

# SHORT SPACE

## Larger Buildings Needed for 1905 Fair.

### NATIONS WANT MORE ROOM

#### Every Available Foot of Space Is Practically Covered.

#### MORE YET TO BE HEARD FROM

#### Director of Exhibits Doach Reports on Sudden Activity of the World's Countries in Regard to the Exposition.

The world has sprung a pleasant surprise on the Lewis and Clark Exposition.

The powerful and important nations of every section of the globe have sent in such an overwhelming array of applications for exhibit space that it will undoubtedly be necessary to convert a larger structure than the present Foreign Exhibits building, to their needs.

Seventy thousand square feet of space have already been applied for and other applications are reaching Director of Exhibits Doach each day, as his reports from St. Louis indicate. His latest report showing the activity of the nations caused something of a resident here and Clark headquarters yesterday, and was the topic of discussion. The applications already on file claim just about the space contained in the present Foreign Exhibits structure.

Manufacturers have also been unusually active, with the result that the space in the Machinery, Transportation and Electricity building is practically covered, so Colonel Doach reports, while in the Mining building the applications will easily cover every inch of space and at least two big mining companies have already announced an intention of building separate structures in which to house their displays.

This somewhat unexpected but happy condition will probably cause a readjustment of the exhibit buildings. Colonel Doach states as much in his report, and it has been suspected for some time that changes would have to be made. It is hardly probable, however, that the changes will be made before the return from St. Louis, as the present Foreign Exhibits Building will then be given over to the use of liberal arts exhibitors to supplement the present Liberal Arts Building.

Colonel Doach concluded his report as follows: "I can safely say that before December every foot of floor space at my command will be covered, with many people yet to hear from. As, for instance, we are now negotiating with forty-six manufacturers who intend to make live exhibits and 27 manufacturers who are considering the question, and none of whom have yet been assigned floor space.

"The people of Portland and Oregon, and, in fact, the entire Pacific Northwest, need not fear that our exposition will be second to any ever held in the United States.

"The nations which have already filed their requests for exhibit space are China, Germany, Japan, France, Sweden, Norway, Holland, Austria, Hungary, Switzerland, England, Prussia, Turkey, Egypt, East India, Costa Rica and the South American republics.

### WESTERN MEN ACTIVE.

#### Representatives of All States Work for Portland's Fair.

Washington and California and, in fact, all the states of the Northwest, are showing active friendship for the Lewis and Clark Exposition. President Jefferson Myers, of the State Commission, states that during his stay of four weeks in St. Louis he saw many evidences of the devotion and interest of the representatives of all Western States to the coming Portland Fair.

"They regard it in the light of a Western enterprise and without any feeling of municipal or state jealousy," said Mr. Myers.

"I have seen commissioners from Western States corraling visitors at St. Louis and telling of the Lewis and Clark Exposition and soliciting their attendance. The commissioners from California and Washington were particularly active in this respect and offered the Lewis and Clark representatives at St. Louis much valuable aid in the way of distributing literature and entertaining influential visitors."

### PHILIPPINE EXHIBIT COMING.

#### President Goode is Arranging Details in Washington.

OREGONIAN NEWS BUREAU, Washington, Nov. 14.—President H. W. Goode, of the Lewis and Clark Exposition, is in Washington conferring with members of Government Exposition Board and War Department officials relative to the Philippine exhibit for Portland. Negotiations have not yet been agreed to, but there is no longer any need for apprehension that Portland will be without an adequate insular display. The differences that existed between the Government Board and War Department are being harmonized, and there are prospects that the Government exhibit at Portland will include a comprehensive display of resources of the Philippine archipelago.

### DETECTIVE THROWS UP CASE

#### Officer is of Opinion That Saloon Man Robbed Himself.

The police have given up search for the men who were supposed to have held up the Seventh and Gilsan Exchange Sunday night, because Detective Weiner thinks he has found a flaw in the story told by Claude Dann, the proprietor present at the time of the alleged robbery. Weiner did not discover the flaw until yesterday morning.

The story told by Dann Sunday evening, after he had unlocked the door to admit the detectives sent to the saloon, was that two masked men had entered one from the front and one from the side door, and compelled him to stand back while they robbed the cash register. One of these men, he thought he recognized as a frequent customer in the saloon.

This frequent customer and an extra \$10 gold piece found missing have led Weiner to believe that Dann himself robbed the register, thereafter tele-

phoning to the police and barricading himself.

