That the total estimated expenditure exceed the satimated receipts by \$250,000 was the startling announcement made by City Auditor Devin to a special meeting of the Executive Board yesterday after-

The meeting was called for the purpose of bisepenciling the departmental estimates, and two hours were consumed. But after much discussion the Fire Department's estimate of \$251,890 was practically passed up to the Council. A cut must be made and the Councilmen must wield the abear. The Executive Rosed

plied Mr. Devlin. Whether a new engine company should be installed at Third and Glisan streets on at Fulton was the main question. Mr. Fliedner, of the fire committee, said that the lot donated the city on Third street for an engine-house was an expensive gift, as much piling must be laid for a foundation. The Mayor remarked that as the streets in the downtown district had been greatly improved, the engines ould reach a fire in that region more rap

The estimate of \$161,322 for the Police

"You can't break in a policeman in 20 days," said Mr. Sichel, of the police committee. "I noticed in St. Louis the other day that a regiment of soldiers guarded the foreign exhibits. The City Engineer's and the street re-pair estimates of \$75,792 and \$57,866 were passed without hesitation. The street-cleaning and sprinkling estimate was cut to 890.00. The minor estimates, including one of \$2500 for the City Museum, went through unscathed.

## AT THE VAUDEVILLE THEATERS

At the Star.

At the Star a new vaudeville bill was At the Star a new vaudeville bill was presented yesterday which will be found more than interesting to the large class of people who appreciate this light form of entertainment. The three Avolas are the headiners, with the Yale due featured. The Avolas consist of a father and his two sons and the trie give an acrobatic act which is full of novelties. It proved a big card. The Yale duo manipulate clubs and they have discovered that club juggling need not be conducted in the slipshod manner which so many club swingers exhibit in this line of endeavor. Carter and Mendel are a couple must be made and the Councilmen must wield the shyars. The Executive Board sanctioned the estimate for the department without extensions or improvements, 199,240, and allowed \$800 for four reserve horses.

"Those estimates exceed the receipts from taxes and licenses by \$235,000," said Mr. Devlin, when he began to read his tabulated statement. The members gasped nudibly. The City Auditor's fund of minute knowledge on all things municipal was repeatedly called upon.

"What do you think we can allow for the Fire Department?" asked Mayor Williams, when the big total for that branch of the city service had been read.

"I think we must go under \$155,000," replied Mr. Devlin.

At the Arcade.

Variety of entertainment marks the new Arcade bill, which opened to a big matinee house yesterday. For the current week the position at the head of the bill week the position at the head of the did is occupied by the Fern Comedy Four. This is one of the most expensive acts the Arcade has given its patrons and it is also one of the strongest features the house has billed. The four comedians have excellent voices and their quartet have excellent voices and their quarter numbers were received with heavy ap-plause. The Fern Comedy Four was en-cored nearly five times at the opening performance. The comedy element is of the sort which takes best with a vaudeaudience because the humor is an parent. The Adams brothers offer a re-fined singing and dancing turn. A novelt of this act is in the acrobatic dancing of the men. This is something new an the men. This is something new and never before seen on a local stage. Di-vine Dodson, one of the best female imvine Dodson, one of the best female im-personators in the business, and one who carries a brilliant wardrobe and isjects comedy in his singing, was another act deserving of more than passing notice. Kate Coyle, the ever-popular singer of illustrated ballads, has discarded the pic-tures this week. Her song is a military one, such as become favorites with the boys. On the bioscope there are pictures of the St. Louis fair, the adventures of an Irishman, and pictures of children.

At the Lyric.

Managers Keating & Flood opened a new programme yesterday which is up to the standard of this house. The acts are clevar and the bill is well balanced with comedy, melody, acrobatic turns and similar striking and enjoyable specialities. First honors go to Vorge and Werda. They have a musical thrn that proves refreshing in its novelites. The act is well dressed, too, and carries electrical effects. These musicians, aside from playing on brass and string instruments, to stunts on devices such as a row of resort, are still in possession of the do stunts on devices such as a row of dolls and basket of flowers. The turn is given increased interest because the selec-tions rendered are up-to-date and are of that quality known as popular. The De-garos offer an act on the Roman rings. They are experienced people and do their work with that polish and fluish which can only be acquired by years of work. Ward and Ward have a comedy sketch in which there is an assortment of lokes. White Whittlessy, will begin an engagement of two nights, presenting this evening "Heartsease," to-morrow evening
"The Second in Command." The scenic
coulyments of the Whittlessy Company
are of an exceptional order, everything
being carried by the organization for the
plays mentioned.

A trained choir is also part of the organization for the rendition of the music
in "Heartsease," and among the players
are such well-known people as Engenie

The stock company at the Columbia Theater has made a decided hit in its newest offering. "The Gay Parisians." a darce that is French, but not so Frenchy that it shocks even the most confirmed prude.

The crowds emerging from the Columbia Sanday afternoon and night were "boosters," one and all. Everybedy had a good word to say about the production, with its various unexcelled features, and from the praise bestowed by the public as well as the critics, who are unanimous, it is apparent that the company has made the hit of the season.

Rodney Berger Brings Suit Against Railway Company.

CASE WILL BE INTERESTING

Several Railway Officials Are Called as Witnesses, and Senator Charles W. Fulton Appears in Case as Counsel for the Defense.

Rodney Berger, a young man who was put off a train of the Astoria & Columbia River Railway Company at John Day Station, on the evening of July 2, 1902, appeared as phaintiff in a suit against the company for \$5000 damages, the trial of which was begun yesterday before Judge Frager and a jury. The conductor refused to accept the ticket for the trip from Astoria to Portland, and the railway company will contend that its agreement with the O. R. & N. Company did not include tickets from, Portland to livaco and return.

Berger complained that he was compelled to walk from John Day back to Astoria, part of the way over a muddy track. He testified that he was humiliated and also that he suffered with a swollen hand caused by the bite of a poismous insect, and did not receive medical attention for some time. He also testified that he checked his baggage at Astoria to Portland at the railroad office, and the baggage agent made no objection to the ticket.
