Oregon Criminal Laws Cannot Be Used to Collect Debts.

ORDER PRISONER DISCHARGED

Governor Chamberlain Advises Gov ernor Pardee, of California, That He Is Being Imposed Upon by Fugitive's Creditors.

BALEM, Or., Oct. 12-(Special.)-Because the criminal laws of Oregon are ng used as a means of enforcing the settlement of a civil claim, Governor Chamberlain has ordered the immediate discharge of Aleck Axelrod, who has been under arrest at Hillsboro for several days The Governor has also written to Gover-nor Pardee, of California, calling his at-tention to the facts and advising him that he has been imposed upon. This is one in-stance of Governor Chamberiain's efforts put a stop to the employment of crim-al process as a means of enforcing civil

ernor's attention today in a letter from Justice of the Peace H. T. Bagley, of Hillsboro. Axelrod was arrested October & charged with being a fugitive from Jus-tice in California. Under section 1730 of the Code it was the duty of the Justice to notify the Governor at once of the arrest, but this he did not do. In his let-

I have not heretofore notified you for the remon that I was advised that requisition papers have been issued by the Governor of the State of California and were in the hands of an officer who would appear forthwith. It appears, however, that the com-plaining witness against Mr. Axelrod has been holding the officer in the State of Cali-fornia and has himself visited this state with a view of securing a settlement; hence i appeared to me unnecessary to immediately hotify you of the action taken by me, inas-much as an agent had already been ap-pointed by the Governor of the State of California.

To this letter Governor Chamberlain replied at once, saying in part:

If the complaining witness against the de-feedent is in your city attempting to nego-tate a settlement with him, the defendant ought to be discharged by you summarily. In order to procure the issuance of a war-rant of extradition from the Governor of California it must have appeared to the Governor of that state as a condition precedent to the issuing of such writ, that it was cent to the saming of said wit, that it was not sought for the purpose of having the de-fendant returned to California for the col-lection of a debt, and that seems to be the purpose which the prosecuting witness had in view when he imposed upon the Governor of California and induced him to issue a writ for the return of the defendant to Call

pendency of the proceedings against Axeired. and trust that you will not allow your court to be made a party to the attempt which is being made to force the defendant to pay a

Writing to Governor Pardes, Governor Chamberlain inclosed a copy of Justice Bagley's letter and a copy of his letter to Bagley, and said:

Hagley, and said:

You will see from both inclosures that you have been imposed upon by some one who is attempting to use the process of California as well as that of Oregon for the purpose of compelling an unfortunate devil to pay a debt. I know nothing about the case except what appears from the inclosures and my collaion is bused entirely thereon. I know how difficult it is to sift the motives of individuals in cases of extradition, and I feel dividuals in cases of extradition, and I feel that when we are imposed upon we ought to make examples of the persons who impose

Several times Governor Chamberlain has learned that extradition proceedings have been made the means of enforcing civil demands, but usually this fact does not develop until after the proceedings are over. Recently the Governor issued requi-sition papers and had a man brought back plainant secured a settlement with the man charged with the crime and then re-fused to prosecute the criminal charge. When the claim was presented for the expense of bringing the man back to Oregon, Governor Chamberlain refused to approve it and the claim was not paid. One of the most notorious cases of the

abuse of the process of extradition oc-curred during the last year of Governor Geer's administration, when Cashier Fay, of the Washington Life Insurance Com-pany, in Portland, was selzed and hustled out of the state without having a fair chance to be heard or to consult atter-

VALUATIONS IN MARION.

Greater by \$1,000,000 This Year Than Last.

SALEM, Or., Oct. 12 .- (Special.) total value of transhle property in Marion County in 1905 is \$1,000,000 greater than in 1900, as shown by the assessment summary completed by County Clerk J. W. Roland today. Of this increase \$500,000 is due to the fact that no exemptions are allowed this year, so that the real increase in valuations amounts to only \$50,000. The increase in taxable property is in ner. The increase in taxable property is 18 per cent upon the total for last year.

