being chased out of her mother's house at the point of a revolver in the hand of her husband, and being obliged to spend the night with friends, unable to sleep for fear of being slain by the irate man ahe had deserted because of ill-treat-ment, Mrs. Frank Bennett arrived at Po-lice Headquarters venterday morning and ment, are Frank Benhelt arrived at Po-lice Headquarters yesterday morning and requested that a warrant be issued for the arrest of Frank Bennett, the bellig-erent husband in the case. So frightened was Mrs. Bennett that she remained at the City Jail under the protection of Mrs. Simmons, the Police Matron, until her husband was found and arrested at 7 Colorb last such The Mes. Bennett husband was found and arrested at 7 o'clock last night. Then Mrs. Bennett went back to her mother's home for refuge. According to the story told the police posterday by Mrs. R. Basey, the mother of the young woman, Bennett, who is but 22 years of age, was deserted by his wife, who is 15, because he treated her cruelly. Since the separation Bennett, it is alleged, has several times threatened to kill his wife. Monday night he went to Mrs. Basey's residence, where he went to Mrs. Basey's residence, where his wife has been staying since the aeparation, and deciared that he had come to kill her and himself. He exhibited a pevolver, whereupon Mrs. Bennett field. Bennett did not follow, but Instead went downlow. This recently downtown. This morning the warrant charging him with threatening to kill was sworn out by Mrs. Bennett. Bennett's bell was fixed at \$500. He was unable to take the money and is still in the City

HEAVY BRIDGE TRAFFIC.-The Burn side bridge is now carrying probably the heaviest traffic of street-cars and the heaviest traffic of street-cars and general travel of any bridge in the West. Between 5 and 6 P. M. yesterday 108 cars passed over the bridge and the draw was opened nine times; between 6 and 7 o'clock 75 cars crossed; between 7 and 8 o'clock 70 cars and after this time the average was 70 cars an hour. Engineer Stutsman says that on Cable street, San Francisco, 60 cars pass every hour, so that the Brunside bridge carries more. Most of the cars during the time Most of the cars during the time the count was taken were crowded with passengers. Besides the stret-cars there are hundreds of vehicles and thousands of pedestrians, so that it is estimated that in 24 hours about 50,000 people cross the bridge. There is no over-crowding and the traffic is handled without difficulty.

To OPEN BELMONT STREET TO MOUNT TABOR.—W. G. Howell, of the Mount Tabor Push Club, who has charge of the opening and extension of Belmont street from Rosedale to the summit at the end from Rosedale to the summit at the end of the street-car branch, says the property-owners have algred the potition generally, and that the matter will be brought before the County Court on November 26. Mr. Howell says it is desired to get the street opened 00 feet wide and improved before the Lewis and Clark Fair opens, so that there will be a boulevard to the summit, along which visitors may be taken in the observation car. Property-owners in some instances have already set their fences back to correspond with the proposed new lines of the street, and others seem willing to give strips of their land.

BOY RUNS AWAY WITH TRAMP.—With a dumb tramp for a companion, Lloyd Bell, il years old, is believed to have left the city. At any rate he is missing from his home, 250 Park street, and his mother, Mrs. M. Bell, has asked the ald of the police in finding her boy. He left Thursday of last week. Walter B. Evans, the deaf and dumb newsboy who was in the city last week, is believed to have enticed young Bell away with him. Evans is well known to the police, and not favorably, either. Wearing a cap with the inscription, "Walter B. Evans, the Deaf and Dumb Newsboy," he has traveled all over the country, starting from New York. The police call him a professional tramp. It is said that on occasion he can talk readily. The Bell boy was seen with him repeatedly. Lloyd Bell is described as four feet in height, weight 80 pounds, and of light complexion, blue eyes and dark-brown hair.

The total estimate for fire protection services is \$274.30.

But this figure, large as it seems, is not the result of a dream of the fire committee of the Executive Beard set down in numerals, nor does it come from constituent-plagued Councilmen. It represents adequate fire protection for a city that is growing much faster than some taxpayers think any city can grow. In the estimate are incorporated plans for the protection of suburbs which now do not know what a fire engine-house looks like. Every item has been cut down repeatedly. What is left is nothing but the bone and sinew of a Fire Department minus nearly all the frills. the frills.

the frilis.

