CURZON BROUGHT ON WAR.

Vicerby of India Deemed Thibetans Did Not Show Him Due Respect.

WASHINGTON, July 7.-The discreet inquiries of the State Department into the object of the British-Thibetan expedition, as related in yesterday's Associated Press cablegram from London, appear to have developed a rather curious fact, namely, that the British home government was lukewarm, if not absolutely indifferent, in the matter of sending

Indeed, it is said here, that Colone Younghusband was allowed to go for-ward only to save the pride of Viceroy ing to secure what he deemed due offi-cial recognition for the representatives of the Indian government, sent by him into Thibet, he appealed to the home government for an armed escort to seire proper treatment for them, the home

overnment reluctantly assenting.
It is said here that the British gov ent has already expressed its will ngness to withdraw this punitive expedi tion as soon as it can obtain from th Thibetans promises of yielding the points which were at issue between India and Thibet before the expedition crossed the border of the latter country. These are pledges of freedom of trade between the countries and official recognition of the right of the representatives of the British government to exercise its functo retire on this basis the more readily that they are now satisfied from their experience that there is no danger to be aprehended of Russian encroachments on India by way of Thibet in view of the

tremendous goographical obstacles.
It is stated that the British government has received the American overtures on this subject in the best temper. Indeed, they were rather welcome, as tending to emphasize the determination of the American government to do everything pos-sible to protect the integrity of China