The customer whom Dann says he recognized as an associate of his clothes was touched by Dann's partner as an honest man and was not looked up at all by the detective. The extra \$10 and surrounding complications led Weiner to believe that Dann was his own hold-up.

Sunday night Dann did not mention any money but the \$20 taken from the cash register; but when Weiner visited him in the morning he said that \$10 which he had taken in change and had placed in a hiding place under the bar had also been stolen.

"How did the hold-up know of this money?" asked Weiner.

"The man whom I suspect as one of the robbers was in the place when I made the change and placed the money there," answered Dann.

Weiner then sought out the partner and asked him about the change made. The partner said Dann had made the change, but placed the \$10 gold piece in his pocket.

Dann retorted that he had taken it out of his pocket later and placed it in the secret receptacle.

"Who beside yourselves was in here when the change was made?" asked Weiner.

"No one," said the partner.

"Who is this man whom he describes as one of his assailants?" asked the detective.

"An honest man whom I know," Then Weiner threw up the case.

### BOARD OF EDUCATION MEETS.

#### Discusses Necessity of Making Exhibit at Lewis and Clark Fair.

At the regular meeting of the Board of Education last evening the necessity of

making a full and complete exhibit in the educational department at the Lewis and Clark Exposition was urged, and the matter was referred to the committee on finance for consideration as to the cash required to make a creditable showing.

Complaint was made that unsanitary conditions prevailed in the vicinity of the Modwell School and the matter was ordered investigated and remedied at once. A communication was received from the Boys' and Girls' Aid Society asking assistance from the schools in arranging their Thanksgiving day distribution of clothing. The society was authorized to solicit the assistance of the different schools.

The same privilege was allowed the Babbs' home, the Patton Home and the Children's Home.

Four teachers were named to serve in the manual training school which is being established. The appointees recommended by the board are E. S. Chambers, H. I. Shaw, W. G. Greenleaf and W. F. Wenz.

The agent of a fire-extinguishing apparatus was allowed to create for 20 minutes his merits of his extinguisher with the result that 50 extinguishers or more will probably be placed in the schools at an early date.

### EXPECTS ARREST OF SHERIFF

#### Attorney Lord Will File Damage Suits Against That Officer.

Suit will be filed in the United States Circuit Court today against Sheriff Tom Word for damages done by an incident to his raid in Chinatown last Thursday. Attorney Charles F. Lord, representing the Chinamen, said yesterday that he will sue the damages at \$500, the amount to include not only the carrying off of doors and tables, but the loss of business reputation and the general havoc caused by the affair. The Chinese, explained Mr. Lord, do not consider themselves advertised by the incident, but believe it will hurt their business.

The Chinamen will also commence a replevin suit in the Justice Court for the missing doors and tables.

Mr. Lord is confident that today he will secure the arrest of Sheriff Word. He believes now that he will be able to place the evidence in such a way before District Attorney Manning that he will find it necessary to issue the warrant.

### MRS. MIRANDA A. DURHAM DEAD

#### Pioneer and Mother of Two of Oregon's Famous Sons Passes Away.

Mrs. Miranda A. Durham, mother of two prominent Oregon men and a pioneer of 1847, died this morning at the home of her son, R. L. Durham, at Riverdale. Mrs. Durham was almost 90 years old and has lived a long life in the Middle West and in Oregon. She was born in Canada in 1814, going when a child to Illinois, and remaining there until she crossed the plains with her husband, J. A. Durham, who died in Portland five years ago.

Mrs. Durham left two sons—Hiring, George H. Durham, of Grant's Pass, and R. L. Durham, of the Merchants National Bank of Portland. The late S. A. Durham was also her son. She left ten grandchildren and four great-grandchildren.

### STOP FOR COLLINS HOT SPRINGS.

A covered platform has been erected by the Collins Hot Springs for the accommodation of passengers who desire to visit this resort. It is immediately opposite the stop at this point on day to take on or let off passengers. A commodious launch starts and carries all passengers and baggage across the river to the hotel.

# ON TRIAL FOR LIFE

## Louis Savage, Indian Chief, Faces Murder Charge.

### FACES THE EVIDENCE COOLLY

#### Damaging Testimony Given Against Him by Witnesses, but He Acts Unconcerned and Does Not Seem to Fear Verdict.

Accused of wantonly taking the life of a fellow-Indian, Lorenz Savage, last living chief of his tribe, is now on trial for his life in the United States court.