The increase is not due to raised valua-tions upon any particular class of prop-erty, for there have been advances in aimost every class. The amount of money agsessed this year is \$213,000, or nearly double what it was last year. At the same time there was a corresponding decrease in notes and accounts, the valuation of this class of property dropping from \$38,000 to \$206,000. The valuation on money, notes and accounts, therefore, re-mains unchanged. Because of the removal of the exemption on household goods, the valuation of this class of property went up \$120,000. There is an increase of \$25,000 on tillable lands and \$25,000 on nontillable lands, the rate of increase in the latter class being a little greater than the rate of increase in screage. There was an increase of \$50,000 on merchandise. The summary is as follows:

'The driveway could extend up the west side of the Williamette River, crossing the suspension bridge at Oregon City and thence to Portland either by the Milwaukie road or up the Clackamas River via the hatchery. Beautiful scenery is offered clong such a route. A lookout station at Elk Rock, on the dividing line of the two counties on the West Side, would furnish an excellent viewpoint for the tourist. Such a drive would prove popular among visitors to the 1925 Fair and would be a very material aid in acquainting visitors with the grand natural scenery this section offers. Along such a drive the Williamette River would be in almost constant view, in addition to four snowclad mountain peaks, while the matchless scenery of the Clackamas River could also be appreciated." be appreciated."

UNIVERSITY OF OREGON, Eugens Or., Oct. 12—(Special.)—President Campbell, chairman of the committee of section for the Rhodes acholarships in Dregon, has just received notice from Dr. Parkin, agent of the Rhodes trust, that the qualifying examination for the Rhodes acholarship for 1966 will be held not later than the middle of January next. Dr. Parkin says that this early date is ary for the reason that so much has occurred this year in getting returns from some of the committees of selection that it has proved impossible to distribute the elected scholars throughout the colleges (of Oxford) with due reference to their own wishes.

Most of the Oxford enlieses consider

Most of the Oxford colleges consider their entrance lists for the Autumn during the Summer term, and several have them entirely made up before the end of that term in June. In some cases the names of the elected scholars for this year, and their credentials which are re-quired before admission, did not reach the trustees until late in August. The result rustees until late in August 110 ready was that many of the colleges had already closed their lists, and the late applicants had no opportunity of having their ciaims considered by the colleges of their prefer-

Every institution in the state f collegiate rank is permitted to send a candidate to the qualifying examination, and from those passing the examination the committee of selection chooses the one whom they consider best fitted, according to the terms of the Rhodes to represent Oregon at Oxford.

CONCLUSION REACHED BY SHER-IFF OF COWLITZ COUNTY.

Alleged Victim of Whitecaps Was Out of Funds on Day Set for His Wedding.

KALAMA, Wash., Oct. 12.-(Special.) Sheriff Huntington has just returned from Kelso, where he had been investigating the Kelley kidnaping case. He states that in his opinion the whole thing was a putup job on the part of Kelley, and that he thinks that Kelley did the work himself and that the motive for the act was to make people believe he had been robbed. Kelley had set the time for his wedding and did not have sufficient money to carry and did not have sufficient money to carry out his arrangements. The robbery pre-tense was for an excuse. The wire with which he was bound was cut from the clothealine in use at the home of Mrs. Caivin, where Kelley roomed, and his hands were so loosely bound that not a mark was made on the wrists. Sheriff Huntington discovered that when Kelley was released by SM Jones the

Kelley was arrested by the Marshal of Kelso and put in juli as soon as he arrived in town after his release by Jones, on a warrant sworn out by Mrs. Calvin charging Kelley with in-sanity. The alleged victim of whitecaps ate a substantial supper after reaching town, and did not show any signs of col-

The place where Kelley said he had been bound, says the Sheriff, is within 159 yards of a gang of men building a mill, who could easily have heard him had he called to them when he was attacked. Dr. Bird, William Lysons and Will Robb stood under the big manle tree and talked stood under the big maple tree and talked for half an hour at the time Kelley would have had to pass by if he went where and when he said he did. Kelley has told many conflicting stories

about the matter, and new refuses to say anything to the Sheriff, but declares his case is in the hands of detectives. A few have believed from the first that Kelley was himself responsible for the whole matter, and that opinion is now pretty general. Although Kelley alleged he had been bound for four days, his clothing was not solled

BOISE, Idaho, Oct. 12.—(Special.)—A row between the Democratic State Committee and Chairman Wolf, of the Elmore County Committee, held the boards at Glenn's Ferry Monday night. Wolf has in-sisted that the Mormon question be not discussed in that county. Chairman Jackson declared the committee would hold meeting and discuss that question. Last night Senator Heitfield spoke at Glenn's Ferry. Chairman Jackson ac-companied him there and made an address, in which he read Wolf's letter and severely criticized him. Delegations of both factions went down from Mountain Home, and it was rather expected some difficulty would arise, but nothing sensa-tional developed beyond Jackson's roast-

Heltfield spoke at considerable length ouching upon most of the points of the Democratic campaign, and enlarging upon the Mormon Issue.
