

# AIRSHIP IS FOUND

## Baldwin's Arrow Lands in Cornfield.

## FLOATS FOR 16 MILES

## Vessel Is Unharmed Save Two Small Rents in Gas Bag.

## IS HAULED BACK TO ST. LOUIS

## California Inventor Expects to Have the Craft in Readiness for Another Flight by Tomorrow Afternoon.

ST. LOUIS, Nov. 3.—The airship of Captain T. S. Baldwin, of San Francisco, which suddenly slipped away last night as it was being towed from the country to the aeronautic concourse, was found today 16 miles west of St. Louis. It was unharmed by its wild night flight, save for two small rents in the gas bag, which Captain Baldwin stated could be repaired in half an hour.

When the Arrow escaped, there was just enough gas to lift the craft well off the ground. Inventor Baldwin expressed his belief at the time that the cold night air would condense the gas rapidly, and cause the airship to come down in the vicinity of St. Louis. After floating in the wind for 16 miles, the airship came down to within a short distance of the ground, and her anchor rope became entangled in the dead limb of a tree. This served as an anchor, and the airship was found so moored in a cornfield by farmers.

Word reached Baldwin late in the day that his airship had been found. He and Aeronaut Knabenshue hurried to the scene in an automobile, and were repelled to find the aerial craft uninjured, with the exception of two slight rents in the balloon. The balloon was deflated, and after negotiations had been completed with a farmer, the collapsed airship was loaded on to a haywagon and brought back to the Exposition aerodrome. Captain Baldwin stated tonight that he expected to have the airship in readiness for a flight by Saturday afternoon.

## COUNT MONEY FOR PRIZE.

### New York Tellers Engage in an Exciting Contest.

NEW YORK, Nov. 3.—A money-counting and adding contest, has been held at the First National Bank under the auspices of the American Institute of Bank Clerks. Twelve packages of mixed bank bills of \$5, \$10 and \$20 denominations and aggregating \$6000 each were carried into a cage under the guard of 12 policemen. Twelve representatives from many Chicago banks sorted the money, "proved" it, counted it into \$600 packages, strapped it up, and initiated it under the critical gaze of 30 of their fellow clerks.

The first prize of \$25 was won by Lemoine S. Hatch, of the First National Bank, in 21 minutes 5 4/5 seconds. Neatness, accuracy and speed were the essential points.

Two contestants were placed in each cage under the guard of two judges and two timekeepers. The contestants were principally tellers. Hatch finished one minute ahead of Frank E. Loomis, of the Merchants' Loan & Trust Bank whose time was 22 minutes 1 1/2 seconds. Munroe R. Venables, of the Corn Exchange National Bank, was third, with 25 minutes 19 seconds flat. The second and third prizes were \$10 and \$5.

Before the counting contest men from the different banks added up 500 checks on the machines.

The first prize of \$25 was won by Fred Robyn, of the First National, in the time of 11 minutes, 39 4/5 seconds. The second prize of \$10 was taken by Charles Novak, of the Corn Exchange, in 12:15 3/4, and the third of \$5 by Edwin D. McCullough, of the National Bank of North America, now judged in the Contest in 12:15 3/4.

The checks ran from 90 cents to \$500,000, and aggregated \$1,500,000.

### Mine Operators Break the Strike.

CHICAGO, Nov. 3.—Forty-five hundred miners have returned to work in the soft-coal mines at Mineok, Rutland and Marquette, engineers having been secured to take the places of the hoisting engineers on strike at those points.

Three thousand men at Valley also are reported to have been given employment. The engineers are said to have been recruited from the ranks of the United Mine Workers.

### Indicted for Wrong Use of Mails.

BOSTON, Nov. 3.—Three officers of the Preferred Mercantile Company, of Boston, the business of which was to issue contracts for diamonds on periodical installments and mature them in numerical order, were indicted by the Federal Grand Jury today on the charge of depositing in the mails letters concerning a lottery. Those indicted include George E. Stillings, the president of the company, G. C. Stillings, the secretary and treasurer, and John F. Knisely, the Massachusetts agent.

### Partially Approved by France.

PARIS, Nov. 3.—The suggestion that an American Admiral be requested to be a member of the Anglo-Russian international arbitration commission is partially approved in French official quarters. Although no definite information has been received, the officials here are inclined to believe that the commission will hold its sessions in Paris, but the Russian authorities expect the meetings will take place at The Hague.

### Fined for Bringing in Consumptive.

SAN FRANCISCO, Nov. 3.—Secretary Victor H. Metcalf, of the Department of Commerce and Labor, today imposed a fine of \$100 upon the Pacific Coast Steamship Company for bringing to this port on September 25, as a passenger on the steamer Umattila, from Victoria, B. C., a consumptive.