The murder for which the United States officials expect to make Savage pay the penalty, was committed on the Grand Ronde reservation, early in the morning of April 24, and appears to have been the termination of a night of drunken revelry on the part of the Indians assembled.

The story as told before the trial shows that a party of Indians had spent the night in drinking and playing games. Savage, it is claimed, drank to excess and became ugly, quarrelling with several companions.

During an altercation, Wacheno suddenly appeared, and it is alleged Savage

dian with the half-filled bottle found on his person.

The case of Savage was continued until today, and United States District Attorney John H. Hall expects to have all evidence submitted to the jury before night.

### BIDS WILL BE OPENED.

#### Improvements in Car-Shops Will Be Rushed to Completion.

At noon today the bids for the construction of the additions to be made to the car shops of the O. R. & N. Company at Albina will be opened in the office of General Manager E. E. Calvin, and will then be taken under consideration until such a time as it is best in the opinion of the general manager to award the contracts for the work.

For several years the shops at Albina have been too small for the purposes of the company, and now, since the South-Pacific Company has been consolidated in operation with the O. R. & N., the lack of repair and construction facilities has become more noticeable than ever.

To put an end to the inconvenience the company has decided to make improvements which will cost in the aggregate half a million dollars, and when completed will give Portland as good and extensive shops as are on the coast.

The bids will be given on the buildings separately and will include those for the erection of a machine shop, 150 by 225 feet, costing in the neighborhood of \$25,000; a 22-stall addition to the round house, to cost \$65,000; paint shops, 80 by 55 feet, to cost \$12,000; coal chutes, 80 by 75 feet, costing \$25,000; coal chutes, 80 by 75 feet, to cost \$25,000; and a 200-foot store house, 80 by 200 feet, costing \$50,000.

In addition to this work of construction new tracks will be laid to the new buildings, which will cost the company \$100,000. According to the custom of the company, the bids submitted may be considered and discussed for some time before the contracts are let, and the announcements are made. As soon as the contracts are decided the work of construction will be commenced and rushed through to completion.

### SWEENEY HAS TO PAY.

#### Fined for Assault and Battery and Assessed for Damages.

That to express one's emotions through the medium of the clenched fist is worth not only a \$5 fine but also \$5 as a salve to the injured one's feelings, is what J. W. Sweeney learned in Justice Reid's Court yesterday.

The principals in the lesson were J. W. Sweeney, J. W. Sweeney and a jury of 12 good and true men. Sweeney was fined \$5 and assessed \$5 as a salve to the injured one's feelings, is what J. W. Sweeney learned in Justice Reid's Court yesterday.

### DENTAL EXAMINERS MEET.

#### Eight Applicants for Certificates Take Examinations Before Board.

Dr. R. L. Lincoln, of La Grande, who was adjudged by the courts some time ago to be a member of the State Board of Dental Examiners, yesterday sat on the board, while holding examinations. No question was raised as to his right to the position, and it is understood that he attended the last quarterly meeting of the board.

There were eight applicants for certificates allowing them to practice dentistry. They were: W. E. Pittinger, Hillsboro; A. Lister, Jackson County; A. B. Stiles, Coos County; Harold Lander Archie Stemer, Coos County; John Russell Chapman, Dayton; Frank L. Govern, Linn County; J. A. Birchard, Pierce County, Washington; Paul A. Trullinger, Clatsop County.

The board consists of William A. Cummings, Portland, president; O. L. Ireland, Portland, secretary; R. L. Lincoln, La Grande; O. E. Smith, Eugene, and George Larkin, Newberg.

### Cathedral Fair Cleared \$3000.

The members of the Cathedral parish are resting this week from their hard work at the fair which closed Saturday night, and are much gratified at the success of the enterprise, from which they have cleared over \$3000.

### BUSINESS ITEMS.

If Baby Is Cutting Teeth. Be sure and use that old and well-tried remedy. Mrs. Winslow's Soothing Syrup, for children teething, it soothes the child, cures the gums, always all pain, cures wind colic and diarrhoea.

# OFF TO WASHINGTON

## Senator John H. Mitchell Leaves Tonight.

### FULTON STARTS NOVEMBER 22

#### Both Will Make Vigorous Effort to Have River and Harbor Estimates of Major Langritt Restored.

Senator Mitchell will start for Washington tonight over the Northern Pacific. He will visit members of his family at Tacoma, St. Paul and Canton, O., and will arrive at his destination about November 22. Senator Fulton will start for the National capital November 22.

