Oku's Troops Continue Their Advance, and Are Now Within Eight Miles of the City.

CHICAGO, July 12.—The Daily News has the following special cable from a staff correspondent:

Niu Chwang, July 12.—General Oku's

WHERE THE ARMIES ARE FACE TO FACE

General Kuroki's army is now face to face with the Russians under General Keiser, where the Liao River crosses the Feng Wang Cheng road, about 30 miles eastward of Liao Yang.

General Oku, who commands the Japanese army advancing from the south, occupied Kalping July 8, after a series of desperate fights, culminating in the dislodgment of 20,000 Russians from the heights around the city.

General Oku is said to have 50,000 men, and an equal number of Russians is reported to be concentrated in the Tachieno district, but 15 miles north of Kalping, the latest place to fall into the hands of the Japanese.

troops continued their advance yesterday eight miles south of this city on the coast road from Kalping.

The number of Japanese troops moving from Kalping is estimated at the war from 100,000 to 150,000.

Russian soldiers passing through this place blame the signal corps for much of the ill-success of the campaign.

The column have been unable to cooperate, and the scouts have been unable to communicate the movements of the enemy.

The army possesses elaborate telegraph equipment, but has no trained operators.

The men of this department appear to be unable to read messages. The field telegraph is frequently rendered useless by the cutting of wires by the Chinese.

NO WAR FOR THEM

Great Britain and Germany Join Hands for Peace.

AN AGREEMENT IS SIGNED

England is Much Surprised, and Not All Pleasantly—Organs With Great Influence Illy Conceal Their Disappointment.

COMES AS SURPRISE TO BRITAIN

Powerful Organs Illy Conceal Their Disappointment.

LONDON, July 12.—The announcement that an arbitration treaty between Germany and Great Britain was signed yesterday by Foreign Minister Lansdowne and Count Wolf-Metternich, the German Ambassador, comes as a complete, and not altogether pleasant, surprise to the English press and public.

It was against such an agreement that the Spectator and other powerful organs urged the Government prior to King Edward's visit to Emperor William at Kiel.

By the papers, which echoed that warning, the news of the signing of the arbitration treaty is swallowed either with palpable dislike, or with ill-concealed disappointment.

The only whole-souled appreciation comes, curiously enough, from opposition papers.

The Chronicle and the Leader follow suit, while such a staunch mouthpiece of the Government as the Telegraph expresses its disapproval of the arbitration treaty cannot compare in importance with the convention concluded with France.

A similar method of evading criticism is pursued by the Standard, but the Post truly deserves the Government, characterizing Lord Lansdowne's latest diplomatic stroke as "a policy of unsettled convictions," and of "promiscuous amaliability."

The Telegraph, undoubtedly voicing official opinion here, says: "Every person of common sense must rejoice in the elimination of petty friction from the diplomatic intercourse of Great Britain and any other great power. We should desire, above all things, a similar arrangement with our kindred, the United States, and there is nothing in the world that is more identical with Russia."

TROUBLE WITH VATICAN ACUTE. France Directs Bishops Not to Respect Order to Resign.

PARIS, July 12.—The Matin today says that eight days after the recall of M. Nisard, ex-French Ambassador at the Vatican, a number of French bishops received an order from Cardinal Vannutelli, acting for the Vatican, to tender their resignations by return mail.

The bishops, it is added, consulted the Minister of Public Worship and Premier Combes, who directed them not to tender their resignations, on the ground that the concordat recognized the assent of the state before removals were enforced.

Thereafter the papal secretary of state, Cardinal Merry del Val, threatened the bishops with the termination of their episcopal powers unless they came to Rome within 15 days.

The Matin further asserts that the dismissal of the bishops without consulting the Government is a violation of the relations between church and state.

The Matin gives semi-official details of the efforts of Cardinal Vannutelli to compel the resignation of the bishops. Bishop Geay, of Laval, was asked to forward his resignation. Bishop Nordez, of Dijon, was directed to suspend the performance of his episcopal duties, and four archbishops and two bishops were directed to come to Rome, namely: Archbishop Fuzet, of Rouen; Mignot, of Albi, Sues, of Avignon, and Oury, of Algiers, and Bishop Lacort, of Tarentaise, and Bouquet, of Mendo. In each case, the orders were not carried out owing to the intervention of the Minister of Public Worship.

SEATTLE, July 12.—The Washington State Medical Association opened its fifth annual session in this city today. In attendance there are about 150 physicians from this state, Oregon and Idaho.

The meetings of the organization will continue until Thursday evening. The association announced itself as opposed to medical schools in connection with state universities.

PE-RU-NA TONES UP THE SYSTEM

IF TAKEN IN THE SPRING

SAYS THIS BEAUTIFUL YOUNG GIRL

MISS MARJORY HAMPTON, OF NEW YORK.

Miss Marjory Hampton, 2616 Third Avenue, New York City, writes: "Peruna is a fine medicine to take any season of the year. Taken in the Spring it tones up the system and acts as a tonic, strengthening me more than a vacation. In the Fall and Winter I have found that it cures colds and catarrh, and also finds that it is invaluable to keep the bowels regular, acting as a gentle stimulant on the system. In fact, I consider it a whole medicine chest."

PURE BLOOD. Blood Impurities of Spring—Cause, Prevention and Cure.

Dr. Hartman's medical lectures are eagerly scanned by many thousand readers.

One of the most timely and interesting lectures he ever delivered was his recent lecture on the blood impurities of Spring.

The doctor said in substance that every Spring the blood is loaded with the effete accumulations of Winter, deranging the digestion, producing sluggishness of the liver, overtaxing the kidneys, interfering with the action of the bowels and the proper circulation of the blood.

This condition of things produces what is popularly known as Spring fever, Spring malaria, nervous exhaustion, that tired feeling, blood thickening and many other names.

Bulgaria Gives Diplomats Concern. VIENNA, July 12.—The renewed revolutionary outbreaks in Macedonia are causing concern in diplomatic circles here. It is said that Prince Ferdinand, of Bulgaria, during his recent visit to Vienna, expressed anxiety regarding affairs in the Balkans, and that he was apprehensive lest a decisive defeat of Russia in the Far East would render it difficult to prevent Bulgarians from making common cause with the Macedonian revolutionists.
