practically cleared of all fuggie hops, and many of the second-class have also been taken for copper purposes. These hops are the best value of anything that is left. The Worcesler crop has also nean cleared out. All Continental and American markets are advancing.

The Exchange & Hop Warehouses Limited—The stready demand continues, but mostly for middle-class hope, which are now being disposed of pretty freely at hardening rates, all the old and lower qualities having been sold some time ago. Growers expect to realize heter prices for their best qualities than are at present quoted. A further advance is reporteded on the Continental market.

J. H. Mercetith & Co., Worcester.—Most of the Worcester crop has now passed out of first-hands, and there was only a small supply on offer at market on Saturday. A fair demand prevailed for all qualities at about the proxicus week's values, but some growers are still holding for higher prices. Last week 1812 pockets of new Jopa sassed the public scales, making 602 pockets weighed this sembon, and 606 pockpits of yearlings weighed during the week.

CAUSE REACTION IN NEW YORK STOCK MARKET.

Heavy Trading at the Start, in Spite of Paralysis of Telegraph Service-Loan Rates Weaken.

gold for Paris today. The wild character of the movement of the first hour in industria specialties and low-grade railroad stocks aroused misgivings as well. These influences paved the way for the reaction, which became quite general during the midday period and forced the level of prices for the active standard stocks a point or more below Saturdar's level. The decline was at no time beyond control, and the part played by bear selling was shown by the later demand to cover by shorts. The sales recorded during the first hour rose to over 500,000 shares, showing the rate of not tivity well maintained at the recent maximum, is spite of the interruption of wire service by the storm, which practically paralyzed the activity of some of the commodities of the market.

The unimpaired volume of the demand for spocks in spite of the paralysis of relagraph service and the character of some of the securities which moved violently, was suggestive of a marrow margin of business and increased the uneastness of those who were on the watch for signs of reaction. It was supposed, however, that the later strength in the market was due to the receipt of belated orders from out of town sources.

was due to the receipt of belated orders from put of town sources.

The immobility of the call loan rate in the face of the gold movement was another factor in the late relovery of confidence. The \$3,700,000 or gold engaged for shigment to Paris Thursday, together with the \$4,000,000 expected to go to Cuba this week, certainly threaten an important inroad upon the \$8,544,500 of surplus reserves aboven by the Saturday bank statement. The \$2,000,000 expected to France on Saturday had not figured in that statement. But the money market showed that, if the resources of the lanks were running low, there was recourse available to other sentress, as Meats and Pravisions.

DOWNWARD PRICES ARE DUE TO PERSISTENT LIQUIDATION.

All the News of the Day Is Unfavorable-Heavy Receipts in the Southwest.

CHICAGO, Nov. 18.—Sentiment in the wheat pit was bearish from start to finish. The impossibility of communicating with the Eastern seaboard by wire tended to make a tame esseion. May was be lower at \$1.148.14%. Influenced by a smaller movement in the Northwest, shorts immediately after the opening covered quite freely, the result being an advance to \$1.14%. SAN FRANCISCO MARKETS. Lack of Eastern News Checks Grain Spec-

SAN FRANCISCO, Nov. 14 - (Special.)-The paucity of Eastern and foreign news, owing to wire trouble, checked grain speculation here. Chicago being lower, local prices of wheat options had a small decline. Cash prices were aster, with \$3.45 a top quotation for fancy shipping. Barley futures opened weaker, but closed steady. Spot trade was more active at mustained prices, despite liberal arrivals. Onte were steady, with fair inquiry. Hay and feedstuffs were steady. Beans had more

New cranges were in good local demand, owing to better color and quality, but liberal recripts keep prices easy. Three carioads of navels arrived. Receipts thus far are wholly from Northern and Central sections, but South-ern California oranges are fast ripening, and are expected soon. The last arrived cartuad of lemons is well cleaned up, and choice stock is very firm. The apple market is greatly de-pressed. Four more carloads from Oregon and Colorado added to the already excessive stocks. and except for fanciest Spitzenbergs, liberal concessions are made to buyers of round tots, Fancy grapes for shipping are scarce and firm. River potatoes arrived heavily, and the market was very weak. Fancy Salinas Burbanka are steadler. Four carloads of sweets arrived, but choice did little better. Onlines are strong and advancing. There has been no sale above \$1.50 in a wholesale way, but holders of fancy are asking \$2. Los Angeles green

### Marconi Wireless

Under a 14-year contract with Lloyd's great Shipping Agency, it is employed all over the world in reporting vessels registered with that corporation.

The British Postbilice Department has entere into a traffic agreement with the Marconi Sys-tem to deliver its messages to all parts of Eng-land, Ireland, Scotland and Wales.

The earnings of one department of this com-pany (the trans-Atlantic), when in full opera-tion, New Year's day, 1965, will alone be suffi-cient to pay an annual dividend of 150 per cut on the present capitalization.

The Marconi System has been beavily subsi-dized by the Canadinn Government, and there are now in active operation on Canadian soll upwards of 15 stations in the service of the covernment.

The Marconi System is now a permanent fac-tor in American business life, by the commer-cial establishment of five stations in daily use, in the transmission of ordinary telegraphic mea-

The Marconi System is now operating in the service of a daily newspaper, published in mislocean on board Cunard steamships. It is estimated that this branch of the Marconi business will bring the company a net annual profit of \$700,000.

These are but faint indications of what may be accomplished through the thorough establishment of the Marconi Systam. Full details concerning this and other mattern of importance bearing upon the Marconi Systam may be obtained by writing us today. We will send you complete literature and explain our casypayment plan of owning stock in this company.
