## **NEARLY ROUT RALLY**

Republicans Capture Parker Meeting at Newark.

ROOSEVELT'S NAME CHEERED

Candidate is Not Present at the Time -He Pays Particular Attention to Trusts and Expansion in His Address.

NEWARK, N. J., Nov. 1-Eventually ineffective, but temporarily successful, was the attempt made tonight to rout was the attempt made tonight to roll a monster Democratic meeting at the Essex Troop Armory, where Judge Farker was the principal speaker. The great building, with a capacity said to be more than two-thirds that of Madison Square Garden in New York, was filled. At the first mention of the present Administration and the name of President Boosewalt bushes forth with terrific velt, hundreds broke forth with terrific cheering, and for several minutes it ap-peared as though the Democrats were in the minority. The scene that followed was one of unimaginable confusion. Hisses and cheers were mingled. Words in and cheers were mingled. Words in anger and threats were heard, and the police were powerless to control. Finally the Democrats, by sheer force of num-bers and their great volume of sound, drowned out their adversaries. The dis-turbance occurred before Judge Parker

reached the hall
Judge Parker's invasion of New Jersey to make in the present campaign the first speech he has delivered outside of his native state, was met with a resounding welcome. This started when the candidate boarded a ferry of the Lackawanna Rallroad at Christopher street. New York, and was continued at the Hoboken Station, on a crowded train to Newark, and en route to the home of ex-Senator James Smith, Jr., where the members of his party were guests at dinner. At the Broad-street station in Newark several thousand people gathered, and despite extensive police protection, passage up Broad street was forced with great difficulty.

ovation when he concluded. He said in part:

Judge Parker and Mr. Smith started for the Armory at 8.30. The street and park in front of Mr. Smith's house was crowded with people who cheered the candidate as the party drove away. The procession of the Parker party, including the escorts of marching clubs, bands, comittees of citizens in carriages, and those in charge of the arrangement for the candidate's reception, enjoyed an unimpeded passage to the Armory, but there they found the capacity of the building overtaxed. After several attempts to gain an entrance by the main door, a gateway was found beneath the stage. Upon the appearance of Judge Parker on the platform at 9:60 o'clock, the demonstration was phenomenal. The applause came from every part of the armory, and the volume of sound was deafening.

After exactly II minutes, Judge Parker took a hand in quelling the enthustasm. One minute later he addressed the chairman of the Republican National Committee, the one-time private secretary to the President, later a member of toommerce and Laber, and as such having the right to ob-

man. In an instant, the armory was converted from tumult to absolute si-lence. Throughout his speech the candi-date was well treated, being cheered lence. Throughout his speech the candidate was well treated, being cheered heartily when he scored a point and attentively listened to at all times. There were no more demonstrations from his political opponents that were worthy of

cinning with a narrow fringe of population along the Atlantic Coast and spread-ing steadily across the continent, speakthe same languages and possessing It is the same ideals. He then went on to say:
It is this expansion, natural, inevitable, almost as silent as the tides of the ocean which has made the country what it is, and in the society that has come out of this varied effort the words 'empire' and 'subyearied effort the words empire and sub-ject have become meaningless and obsolets. Turning for a moment from this picture to that which sets before us the process of ex-pansion, even in the great countries of Eu-rope and we find an entirely different ideal.

There it has been accompanied by the cruelty of the conqueror, the ambition of the soldier and the rapacity of the tax collector. It has gone on not over virgin lands, but among crowded populations. It has put mil-lions of people under the elbow of the conseror and has inculcated among those at home the idea that these great masses have been brought into the world to serve a di-ant master whom they would never see or to provide business or pleasure or profit for to provide outsides or pressure or prout for a conquering race. It has promoted the growth of navies, uncless and unnecessary for their purpose of protecting commerce, and armies which quarter on the conquered lands have been paid by revenues drawn from scanty or decaying industries. Even in these days of arbitration and peace con-terences, the race for conquest national riferences, the rage for conquest, national rivalries and the fear that one might obtain a advantage over another have made con-ription almost universal over the whole entinent of Europe. They have divided unknown continents into protectorates or spheres of influence which, thus far, have been almost useless to the holders and harm-

we are invited to look with favor. We are asked to turn from our own mighty, but panceful, triumphs; from the spectacle of a continent settled by a homogenous people at-tached to liberty, fitted to govern them-selves, in order that we may enter upon the beginning of a policy which must inevitably end in the adoption of the other methods which I have so briefly and so imperfectly