### Fairbanks Has a Busy Day.

TERRE HAUTE, Ind., Nov. 3.—Nearly 20 speeches were made today by Senator Fairbanks in Western Indiana, beginning at Bloomington in the morning and concluding with a large meeting at Terre

Haute in the evening. College demonstrations were notable features of the day's tour, students turning out in large numbers at Bloomington, Greensburg and Crawfordsville.

## CASSINI MAY BE TRANSFERRED

### Ambassador Likely to Go to London, and Later to Paris.

WASHINGTON, Nov. 3.—State Department officials consider it quite probable that Count Cassini, the Russian Ambassador, will be transferred first to London and later to Paris before the war with Japan ends. This opinion prevails, despite the denials of information reaching London from St. Petersburg that Count Cassini will be made Ambassador to Great Britain within two months. Count Cassini's great ambition is to conclude his diplomatic career at Paris, the best post in the Russian service. He has long sought this place, and might accept the British mission with the promise of Paris in the near future. There is believed to be some truth in the St. Petersburg advices.

## INTERVENTION MOTION LOST.

### Lower House of Hungarian Diet Refuses to Support Their Move.

BUDAPEST, Nov. 3.—The lower house of the Hungarian Diet has declined to approve the resolution of Francis Kosuth, president of the Independent party, calling on the Premier to urge the Austro-Hungarian Foreign Minister to support any diplomatic attempt on the part of the United States, tending to put an end to the bloodshed in the Far East. Supporting his motion, Kosuth today declared that Russia, despite her defeats, had brilliantly maintained her reputation for gallantry of her army, so that she can accept intervention without feeling that her honor is affected.

Premier Tisza, however, while declaring he fully appreciated Kosuth's noble intentions, pointed out that action by a neutral power could only be effective if the belligerents desired. At the Premier's request, the motion was rejected.

## EVIDENCE FOR BRITAIN.

### German Sailors Declare the Russians Fired on Their Own Ships.

BERLIN, Nov. 4.—Despite a semi-official denial from St. Petersburg, it appears to be the almost universal impression that, during the bombardment of the English fishing fleet off the Dogger bank, and perhaps also during other stages of the extraordinary voyage, the Russians shelled their own ships. The belief is manifestly cherished in all sincerity in St. Petersburg and Moscow that there were actually Japanese torpedo-boats lying in wait for the Baltic fleet in the North Sea. The evidence of the crew of the German torpedo boat makes it appear that shortly after leaving the Skagerak, the Russians actually began to make the fatal mistake of firing upon their own ships.

## No Agreement With Spain.

BERLIN, Nov. 3.—The Foreign Office here authorizes the Associated Press to say that Germany has no agreement with Spain whatever respecting joint protection of their interests in Santo Domingo.

Neither has Germany protested against the arbitration decision in the case of the claims of the Santo Domingo Improvement Company, of New York, nor does the Foreign Office know anything regarding the action taken by the Spanish Consul at Santo Domingo in behalf of Germany.

## Outbreaks in Albania.

VIENNA, Nov. 4.—Reports have been received here of renewed outbreaks on the part of the Comitatje in Albania. In one instance the Greek village of Guitralchid, near Geyveli, was surrounded and large quantities of petroleum were poured on the roofs of the houses and in the streets. Four Greek houses were fired in this manner and seven of their occupants burned to death. Three others were killed in the scrimmage that followed.

## American Refuses to Fire Salute.

CHEFOO, Nov. 3.—The Japanese Consul here, on the Mikado's birthday, requested Rear-Admiral Folger, commanding the cruiser division of the American Asiatic fleet, and the Captain of a Chinese cruiser to fire a salute. Rear-Admiral Folger declined to accede to the request on the ground that he was not in Japanese waters. The Chinese Captain, however, complied. The incident has aroused much comment.

## Italians and Germans in Fight.

INNESBRUCK, Austria, Nov. 3.—The opening of the Italian faculty at the university here today led to a terrible affray between German and Italian students. Italian students fired upon the others with revolvers, and six were wounded, one of them fatally.

## Russian Ships Cleared for Action.

GIBRALTAR, Nov. 4.—It is stated here that, when the commanders of the Russian ships of the Baltic squadron perceived that they were followed by a British cruiser, they had their vessels cleared for action. No shots, however, were fired.

## CHINESE REFORMER IS SLAIN

### New York Policemen, With Great Difficulty, Arrest the Murderer.

NEW YORK, Nov. 3.—A shooting affray with many features resembling the highlander outrages of the San Francisco Chinese quarter, which occurred in Chinatown today, may result in the death of Mock Duck, one of the most prominent members of the reform element in the local Chinese colony. Mock was waylaid as he was passing through Pell street, and one of two bullets fired at him lodged in his abdomen, making an extremely dangerous wound.