For the running expenses under the present equipment, Chief Campbell estimates the expense for next year at \$165,340. Then he proceeds to make estimates on what has been clamored for. The estimate of the maintenance of the new equipment is for only six months owing to the time needed for preparation. At the beginning of the present year a new engine-house which would protect North engine-house which would protect North Portland was planned for Third and Glisan streets. Plans for this building were drawn and the ground secured without much expense to the city. But the fund ran too low for the expenditure this year. The cost of this building is estimated at

gated \$55,696. Fanking as the second largest month's receipts in the history of the office. The increase was 18 per cent over the month of October for the previous year. The greatest receipts on record were those of December, 1962, amounting to \$34,588, which included the 112,000. To maintain this establishment for six months will cost \$18,710.

Brooklyn has cried aloud for fire protec-tion from time immemorial. For an en-gine-house in that district \$3000 is estimat-Christmas holiday business. Receipts for December, 1904, will doubtless be much heavier. The stamp sale for October, 1903, amounted to \$29,004. The difference in the month for the two years is \$4625.03, or 15 ed, and the cost of maintenance of apparatus now on hand is given at \$15.50. In hearly every instance enough apparatus is on hand to supply these new engine-

FREDERICK VIGNE ANDREWS DIES.—
Frederick Vigne Andrews died at his home in South Portland, 145 Abernethy street, last night at the age of 55 years. Mr. Andrews was an Englishman by birth and has lived in Portland many years. He has been connected with large financial interests, and has been engaged recently in the brokerage and real estate business with his son, F. H. Andrews. The funeral will take o'ace tomorrow at 2 P. M. from Holman's Chapel on Third and Salmon. The interment will be at Riverview Cemetery. 27 Union avenue north, be changed to a fire engine.

The estimate of the City Engineer's Department shows but a slight increase over the figures of 1904. The estimate will probably be filed today. The total estimate is \$75,792; for this year it was \$74,000 odd. The expenses of street repairing are estimated at \$77,898.

City Engineer Elliott asks for an increase of one surveyor and surveying crew. The expenses of his office and general engineering are given at \$44,000; material and equipment, \$1082; street and sewer inspection, \$17,040; street rollers, etc., \$5300; sewer repairers and material, \$7350.

position in Cuba, where the fire was so but that a well-known New York regiment lay down. McKinley was saved from instant death by a colored man who felled the assissin before he could fire a second shot. The seem and anarchists of Europe are being dumped upon our shores by the thousands, and all avenues of labor and business are open to them. I daily come in contact with true American colored men that are skilled workmen, but are compelled to accept positions of servitude because they have a dark akin.

Colored people do not need a guardian, nor are they looking for favors. All we sak is a fair field and no favor. The American negro has accumulated a combined wealth of between \$500,000,000 and \$500,000,000 since emancipation, which is a fair showing considering the opposition we meet daily. Approach a broad-minded true business man on the race lastes and his last words will be: "Give the colored man a chance. He was in this country alding it making it the greatest in the world when some of the race agitators were in the old country eating cold potatoes and drinking buttermilk." In regard to amalgamation and social equality, approach and associate with the colored people only in a business way and upon business principles only, and that will be very acceptable to the colored people. Let the colored people aione to anyoy the Constitutional rights they have sarped and that this country gives.

# To Make Room

Colored Man on Negro Question.

PORTLAND, Nov. L.—(To the Editor.)—
My attention was attracted by a letter from J. H. Wilson that appeared in The Oragonian of October 6, and reflects upon the whole American negro race. I am surprised to see a letter of such a nature from a resident in a community where the people have reached the highest stage of intelligence. In regard to Mr. Wilson's ruservation scheme, the colored people are not savages, but are self-supporting. The Indiana were placed on reservations because they will into become civilized and cannot support themselves. If the colored people were placed upon a reservation it would be impossible to keep our white brothers away. For large shipments of pianos now en route, we are willing to offer great inducements to piano purchasers. In addition to our large stock of new pianos we are offering for sale a Steinway parlor grand (used), a Weber parior grand (used), several used upright planos and several organs. Time payments accepted several organs. Time payments accepted. Come in and let us talk it over with you.

An imitation loaf of bread may appear as attractive as the genuine ar-ticle, but it would be small comfort to a hungry man. The same may be said of a pair of misfit spectacles to a man who is hungry for vision. If you want glasses to see with, have your eyes fitted by the house that knows how.

## Blue Mountain Sanatorium **TUBERCULOSIS**

BINGHAM SPRINGS, OREGON.

Tuberculosis is curable. It requires propen diet, a pure atmosphere and rest of mind and body. Climats alone has little indusence. It takes months of ordinary treatment, however, to start the patient on the road to recovery. Patients at the Blue Mountain hanaucrium have the additional advantage of the use of our INHIBITORY SERVING. This serum is harmiese and non-irritating. It promptly arrests the disease, stope lever, cough and expectoration, and the patient recovers in one-half the time required in other institutions. For information address
