Coal Engineers on Strike.

ST. LOUIS, Nov. 1.—Dispatches from Hilnois points indicate that less than 100 of the 300 coal mines in that state are oisting coal today as a result of the strike of engineers, which went into effect at midnight. The total number of oper-ators who deserted their posts of duty is about 800, and nearly 50,000 miners are

thrown out of work as a result.

The engineers do not look for an early settlement of the difficulties, which were brought about by the action of the operators in cutting the wages of hoisting en-

against the strike, and are working hard for an early settlement.
