Mead Refuses to Be Brought Into the Controversy Over Place of Lieutenant-Governor on Washington Republican Ticket.

SEATTLE, Wash, June 7.—(Special.)—Acting for Charles E. Coon, Republican candidate for Lieutenant-Governor, Harry Ballinger today sent a letter to Chairman E B. Palmer, of the Republican State Committee, declining to withdraw from the state ticket. In this letter Coon's declination is stated so strongly that it is insisted he will not get off the state ticket if he should be left alone by the withdrawal of all other candiby the withdrawal of all other candi-dates. Coon's friends advised Palmer to let the matter drop, insisting this is the best policy for himself and the ticket.

Threats are made that if Palmar per-sists in his fight against Coon, a fight against the state chairman will be precipitated to get him out of the leadership of the committee. This may be one of the developments of the first meeting of the state committee if Palmer atupts to carry out his intention of askmittee to sustain his position Palmer is ill at his home and has de-

EXPECT RATE ON LUMBER. Puget Sound Men Believe Concessions Will Be Granted.

SEATTLE, Wash., June 7 .- (Special.) Those lumbermen who attended the Chi-cago conference with officials of the Northern lines are confident that they will be granted some concessions. They expect to at least get a 6-cent rate into Missouri River territory, and a 40-cent rate to Aurora, Neb., and common points. A definite answer to the lumbermen has been promised by the end of the present week. Assurances were given at St. Paul last Thursday that the matter was still under consideration, and a majority of

the committeemen came home yesterday feeling confident of success. The Chicago City News Bureau quoted Ben Campbell, assistant traffic director of the Harriman lines, as declaring that no rate changes would be made. This statement has not affected the confidence of the millmen, who claim to have had a general intimation of success from the Hill traffic officials. They believe the Harriman interests having comparatively a lighter lumber traffic than the Hill roads will acquiesce when Hill insists upon the rate.

It is said Dougherty sought to persuade his wife to return with him to Portland and to forsake her companions in Hood River. She refused to go with him. He urged her further, and in a burst of passion is said to have remarked that she would go home with him today or he would blow her brains out.

He left the woman at midnight and returned to his hotel. This morning Dougherty was refused admittance to his wife by the proprietor of the bearding-house wherein his wife lay sick. He was told she did not want to see him. He then asked to get some letters and a picture from her trunk, but was told to leave the house. This was near the noon hour, and about the same time Al. His statements are corroborated by the evidence obtained from the board-ing-house keeper and a physician. He said the proprietor wanted to know who would pay the girl's board bill, amounting to about 155, and as Dougherty had not the money with him that he take the train for Portland and see after the funeral arrangements for his wife, whom the doctors had said was dying. At the time Al. PORTLAND, Or., June 6.-(To the Ed-itor.)-Following in the wake of the Gubernatorial party in their recent visit to Eastern Oregon to inspect the irrigable lands of Crook County, now being brought under a water system, I wish to bear testimony to the cautious and conservative report made by them and your reporter as to the possibilities of that section. That they are all well within bounds in every statement and conclusion your columns have borne witness. The skeptic who has doubts would be established in belief on seeing the result of planting by farmers who have Government claims on the border of the great tract on which water is now being conducted. Fleids sown to wheat, bariey or rye 30 and 45 days ago, already are from four to eight and ten inches in height. Of these a dozen instances may be seen on the stage road from Princeville to Bend. They are on land at least 4000 feet in elevation, sown and grown so far with the aid only of the natural rainfall.

I will further state, having just made a journey to Albany, Or., and return, that I saw no field of Spring-sown grain on the trip more than equal to what the conference of the control of the control of the conference of the

On a recent inquiry at the office of the Sunnyside Irrigation Company, in Scattle, I found that the remaining unsold lands of their tract are now held at from 100 to 100 per acre, and only those of the exterior of the tract are left for sale. In Crook County the best lands are held at not over \$13 per acre, the more undesirable at \$1, a difference of as one to seven. CURED WHEN OTHERS FAILED. Third St., Menasha, Wis., Sept. 1, 1903.

I am pleased to indorse Wine of Cardui, as I have found that it was of great benefit to me when I had lost my health. I am the mother of four children and for the last two years I have not known what it was to have a well day. I suffered with sick headaches, backsches and bearing down pains, which made me wretched and there were days when I could hardly drag my feet across the floor. The doctor said it was organic trouble and I took the medicine for almost a year, but I could not see that he was doing me a particle of good, so I began to take Wine of Cardui. My improvement was gradual but each month there was a change for the better and at the end of six months I am pleased to say that I was restored to health. I am indeed grateful and shall recommend your medicine to all my friends.

Wine of Cardui has brought health to hundreds of thousands of women who had given up all hope of ever being well again. You do not need to give up.

Take Wine of Cardui. Wine of Cardui has cured Mrs. Rausch and 1,500,000 other sufferers. YOU should take advantage of this great woman's remedy which has cured so many sufferers like yourself. Decide to take Wine of Cardui today.
