LAND MANY YEARS.

Railroad to Riparia or Celilo Canal Would Form Bond of Wedlock, but Seattle Is Hot Rival.

"For years the Lewiston country has been courting Portland," said C. F. Allen, a manufacturer and banker of Idaho, vesterday, "but the wedding has not yet aken place. What we want is a rail con-nection between our country and the Ore-

gen metropolis."

Mr. Allen is president of the First National Bank of Clarkston, Wash., and is also president of the Valley Lumbering & Manufacturing Company. Clarkston is a town of 2500 inhabitants situated just gon metropolis." cross the river from Lewiston, Mr. Allen s in Portland buying machinery and this reminded him to make a protest.

reminded him to make a protest.

"Five years ago," said he, "I was building a factory in Idaho and needed \$15,000 worth of machinery. After a while I purchased it at Seattle, and later some Portland dealers asked me why I had ot bought it here. The reason was that the Puget Sound houses had their adver-tising matter and catalogues all through Idaho and their traveling representative founded me up. I never heard of or from a Portland firm in this connection." An open river is the ultimathule of Mr. Allen's hope. But he expects to have to wait many a long moon before the steamcoats run through to Lewiston from

"The Celilo Canal will help us greatly, said Mr. Allen, "but I think the Riparia Railroad will be built before the river is open all the way to my home. Of course the Northern Pacific, which now carries all our trade to Spokane and Seattle, will all our trade to spokane and Seattle, will oppose the building by the O. R. & N. of this 68-mile read, which would divert the travel to Portland. Still public sentiment is growing on this point and it is the all-powerful element in the conduct of this country's affairs. I trust that the Portland commercial interests will not let the cuestion sleep."

he question sleep." Allen went on to explain the absurdity of the transportation conditions existing at Lewiston. "The distance to Scattle is longer by

300 and odd miles than the distance to Portland. The road to Scattle is up grade and crosses the Cascade mountains. The grade to Portland is down the river all the way. And yet I can leave Lewiston at 8 o'clock in the evening and get into Scattle about the same time as I can reach Portland. Isn't this wrong? Doesn't it operate to the disadvantage of

Portland's commercial interests?"
As an aid to obtaining an open river which work must be done by the Government, Mr. Allen suggests that ever business man in Portland who is not a native of Oregon Interest the Congres-sional Representatives of the state he came from in the matter. "I have done this with the Senators and

Representatives of Wisconsin, where I lived for many years," said Mr. Allen, "I ave shown them the tremendous con mercial importance of a great inland waterway, and whenever the question is brought up in Congress, I think you will find that the support of Wisconsin's Representatives will be given to the project.
Seattle and Spokane, of course, have always opposed it and always will."

Judge McCreedie has been stinging the ball in his good old way, and the San Francisco Bulletin says this about him: The star play in yesterday's game was "Judge" McCreedle's catch of Hildebrand's foul fly close to the fence. When the ball was hit McCreedis was in the center of his

and caught the ball with one hand close to the boards. "Mac" received a round of applause for his spectacular feat.

There were four Seals thrown out at plate yeaterday, and one came about in an unusual way. In the fourth inning Hildebrand

mashed a single into right field, and when the ball went over Marty Murphy's head he tossed up his big glove and hit it, which deflected the course of the ball downward. Phil Knell, who was on second, tried to score on the single, but McCreedle scooped up the ball and winged him out. Had not Murphy's give intercepted the course of the ball it is very doubtful if McCreedle would have retired the runner. "When I was play-ing at Omaha a couple of years ago I saw a play something like that," said Bert Jones. "Buckley, the old National League catcher, was playing first base for Omaha, and the ball was hit over his head. He threw up his big mit and the ball stuck in the cav would have thrown Knell out had not Mur phy changed the course of the ball with his glove."

# Ayer's

You have doubtless heard a great deal about Ayer's Sarsaparilla - how it makes the blood pure and rich, tones up the nervous system, clears the skin, reddens the cheeks, and puts flesh on the bones. Remember, "Ayer's" is the kind you want-the kind the doctors prescribe. All dresslets. Ayer's Pills are a great sid to Ayer's Sarsaparilla. These pills are liver pills, safe for the parents, and just as safe for the children. Purely vegetable. J. C. AYER CO., Lowell, Mass.
