GUESS AT RESULTS

Chairmen of Political Parties Forecast the Vote.

BAKER HOPES FOR 30,000

Only Question to Be Decided as to Presidential Result Is the Size of Theodore Roosevelt's Plurality.

Each of five parties has four candidates for Presidential Electors on the ballot for tomorrows election — Republican, Democratic, Prohibition, Socialist and People's, in the order cited. At the foot of the ballot is the question of prohibition to which voters will answer "yes" or "no."

Electors must vote in their home precincts. If registered they will present their names to the election judges and receive a ballot which they will mark and deposit in the box. If not registered they must present an affidavit signed by six freeholders certifying to their elec-torial qualifications. A freeholder may be defined as a person who has a fixed legal residence. Affidavit blanks can be obtained at the polls or at the County Clerk's office or at the several political headquarters, and must be sworn to be-fore a Notary Public or Justice of the Peace. Preparations have been made to enable unregistered voters to obtain affi-davits signed and certified at the polls without delay or expense.

without delay or expense.

The Republican state organization, headed by Frank C. Baker has been very active in the campaign. Mr. Baker has sent out 570,000 pieces of literature over the state. The anti-prohibition forces have been waging a vigorous campaign in all the counties where prohibition is the issue. Republican Forecast.

Frank C. Baker, chairman of the Re-ublican State Central Committee: 'Should the total vote Tuesday equal that of last June (in round numbers 166, 600), I believe that the people of Oregon will give President Roosevelt a majority commensurate with his friendship-past, present and future-for our state; and ing our figures on voluntary reports from members of our party throughout the state, our forecast is that his plural-ity will equal at least 30,000. We hope for a comparatively full vote, for the rea-son that our people will avail themselves of this most excellent opportunity to advertise to the world that we are growing in population relatively as fast as our

structions that spiritual things are incomprehensible to the materal man, achieve to the interpretation of the half-paganized Christian fathers in the fourth century, who showed in their church councils their incapacity rightly to comprehend the character of the Lord Christ. The Japanese said, by one of their leaders to Henry Drummond when he was in Japan: "We are much indebted to the missionaries, chiefly American, who taught us Christianity, but we have now learned for ourselves that it is a greater and a better thing than even they described it"; and they are proving it today in the forum and in the field.

Hardly anything is more conspicuous than the public disposition to discard its old preachers, as was winessed in the late Methodist conference in retiring its old bishops, some of whom give evidence of far more spiritual power than is possible for the young men to possess. Is this sowing to the spirit or to the fiesh? A talented young preacher in the city is evidently possessed with the idea that to young men is committed in greatest degree the message of the Gospei, and he has scant sympathy with aught but what has some relationship to bimself, but selfahness has little affinity with the finality.

Prohibitionists Hold Rally in White Temple.

SPEAK AGAINST THE SALOON

Dr. E. L. Rader, Mrs. Ada Unruh, Dr. F. B. Short and Others Express Confidence in Their Ultimate Victory Over Liquor.

The prohibition rally held yesterday afternoon at the White Temple on Twelfth and Taylor streets marked the closing meeting of the anti-saloon forces in this campaign. Efernal vigilance was the motto enunciated yesterday by the speak-ers, and the promise is given that should the forces working for prohibition be un-successful at the polls on Tuesday next, Wednesday morning will see the ranks reformed and ready for the fight during the coming year. Victory is claimed, not at this election, perhaps, nor at the next, but in the future.

but in the future.

Dr. E. L. Rader presided at the meeting yesterday and introduced the speakers.

The audience was fair in size, though the church was not filled, but what it lacked in numbers it made up in applause as each speaker made his points against the saloon and the saloonkeeper.

