Newberg and North Tambill at the prices that have lately prevailed. On the whole, farmers are not selling readily, believing that the 55c mark will be reached before the year is ended.

Heavy Sules of Sheep,

CORD, Or., Nov. 6.—According to Thomas Turnbuil, one of the most extensive sheepmen in Malheur County, and president of the Wool-growers' Association, of South Omaha, Neb., there have been close to 30,000 hand of sheep sold at Cord lately, most of which will be shipped to Eastern markets. The prices for ewes range from \$1.50 to \$2.50; yearing wethers, from \$1.85 to \$2; 2-year-olds and up, from \$2.40 to \$2.60. He also states that the ranges in the interior are in spleudid condition for sheep this Fall, with plenty of fine green

AFTER CALIFORNIA HAY.

Report at San Francisco That Oregon Dealers Will Buy There.

SAN FRANCISCO, Nov. 4 .- (Special.) -- This week attention has been given the hay market by Oregon dealers, it having been reported that the hay crop of that state is short. A lending authority considers it likely large shipments will be made to Oregon before the end of the sesson, which will make the murket interesting here, especially if Southern Califor ntinues to draw on us. At present upper grades of wheat hay are plentiful and

(Portland hav dealers my there is no likeliod of purchases being made in California for the local market. They say there is enough may here to satisfy all their demands, and that they can get all they want, buildes, from featern Oregon and Washington, and from idaho. It is possible that some California hay may be shipped to Oregon coast parts, but this is doubtful. On the other hand, should the weather turn bad and snow remain on the ground for any great length of time, California aight be drawn on for supplies.)

PORTLAND MARKETS.

Grain, Flour, Feed, Etc.

Very little is doing in the wheat market. With the decline in grain freights, the outlook With the decline in grain freights, the outlook is more promising for exporting than it has been at any time this season. The strong

INDUSTRIALS ARE STRONG

RAILROADS IN BACKGROUND IN STOCK MARKET.

Operators Are Not Inclined to Make Heavy Committments on the Eve of Election.

NEW YORK, Nov. 4.—There were some very large professional operations in stocks today which were attributed to speculative pools, and sharp price advances resulted. The industrials absorbed much of the attention of the traders and were generally strong. The railroads were decidedly in the background. One or two points of atrength appeared among them, but the railroad stocks generally were inclined to sag. The subduling influence of the couning election was plainly discernible in the dissolination to make commitments on the scale lately customary. The pause in the advance inevitably brought about some realizing in the railroads, but it was not urgent. The prominent loaders of the speculation were credited with a purpose to hold prices on a reduced volume of business for the present. NEW YORK, Nov. 4 .- There were some very

pose to hold prices on a reduced volume of business for the present.

The aggressive strength of the United States Steel stocks formed a broad underlying sup-port of the whole market. The common took precedence over the preferred stock, both in the volume of the dealings and in the amount of its gain, but both stocks touched new high levels for the movement, allowing for the divi-dend which came off the preferred stock yes-terday. The other iron and steel stocks were

dend which came off the preferred stock yes-terday. The other from and steel stocks were affected in sympathy, on account of the very substantial growth of orders received for vari-ous grades of the product. Outside of these, there was a bewildering array of all kinds of industrial stocks, some of them realting at nominal figures, and some of them reaking their appearance in the record of transactions. There was no news to acount for their sudden stirring up from a agreed when it was fairly started, based on the widely-held view that market prices of securities are capable of adjustment through-out. Progress toward this point in the mar-ket has been seen in the recent comparative prominence of jow-priced railroads in the spec-viation.

The money market continued very tranquil, notwithstanding the heavy lose in cash by reason of the gold exports. The receipts from the interior on the express movement proved less than just week, notwithstanding the small premium on New York exchange which has ruled at Chicago. A decrease of mearly \$5,000,000 in cash on all accounts is indicated, not including the \$2,000,000 in gold which will go to Cuba next week, and the recovery in exchange today brought conditions nearer to a resumption of engagements for Europe.

