the impetus of a price movement to extend tiself. News from the iron and steel industry offered nothing to refute yesterday's cheerful reports, copper was further advanced, sugar was marked up and more favorable railroad reports came to hand. Possibly the reading of the arguments in the hearing of the Northern Securities injurction appeal served to reviye an unpleasant impression of the attuation of the properties involved, which has received very little consideration in Wall street for a long time past. Estimates of gold movements to Cubs to reach \$10.000,000 proved jarring to sentiment. While the retention of the 3 per cent rate by the Bank of England and a further marking down of the price of gold in a per cent rate by the Bank of England and a further marking down of the price of gold in London were factors against further gold with-drawals from here for Europe, there was a rather suggestive hardening in the steriling ex-change rate here and a weakening at Paris and Berlin, which serves to increase the threat upon our gold supply. There was a firmer tone in our money market, but changes in quota-tions were barely appreciable. Call loans, however, were made at 3 per cent in the inst

Volume of Transactions is Large, but

NEW YORK, Nov. 10.—There were further very large dealings in slocks today and a very broad market, with much absorptive power. But the volume of transactions fell off largely from the extraordinary business done yesterday, and amounted to less than 2,000,000 phares. and caused an extensive array of losses by the end of the day, besides largely reducing or wiping out the gains which were the strong features of the day. The eagerness to sell was especially manifest in the United States Steel stocks, the Pacifics, Epie, Reading and Rock Island. In the framenious deslines of yester-day, amounting to more than 2,300,000 charses of all issues, these few stocks contributed much more than the arranges to today. The

Will Revise Prices of Steel.

PITTSBURG, Nov. 10.—All the associations controlling the prices of steel are to meet in New York next Tuesday and continue in session until the whole list of prices has been revised to sait the conditions which have arised in the fron and steel market.

The prospects are that the scale of prices determined upon next week will be those that will rule until well into the first quarter of the coming year, and it is fairly certain that prices will be advanced in most of the lines. Prices of billets, it is thought, will be increased to \$21. The present price is \$19.50 in Pittsburg.

The question of the apportionment of the money for foreign missions among the various countries was deferred until tomorrow. was deferred until tomorrow.

The total appropriation for home mission work today aggregated \$125,000. The parts of the countries which were given special consideration were the mining districts of Michigan, the prairie strips of the Trans-Mississippi States and the mining camps of the Rockies. The long-est discussion given to any one question. est discussion given to any one question was that to the appropriation for Arizona, some numbers doubting the expediency of continuing so large an appropriation as \$7000 for this territory because of the seeming lack of fruitfulness of the work

SAN FRANCISCO MARKETS.

Bed Oats in Demand Against Departure of Transport.

SAN FRANCISCO, Nov. 10.—(Special.)—What options sold higher at the opening, but soon had a sharp decline. Spot prices remained steady. Barley was firmer for futures and against the departure of the mark that was firmer.

New-crop cranges were in ample supply and a shade lower. Today's steamer for Australiatok 10 carloads of navels bought in the country. New tangerines were more plentiful.

Pancy bemons are still scarce. Oregon apples are in light supply and firm.

The pointo market was overloaded, quiet and wask. Sweets were lower under the arrival or five carloads. Fancy origins were strong. With higher prices predicted.

Dairy products weer unchanged. Receipis, 55,000 pounds butter, 36,000 p