Dr. Rader in opening the meeting explained the local-option law in its effect

He said that he believes in local option because saloonkeepers as a rule are lawless men; because the saloon is a destroyer of manhood and because the liquor evil is the greatest enemy of the home. He declared that the saloon sends 100,000 men, to drunkards graves every year and if a foreign foe should come to our shores and kill even 1000 men, an army of 500,000 could be raised at once to exterminate the enemy. The smeaker urgsd terminate the enemy. The speaker urged that the people rise up against an enemy that kills 100,000 of our men every year. Professor Drew was introduced and was greeted with great applains by the audience. He made the following predictions: That if Salem votes in favor of prohibition the city will not thereby be reformed nor will the sale of liquor be entirely and completely stopped, but all ones saleons will be closed and temptation. tirely and completely stopped, but all open saloons will be closed and temptation will be removed from young men and from drinking men who are fighting against

Lime-Laden Schooner Appeared to Be in Distress Off River.

ASTORIA, Or., Nov. 6.—(Special.)—The schooner that was off the mouth of the river yesterday afternoon, apparently in distress, was the Challenger, on the way from Roche Harbor, Wash, for San Francisco, with a cargo of lime, but whether she has suffered any damage other than the loss of the greater portion of her salls is not known. The bar tug Tatoosh spoke the lightship this morning, and Captain is not known. The bar tug Tatoosh spoke the lightship this morning, and Captain Harriman, of the latter, reported sighting the Challenger yesterday afternoon. The schooner had lost all her sails, excepting the foresail and fore-staysail, and had distress signals flying. The schooner did not approach the lightship near enough for Captain Harriman to learn the nature of the trouble, but while the vessel's hull appeared intact and no vessel's buil appeared intact and no smoke was visible, the excited manner of these on board indicated that something serious had happened, and it is feared her cargo is on fire. The bar was too rough for the tugs to

reach her last evening, and when last seen the Challenger was standing off shore. She is supposed to have been driven north by the strong southerly gale that was blowing at the time, as no trace of her could be found this morning.

hole of the devil," said Mr. Biedsoe, "yet a salcon cannot run any longer without customers than a butcher's shop without a supply of sheep and calves."

"Portland has 800 salcons, the earnings of which amount to 140 per day, an income of nearly \$6,000.000 per year," stated Mrs. Unruh. "Salcon men pay the city 1160,000 taxes every year, but the money is wrung from the homes of the people, and is largely paid by laboring men who ought to spend the money on their families. President Roosevelt should study the defective kind of children fostered by the salcon before he talks of race suicide. Nobody knows what the salcon is, but the drunkard's wife." The speaker then made a plea for the Prohibition ticket.

The attendance was large and the services interesting.

Scotch for the Solitary Club. Boston Herald.

The New York Sun notes the decline of certain time-honored functions in the dining clubs of that town. For instance, it finds few clubs where the spectacle of a man sitting down alone at dinner with a pint of champagne at his side does not excite concealed amusement. The pravailing habit now, so far as liquid refreshment is concerned in Search for collears. vailing habit now, so far as liquid refresh-ment is concerned, is Scotch for solitary refreshment. When there's company, the full bottle and the hot bird are still con-sidered good form, and the amusement is more unconcealed among the participants of this sort of hospitality. This style of hospitality, it is fair to say, is not strictly confined to New York.

FLESH BUILDER

The liver of the cod fish produces oil that is a wonderful flesh builder. No fat or oil can compare with it in that respect. To get the best out of it, it must be emulsified and made like cream. In Scott's Emulsion it is prepared in the best possible form to produce the best possible results. Thirty years have proven this.

The Pills That Make New Blood

The case of Mr. Thomas F. Brown, of Amesbury, Mass., shows how readily obstinate diseases of the blood are cured by Dr. Williams' Pink Pills

For Pale People.

Mr. Brown says: "I had scrofula over my whole body. There was chronic inflammation and a discharge of yellow pus. My physicians feared the disease would end in consumption. Three months I took their medicine without benefit. Then I began to use Dr. Williams' Pink Pills and soon saw that the inflam-mation was going down. After I had taken eight boxes I was cured."

Ansemia, erysipelas, rheumatism and all weaknesses due to impoverished blood are quickly cured by these famous pills.