When his assailant, who was captured as he was running away, was being taken to the patrol-box by a policeman, the couple were surrounded by three other Chinamen, with drawn revolvers, demanding the release of the prisoner. The situation was becoming serious, when a dozen reserves arrived. The reserves found the policeman and his prisoner backed up in a doorway, the officer holding back three armed Chinamen. The would-be rescuers fled when the reinforcements arrived. The man under arrest is Lee Sing, a laundryman.

Mock Duck was tried for the murder of a fellow Chinaman about two years ago, but was acquitted. Immediately after his release from prison he became active in reform circles in the Chinese quarter.

**Advance December Butterick Patterns Are In**

**\$7.50 Hat Shapes at \$2.69**

Untrimmed Millinery is the theme of the bargain story today. Velvet shapes, taffeta silk shapes, crushed velvet shapes, plush shapes, chenille and braid Hats in an immense variety. **98c** Instead of \$1.50—Two-clasp pique Kid Gloves, Paris Point embroidery, tan, brown, beaver, oxblood, navy.

**COURTS FOR NATIONS.**  
Time Coming When Fighters Will Be Arrested.

MARSHFIELD, Or., Oct. 31.—(To the Editor.)—In the Oregonian of October 21 you give some conclusions in regard to war, and decide that it is one of the necessary adjuncts which follow in the natural course of National affairs, and that nations will continue to arbitrate their differences with sword and gun till perhaps the end of time.

Of course, it is simply a matter of opinion, and that is all any of us can have so far as the future is concerned. That kind of arbitration based upon the premises that "might makes right."

Should Japan whip Russia out of Manchuria, and establish all her claims, the world would look upon Japan as being in the right; but, on the other hand, should Russia drive Japan back, and so far as the nation of Japan is concerned, drive her into the sea, the Russia would stand out boldly and proclaim to the world that she was in the right. Let two men have some difficulty and start in to settle it according to their physical strength, and it is the law of our land that either party standing near must interfere to stop the fight. Why a rule that is claimed to be the correct thing between individuals should not have a similar interpretation among nations is something I cannot understand.

If we stand with our outlook backwards toward the past we naturally would come to the conclusion that matters in regard to warfare would always continue as they are now and have been in the past; but, are we justified in these conclusions?

Had our forefathers been looking backward instead of forward toward a new and independent nation there never would have been a nation known as the United States of America. There are many people now who are looking ahead toward the time when the same law that now applies between individuals will be made to apply between nations; and we believe the time will come when it will be looked upon as just the same for a nation, on account of her superior strength, to overrun and crush down a smaller and weaker nation as it is for a large and powerful man, on account of his strength, to hammer into subjection smaller and weaker men. It would come.

**HOUSEFLY HAS TROUBLES.**  
Pestiferous Insect is Fed Upon by Parasite.

SALEM, Or., Nov. 2.—(Special.)—If the bald-headed man feels any resentment toward the pestiferous fly, which is proverbially his chief source of annoyance, he might get some satisfaction by examining a few of those insects through the lens of a strong magnifying glass. Professor Boyer, of the chair of botany, of Willamette University, has recently been conducting some investigation for the benefit of his class in zoology, and finds that the ordinary housefly has troubles of its own, in the form of a parasite so small as to be invisible to the naked eye.

What the parasite lacks in size it makes up in numbers and ferocity, and the fly which has been so unfortunate as to become infested with them has life made miserable for him. Little wonder, then, if in the expiration of despair the fly proceeds to make life miserable for animals much larger than himself.

The parasite, discovered by Professor Boyer, belongs to the family of pediculi, or, in common parlance, lice. Though smaller than a speck of fine dust, the insect is perfect in form, according to the characteristics of his species, and is provided with all the necessary appliances for making his way in the world. Seen under the microscope, this minute insect appears to have immense claws which enable him to cling firmly to the body of his victim, while he plunges a sharp, tubular beak deep into the veins and sucks the life-blood, which constitutes his nourishment.

The fly feels the drain upon his system and shows it in his appearance. Instead of being plump, active and healthy, the fly infested with vermin is small, sickly and stupid. He is unable to rid himself of his voracious enemies, and in the end must die that they may live.

Professor Boyer did not conduct the investigation far enough to learn whether the louse that lives upon the back of the fly has a still smaller parasite that feeds in turn upon him.

Cruiser Buffalo Again at Bay City.  
SAN FRANCISCO, Nov. 3.—The United States cruiser Buffalo arrived here today after a trip to Honolulu and Midway Island.

**Tutt's Pills**  
Cure All Liver Ills. Arrest disease by the timely use of Tutt's Liver Pills, an old and favorite remedy of increasing popularity. Always cures SICK HEADACHE, sour stomach, malaria, indigestion, torpid liver, constipation and all bilious diseases. **TUTT'S LIVER PILLS**