When it was seen that the late money market was not going to be affected by these non-

ditions, prices stiffened, but profit-taking on the day's rise made the closing rather easy. the day's rise made the closing rather easy, with only the United States Steel stocks at the best prices.

Bonds were irregular; total sales, par value, \$4,856,000. United States bonds were unchanged on call.

WHEAT WEAK FROM THE START,

Combination of Features Unfavorable From

Bull Standpoint. CHICAGO, Nov. 4.—Weakness in wheat was manifested at the start, Liverpool quotations were much lower, presumably as a a report from that country of contradicting promise of a break in the existing drought. This combination of features unfavorable from the buil standpoint brought out a lot of loosely held wheat, purchased under more encouraging circumstances than surrounded the markst. Opening quotations on December were off % to %c, at \$1.12 to \$1.12%. May was down %c to%c, at \$1.11% to \$1.11%. The demand was not of sufficient strength to prevent a steady weakening of values. December sold off to \$1.11% and promise of a break in the existing drought values. December sold off to \$1.11% and May to \$1.11%. Late in the day the market railled somewhat on buying brought out by a report of a St. Louis trade journal. Ac-cording to this authority, drought conditions have prevailed quite generally throughout the Winter wheat belt, and in some sections, notably in the Southwest, complaints of ge-tarded growth or inshility to seed are be-coming more general. Trading throughout the greater part of the day lacked enthusiasm, and was confined mainly to local operators. The market closed rather weak, with December &c lower, at \$1.11%. Final questions on May were at \$1.11% \$2.11%. Fine maturing weather and weakness of wheat had a depressing influence on the corn market early in the day. December

corn market early in the day. December

corn market early in the day. December opened unchanged to he lower at 48hc to 48hc, and closed at 48hc.

The trading in oats was extremely quiet and the market held steady the entire day. December closed at 28h 228hc.

Liquidation of provisions was on a rather large scale, and, on an absence of support, the market became quite weak.

At the close January pork was off 17hc at \$12.52h. Lard was down 10c, at \$7.05. Riths were \$67hc lower at \$6.47hc \$6.50. Ribs were 5@7%c lower at \$6.47% 26.50.

4 44	The Board of Trade will be closed Tues- day, November 8, election day. The leading futures ranged as follows: WHEAT.

NO ANXIETY IS SHOWN

PROSPECTS FOR WINTER AND SPRING TRADE FLATTERING.

Low Stocks Produce Pressure for Quick Delivery and Strengthen Prices_Traffic Returns Good.

NEW YORK, Nov. 4 .- Dun's Weekly Review Trade tomorrow will say:

Business improves standily, and there is no vidence of anxiety regarding the future. Payevidence of anxiety regarding the future. Payments are more promptly met, tending to stimulate preparations for coming trade, and the disposition to limit purchases to immediate needs is gradually disappearing. Conservatism during the Summer and Autumn had a beneficial effect, reducing stocks to a low point. As the demand broaders, this scarcity of supply produces pressure for quick delivery, and prices are strengthened. Aside from inflation caused by speculation, there is no better sign of compercial progress than advancing commodity markets. All the lesding branches of manufacture are in better positions.

branches of manufacture are in better positions.

Traffic reports are satisfactory, rallway earnlags in October exceeding last year's by 7.6
per cant. Foreign commerce returns at this
port for the last week show a gain of \$759,276
in exports and a loss of \$257,752 in Imports,
as compared with 1902.

Wholesome progress is recorded in the iron
and steel industry, sentimental improvement
being succeeded by actual business.

Limited supplies maintain hidse in a very
strong position, and some lines are bought on
advance of saiting. Baw weel has again advanced, and is an important factor in the situattor.

ation.
Commercial failures this week in the United States are 229, against 235 last week, 215 the preceding week and 246 the corresponding week last year. Fallures in Canada number 27, against 25 last week, 39 in the preceding week, and 22 last year.

COMMODITY PRICES ADVANCE.