When we are asked then to turn away from opposed to all our traditions, have not even the merit of success, or of bringing self-government, happiness and contentment to a single people thus far subjected to them, we may well enter our protest against such a policy. We feel and know that that chart a polley. We feel and know that that chart of our liberty by which our people have guarded the course for more than a century and a guarter has not been lost. If, under a Government of constitutional restraints and regard for law, we have been able, through peace and war, foreign and incestine, to grow from a population of 5,000,000 to one of 80,000,000, why may we not go on until we have doubled that number? Why should we now consent to take even the first step, which, according to its advocates, is certain to lead us to what they call "exhiptre"?

The Trust Question. Taking up the trust question, Judge to Chicago,

Parker said:

'It is conceded that during the last three or four years the increase in the cox of living has amounted to one-sixth. Scaretary Shaw rejoices in it, and he says the wages of the workingmen and the income of our people are greater in proportion. Now, if that is true, the householders of this country know it. If not, their wives do. They know whether the

fncome of the breadwinner is greater by one-sixth than it was four years ago. There are instances in which it is. But in the great majority of cases you will find it is not true. You will discover that it requires just a little more work on your part and more over on the bart of your part, and more care on the part of your wives, to make both ends meet from month to month. "Now, why is it that the prices of the

month to month.

"Now, why is it that she prices of the things we have to have are pushed up a little from time to time, whether there be improvement in our incomes or not? Is it not in part because the business of this country today is largely in control of combinations or trusts which are enabled to shut out competition and thus control prices arbitrarily?

"When an individual violates the law, the law punishes him. When a corporation violates the law, the law should punish it. A corporation is no more entitled to immunity from the consequences of its wrongful acts than the individual. A combination of individuals to control the market price of products of any kind is void. A combination of corporations for a similar purpose is alike void. We would not hesitate for a moment to prosecute the individuals thus violating the law for the purpose of oppressing the people. Why should there be any hesitation in enfercing the law against great corporations for illegal business? Are the artificial creations of the Government exempt in practice from the operation of that sacred principle of equal and exact justice to all men? It ought not to be so. And it will not long be so, if we, as a people, act wheely in both state and national contests.

"Overwhelming in importance tower the questions:

"Shall the partnerships betwen the Re-

"Shall the partnerships betwen the Re-publican leaders and the trusts continue with profit to both and burt the country? "Shall the trust contributions of millions to the campaign fund secure right to continue wrongful taking of millions a year from the people?"

Another ovation was given the candidate when he concluded. It continued several minutes, in fact, until Judge Parker left the meeting to take a special trolley car to Jersey City, where he also made speeches before returning to New York tonight. It is estimated by Demo' cratic leaders that as many people were unable to get in the Armory as the number in the andience. right to continue wrongful taking of mil-

Chandler Carries Gubernatorial Fight in Delaware Into Court.

WILMINGTON, Del., Nov. 1.—Dr. Joseph H. Chandler, candidate for Governor of Delaware on the regular Republican ticket, today filed with the Clerk of the Peace a protest against the name of Preston Lea, the compromise candidate for Gov-ernor, being placed on the official ballot as the candidate for Governor on the Republican ticket. Dr. Chandler was nominated by the regular Republicans. The Union or Addicks Republicans also nomi-nated a candidate for Gevernor, but an agreement was reached several weeks ago by which the two factions agreed upon Lea as a compromise candidate. The Union Republican candidate withdrew, but Dr. Chandler refused to get off the ticket. In the protect Dr. Chandler states that he was nominated at the Republican convention held in Dover as prescribed by inw, and therefore he is the only legal candidate for Governor on the Republican ticket.

