SAGE DEEMS VACATIONS BAD. Financier Believes Men Return Tired Out Instead of Recuperated.

NEW YORK, June 2-In an article NEW YORK, June 2-in an article under the caplion, "The Injustice of Vacations." the Independent quotes Russell Sage to the effect that he never has taken a vacation in his life; that the "vacation habit is the outgrowth of abnormal or distorted business and that a man is less fitted to do good work for his employer after two weeks' rest each year than he was before.

"When I was a boy," said the veteran financier, "the practice was not in vogue, During the 83 years of my career, I have not once taken a vacation.

As a matter of fact, I was so glad to get a chance to learn business that the idea of asking my employer to make me a present of two weeks of the time that belonged to him would nave been preposterous. Besides, I was eager to advance in business.

"Is it not absurd to suppose that a man can in two weeks recuperate from the weariness of a year's work? On the contrary, I have too often observed that men will, while on their vacations, make mroads upon their vitality and purses that cannot be repaired in the following 11 months and two weeks.

"A man should work 'easy,' be economical of his time, conserve his forces and not worry. It is worry and not work that makes the hair gray. If I had 1000 tongues I would preach 'Save time' with them all. It's infinitely more valuable than money." than money."

NEW WAY TO MAKE STEEL. Trust Official Expects Greatly to Re

duce Cost of Manufacture. NEW YORK, June 2-Steel and from

men throughout the world will be inter-ested to learn, according to the Herald, that James Gayley, vice-president of the United States Steel Corporation, after a long series of experiments, has practically perfected a new process for making steel which he believes will greatly reduce the cost of manufacture.
For years Mr. Gayley has been work-

n the process, and has now informed his friends that his experiments, conducted at the Isabella furnaces, in the Pittsburg district, have indicated that the new method will prove a practical suc-cess. It is understood that they have re-sulted in reducing the moisture of the air applied in the converting of the ore

Briefly stated, the Gayley process is a modification of the Bessemer process, which revolutionized the iron and steel industry. The process will be applied in the manner of pig iron as well as steel. It is understood the process will greatly cheapen the cost of production.

Holds Race Suicide Due to Flats. S. June 2-In an address be

ilsaouri State Congregational on, "The Religious Oppor-Obligation of the Home," Rev. Stimson, of Kansas City, imon the ministers that it is their two large families.
orn five-mom flat, he declared. nemy to family life, and em-

bis remark by stating that the such property have placed a on small families, and accordingly an embarge upon infants.

The Oldest Trust Company in Oregon,
FORTLAND TRUST COMPANY
OF GREGON.
No. 100 Third Street.
Incorporated April 22, 1807.
A National Bank had on hand more cash than it required for its reserve.
It took three of our special certificates of deposit, payable on thirty days' call, with interest at three and one-half per cent per annum. annum.
It thus procured a temporary investment that will hot fluctuate.

When its reserve runs low it will call the certificates.
Suppose your bank has a surplus of cash, call on us or send for a book of HILUSTRATIONS.
