LARCE FALL DEMAND

Jobbers Report Increase Over Last Year's Trade.

ACTIVITY IN HOP MARKET

Business in Other Produce Lines Not So Satisfactory in Past Week-Flour Sales to Northwest Millers.

Grocery and other jobbers are now in the sidet of their Fall business. They report trade as very satisfactory and showing a healthy increase over last year's. In the proluce markets there was not much activity in the past week, except in hops. Practically no only trading in this line being selling by deal-ers to millers. The flour and feed markets vere without feature. The stanle lines of lency toward weakness.

the car situation, it is not sufficient to liven the East. The export market is also dull, as freights, though weaker, are still too high to in this state and Washington are buying read-ily when they can get grain at prices that suit them. On the Sound the milling demand is particularly urgent, and higher prices are noted there than in this city.

Reviewing the European situation under date of October 20, F. Lenders & Co., of London,

the state of affairs are more ready to bease their quotations on prices ruling in importing countries rather than on the fluctuations of the Chicago option market.

So far as the future of the market is concerned, we cannot feel hopeful of any improvement so long as shipments continue on their present large scale. The position in America must be very strong when millers can afford to grind Manitoba wheat paying 25 cents a bushel duty, and if, as is generally believed, the option wheat is getting into strong hands, there is no saying to what level prices may be raised, it is plainly to be seen, bowever, that the influence exercised on this market is daily growing less, and traders are far more interested in ascertaining the likely results in Argentine.

FEANS—Small white, 35c; large white, 35c; ing less, and traders are far more interested in ascertaining the likely results in Agentine, Australia and India. So far as the first-mentioned country is concerned, everything seems to be proceeding satisfactorily, and there are already offers of new crop for January-February shipment in the market, although, excepting parcels to Liverpool, not much business has been concluded. As showing the confidence of shippers, it may be mentioned that a natof shippers, it may be mentioned that a nat-ural weight of 63 pounds per bushel has been guaranteed in the bulk of the business done.

poiries from the Orient are fairly numerous, but the buyers in that quarter still halt at the asking prices, and until their views are elevated sufficiently, there is not likely to be much movement. The demand from California and Central American points continues steady. The local trade is good, and prices ramain unchanged.

The feed situation is as reported last week. Milistuffs are in steady request, and oats, barriey and hay are quoted firm.

HOPE—Buyers, with numerous Eastern and London orders of hand, are seeking diligently for hops, but their quest is almost a hopeless one, so far as gotting them from growers is concerned, as the farmers, almost without exception, are holding tightly on their remaining stocks. Most of the hops bought in the past week have come from dealers, and the prices paid show a good advance over previous quotations, quality considered. It is estimated that not to exceed 10,000 hales remain in first hands in this state.

The New York Journal of Commerce says:

SAN FRANCISCO MARKETS.

SAN FRANCISCO, Nov. 9 .- (Special.) -- To the opinion of men well potted in the transment of the property of local and gastern butter on the local market for better for the season.

The butter market is dragging, with a pientiful supply of local and gastern butter on the local market for breadstuffs, Wheat op-

a good demand for flour at steady but un changed prices. Barley was very dull. N option sales were made on 'change. Spot prices of barley were steady. Oats were quiet, with an easier feeling. Corn is arriving heav-ily from the West, but going readily into con-

comption. Bran was steadler. Hay was easy Wool prices are largely nominal. Stocks in the country are well cleaned up, and very little held, except in scourers' and shippers' hands. The past season was a good one for sellers. Stocks of hope are rapidly diminishing. The demand is good and prices very firm.

Oregon and Colorado apples are selling read-ily, as receivers are willing to accept reasonliberal. New crop oranges are in ample supply and selling fairly well at slightly lower prices. Pine lemons are rather scarce, but a carload is expected soon. Shipping grapes are higher. Potatoes are still depressed. Fancy onlons are scarce and firm, but plenty of rain-damaged stock is offering.

Two Informations Filed.

OREGON CITY, Or. Nov. 1.—(Special.)
—District Attorney Allen this evening filed two informations. In one George W. Lauth is charged with the murder of Mrs. Lectors B. Jones in this city a few weeks ago, as the result of jealousy.

Rev. S. D. Martine, of Vancouver, is charged with assault with a dangerons weapon. Last September he shot a young man in the arm, as the consequence of a quarrel in a hopyard near Aurors.

market resembled the election itself, in the fact that it offered small chance for distinchet became general and well distributed, and the dealings rose to a larger aggregate than for any day since the punic on May 9, 1001.

There was a heavy outpouring of stocks during the first hour by those who had bought in the past in anticipation of the larger demand that would follow the election, and the market reacted to near Monday's close. In the afterneon there was the usual disposition to realize. But these movements did not at all obscure the broadened demand for securities, and the apeculative strength displayed by the market. Another change was in the temper of the later apeculation, as compared with the opening. The most feverish movements at first were among the industrials, but later market prices anowed a notable diversion of demand to the 484%c; string beans, 165c; tomatoes, 25675c;

cetablished dividend payers and to standard railroad stocks.

The United States Steel stocks were not exempt from this tendency, and their opening prices proved to be the highest of the day. Southern Pacific, Reading, Rock Island and Erie became aggressive leaders of the late movement in the railroad stock list. There was no specific news to account for their strength. The day's news was very little regarded outside the election, and there was not much of it of imperiance. Sterling exchange was steady. The market closed irregular and below best prices.

The bond market was very strong. Total sales, 514.165.000.

became more bearish. Reports of rains in the Southwest were an additional incentive to sell. The market also was influenced, in a larger degree, by fairly liberal sales made by a leader in the bull crowd. Under the selling pressure Decamber declined to \$1.12% and May to \$1.13%. Toward the end of the session, however, sentiment again became bulltsh, largely as a result of the extreme strength of the late open market. The market closed strong, spot quotations on December being \$1.13%. May closed at \$1.12%.
