Shoes and Their Wear

Autumn Footwear in the Great October Expansion Betterment Sale on the First Floor

The curves of your foot follow the line made by the 26 bones forming the heel, arch, ball and toes. Shoemakers in the past ignored this, and treated the sole as straight and rigid—that's why you have spent days of misery "breaking in" a new pair of shoes. Perhaps you recall such an

It remained for the Pingrees, of Detroit-famous American Shoemakers—to construct what no man had ever evolved before—a shoe to follow the curves of the foot. An idea exclusive with the famous PINGREE SHOES. These shoes are constructed on an anatomical last by which the foot rests on a formed foundation (concealed) adjusted to Nature's curves. Far more costly in making, but they guarantee instant ease-the "old shoe feeling" with the new shoe appearance.

PINGREE SHOES are not the ONLY stylish shoes as they ARE the only truly anatomical. But they do combine all the latest and highest styles with real comfort. In material and workmanship they are the envy of competitors. They cannot be duplicated at the price, and as good a shoe cannot be made and is not sold for less. PINGREE SHOES are made for all sort and condition of man and womankind, but more especially for those who can appreciate a shoe which gives absolute comfort and the acme of style. The PINGREE SHOE is a composite of the superlative in both. The street shoes for Autumn and Winter wear embrace all popular leathers, includ-ing box, gunmetal and velour calf, enamel or dull kid and kid lined throughout, double or single soles for hard service or dress wear, all style of toes, full round, medium round or wide and "comfy," military, Cuban and the 1-inch flat walking heel. Raincoats: Women's and Children's

Second Ploor Salons of Women's Outer Wear. The automatic reporter of store news emanating from one of the "also ran" class of stores said yesterday that his store was the "only one in town showing complete assortment of women's and children's raincoats." This statement showed one of two things-probably both-a woeful ignorance of truth or what other stores show.

The facts Are These:

This store can show two for one of every raincoat included in the showings of local stores-and the coats are here to prove it. But nobody gets fooled. The writings of some stores are quite unsafe to take without shutting both eyes, stopping the think watch, and taking a liberal dose of saltsof-mirth. We said yesterday—and repeat today: HUNDREDS OF NEW RAINCOATS CAME BY EXPRESS SATURDAY. Beautiful garments, adapted for wear on beautiful days when sunshin reigns or protection against the elements that storm. The new ones are full of surprising swagger newness. As easy to get into as a man's full-dress topcoat. Indeed, some of them are modeled after that garment. Priestley Gravenettes, with a world of quiet, dignified beauty and smart effects. Pretty ings on collar and cuffs of brilliantly colored velvets-yes, and pastel cloths. Newest of allleather trimmings. There are dozens of new de-tail touches to enthuse over. Some of the coats have box-plaited back and front from collar to hips. The Palette (cape sleeve) Coat is a favorite— in fact, Fashion's latest. The show of good-looking styles at from \$15 to \$25 is noteworthy. It's Raincoat Year and this showing here is far away the best and greatest on the Coast. We've twice as many as any other three local stores. Coats that are fit to guard the most magnificent opera gown or ball dress; coats that are appropriate for street. Any price you choose—\$10.00 to \$50.00.