Both Senators said yesterday that their main endeavor at Washington this winter will be to secure adequate river and harbor appropriations for the Oregon Coast and for the Columbia River. They regretted that the Chief of Engineers has pruned down the sums estimated by Major Langritt as essential to improvements required. The Chief of Engineers has cut Major Langritt's estimate for the south jetty at the mouth of the Columbia 40 per cent; for Cello canal, 31 per cent, and for the Willamette River below Portland, 27 per cent. Before the recommendations of the Chief of Engineers shall go to the Secretary of War, the Senators will endeavor to have them raised.

### How Estimates Were Cut Down.

The recommendations of the Chief of Engineers, compared with the estimates of Major Langritt, are as follows:

	Est. of Major Langritt	Est. of Chief of Engineers
Columbia and Willamette Rivers from Portland to the sea.....	\$450,000	\$ 925,000
Columbia at Three-Mile Rapids for beginning construction of Dalles-Cello Canal.....	775,000	1,320,000
Willamette above Portland.....	250,000	250,000
Willamette below Portland.....	10,000	.....
Upper Columbia and Tillamook Bay.....	60,000	67,500
Cowitt and Lewis Rivers.....	16,000	15,000
Stuska.....	5,000	15,000
Coquille River.....	55,000	70,000

### Effort to Restore Langritt's Estimates.

Senator Mitchell said that the sums for the Oregon coast and for the Columbia River had been scaled down not because there was any disposition to discriminate against this part of the country, but because the Chief of Engineers probably desired to prevent the river and harbor bill from becoming too large. If the appropriations for this part of the country were to be raised it would be necessary to do this before Congress because after that time success in that direction would be next to impossible. Senator Mitchell remarked that there was danger of the appropriations being scaled down still more by the Secretary of War.

"Many rivers and harbors in Oregon need improvement," said the Senator, and the total of their needs makes a large sum of money. The most important of all, however, is that of the Columbia bar."

Senator Fulton, ever since his election nearly two years ago, has maintained that the Government should relieve the Port of Portland of the burden of maintaining the river channel below this city. He regrets that Major Langritt's estimate for this work was cut down by the Chief of Engineers and promises to do what he can to have the sum increased. In order to begin the permanent works contained in the plans of the engineers, Major Langritt estimated the \$525,000 would be required for the next two years. The last appropriation was only sufficient for making temporary improvements.

### New Directory in Use.

Postmaster Minto announces that the 1904 city directory is now in use at the Postoffice, and requests that all persons who receive mail should ascertain if their correct address is recorded in same. If not, such persons should notify the Postmaster at once, as the old directory will be discarded after 30 days' use in conjunction with the new one.

The directory and general delivery department of an office the size of Portland is quite complicated, and patrons of the Postoffice should aid in every possible way the correct delivery of their mail.

A SHORT HISTORY OF

# OREGON

Compiled by  
SIDONA V. JOHNSON

Early Discoveries, the Lewis and Clark Explorations, Settlements, Government, Indian Wars, Progress.

It is essentially a practical work, with the information in a compact and useful form. "The author has not only made an excellent choice of the facts, but in their grouping and setting he has shown excellent historical taste."—Journal of Education.

## Hall Caine's

Messrs. D. Appleton & Co. announce the appearance of Hall Caine's greatest novel, "THE PRODIGAL SON." The first editions of this book will be 225,000 copies. It appears simultaneously in nine different languages—English, German, French, Italian, Russian, Finnish, Dutch, Swedish and Danish. The number of copies printed in English alone is 183,000. This is absolutely unprecedented in the history of fiction.

## The Prodigal Son

"That, in spite of rigid laws, an Indian can still get 'firewater,' was clearly demonstrated to the Federal officials yesterday. John Logsdan, a witness for Savage, apparently grew tired of the dreary wait and started out to find something more to his liking. He found it in the shape of a supply of whisky, and it was but a short time until he felt that he had sufficient strength and courage to clean out the entire United States Marshal's Office. It took but a short argument, however, for Deputy Wilson to convince Logsdan that he was all wrong, and later Judge Bellinger issued an order that Logsdan should be taken care of in the County Jail for the night. The court took occasion to remark upon the ease with which Indians secured liquor while in Portland, and directed that steps be taken to learn who supplied this particular in-