Reports From Winter Wheat Crop Are of Immense Acreage.
NEW TORK, Nov. 4.—Brudetreet's tomorrow

Warm weather, activity in Fall farm work, Warm weather, activity in Fall farm work, and to a losser degree ante-election conditions detracted from the retail trade distribution. North and West. For like reasons, jobbing sales are rather smaller in volume. Against this, however, is to be noticed increased activity in a number of industries, headed by iron, steel and allied lines of manufactures. Resumption of work by 10,000 Eastern cotton millibands is a feature, but the Fall River tie-

milihands is a feature, but the Fall River tisup continues, and the success of a comparatively small number of mine employes is responable for the idiences of close to 40,000 indiama and illinois coalminers, and higher prices
for biruminous coal. A very general advance
in staple prices covering a wide range of industry is an event worthy of note.

Reports from the Winter wheat crop are of
an immense, possibly a record, acreage in that
certal, but drouth and Hessian fly damages
reports detract from an otherwise excellent
prospect in the surplus producing states of the
West. Money is easy, and a number of centers report a return flow from the country districts as an indication of the financial independence of large numbers of producers. The
South gives relatively the best reports as to
trade. Eastern trade reports show irregularity.

Business failures in the United States for the week ending November 3 number 200, against 130 last week and 215 in the like week in 1003. In Canada fallures for the week were 20, against 22 last week and 19 in this week a

year ago.

Wheat, including flour, exports for the week ending November 5, aggregate 1,882,502 bushele, against 1,479,613 bushels last week, and 4,840,231 bushels this week last year. From July 1 to date the exports aggregate 28,904,163 bushels, against 56,241,828 bushele last

NEW YORK, Nov. 4.-The following table, NEW YORK, NOV. 4.—The following table, compiled by Bradstreet, shows the bank clear-ings at the principal cities for the week ended Thursday, November 2, with the percentage of locrease and decrease as compared with the corresponding week last year:

Wheat Speculation Quiet and Prices for Options Weaker.

SAN FRANCISCO, Nov. 4.—(Special.)—To-day's receipts of 158,000 centals of wheat and 57,000 centals of barley include two whols carpos of wheat and a partial carpo of wheat and harley on three vessels loaded at Port Costa that are outward bound. While this gives a good spening to the November export movement in grain, the facts are that these vessels loaded slowly in October, and and

some difficulty in securing cargoes. Proc pects for continued activity are not favorable.

Wheat speculation was quieter and prices for options were weaker, following Chicago. Some operators here are steadily swapping December delivery for May. Spot wheat was unchanged. Barley was easier for futures; and quieter but steady for spot. Only were steady. Flour, leedstuffs and hay were un-

changed.

Receipts of new granges are increasing, and a straight carioad of navels, including some good shipping stock is expected to arrive tomorrow. Trade in new fruit is fairly active at \$8 to \$1.75. Upper and lower grades of appies are abundant and easy. Good medium stock is steady. Two carlonds of Walla Walla Ben Davis and black Twigs are seiling at \$1. Potatoes were weak. Onlone were firm. Butter was weak. Cheese and eggs

Butter was weak. Cheese and eggs were firm. Receipts, 37,000 pounds butter, 52,000 pounds cheese, 16,000 doesn eggs.

VEGETABLES—Cucumbers, 40665c; garlic, 4845c; string beans, 1650; tomatoes, 20650c; okra, 50675c; egg plant, 50650c.

To Ship Gold to Paris. NEW YORK, Nov. 4.—The shipment to Paris on Saturday of \$200,000 gold by the Na-tional City Bank was announced today.

Cigarmakers Have Smoker. Members of the Cigarmakers' Union had a chance to smoke some of their own goods last evening. A crowd of 400 attended the annual smoker held in the Eagles'
Hall, Second and Yamhill streets, smoked
cigars by the box and enjoyed liquid refreshments. Amusement was provided by
vaudeville singers and actors engaged for the occasion. The smoker was conducted by a committee, whose chairman, A. W. Jones, presided. The Federated Trades Council adjourned early that the delegates might attend the smoker. Following its unofficial indorsement of the telephone op-