"In case Mr. Lea is elected," Dr. Chandler said, "we will take the matter into court and protest his election on the ground that the election was illegal as he was not the legal candidate."

"If Britt will fight Gans at Baltimore my club will hang up a \$15,000 purse, and if Britt will meet Gans at 184 ringside, I will give him a side bet of \$2500, and he can split the purse 60 and 40 if he chooses. I have always contended that Gans can make weight easier East than

he can here, and I am still of this opin-ion. I will take Graney for referee, or Britt can have somebody else." TEAM IS IN GOOD SHAPE.

Defeated 'Varsity Men Not Ashamed of Showing in South.

UNIVERSITY OF OREGON, Eugene, Nov. 1.—(Special.)—Today the 'varsity football squad, accompanied by Coach Smith and Manager Graham, returned from California and, although the team was defeated by Berkeley and Stanford, the men are not discouraged and will work all the more consistently for the games as scheduled with Washington and

No injuries were sustained that will ne-cessifate any of the men being out of the immediate meets and regular scrimmage work between the 'varsity and college elevens began today. Although the Eu-gene men were unable to advange the ball, nsistently, against either Berkeley or Stanford, yet the offensive play of team shows great improvement and the defense is much stronger. It may be said that the team played on the defense in each game and the fact that they held their heavy opponents to short line plunges indicates that Smith's men are capable of offering a stubborn resistance. No game is scheduled until Saturday, November 12, when the Seattle team comes to Eugene, and in the meantime some severe practicing will be done. It is also probable that some changes will be made in the team, due to the fact that the defensive work of Kenon and F. Tem-pleton makes Smith anxious to play both these men in the back field all the time instead of alternating at the guard and

fullback positions.

Should this change be made, McIntyre will be made a fixture at guard, while Kenon and F. Templeton will be placed in the back field. McIntyre is a heavy man and with coaching should make a strong guard when it is considered that he has a record of 10 3-5 seconds in the 100-yard dash and 53 seconds in the quarter. Such a change will increase the weight of the team and make strong com-petition for the back field positions.

Columbia to Play High School. Columbia University plays football with the High School this afternoon at Mult-nomah Field. These two teams have not yet met this season and there is, no prophesying the outcome. Columbia was ceded to be much stronger than any school team, however, until it only scored once on Hill last Saturday. This gives hope for the High School, which is in the same class with Hill. STANFORD UNIVERSITY, Cal., Nov. -(Special.)-A feature of the game with 1.—(Special.)—A feature of the game with Oregon last Saturday was the presence of an organized crowd of Stanford men from Oregon who rooted for their home team. They marched in bearing a large Oregon banner, and made quite a hit with Stanford supporters. The game throughout was a clean-out, well-fought contest. During the entire game not an instance of dirty ball was noticed and not a penalty was imposed. The Oregon men fought every lach of the way and completely won the hearts of the Stanford men by their gritty, sportsmanlike game and their gentlemanly conduct during their entire stay.

Ellers Plane House Is Doing a Tremendous Business in Highest Grade Planos-Chickering, Weber, Kimball, Hazelton, Story & Clark, Lester, Crown, Hobart M. Cable, Etc.

Time was when pianos were classed as luxuries. Today they are a household necessity. Every home must have a piano. The more the ear and musical taste is educated, the more exacting the demand. Pianos of indifferent make and tone fail to satisfy. The very best is what is really wanted, and many are now industing in the coveted possession.

More and more each year selections are made from our line of highest grade pianos, superb Chickerings, Webers and Kimbalis, so nicely adjusted, so elegantly finished, so rich in all the qualities of tone that the cultivated taste requires. These are the pianos that are now finding greatest favor with vast numbers of our purchasers today.

Sales of these pianos this season, as well as our sales in general, are way in excess of any previous year.

We are already showing some special styles designed expressly for the holiday season.
