BUREAUCRACY EVILS SHOWN

Rulers and People Estranged by Religious Intolerance, a Muzzled Press and Stifled Freedom of Speech.

ST. PETERSBURG, Nov. 20.-The Zemstvos representatives' meeting today adopted the remainder of the memoria almost literally as cabled to the Associated Press yesterday, and besides considered several supplementary articles prowiding for practical co-operation of the Zemstvos in the Red Cross work and for extension of school facilities. The vote on the question of the adoption of the memorial stood 88 to 10.

The meeting probably will be continued several days. The memorial and minutes Emperor. What the result will be is a matter of speculation, but the men who have participated in this meeting are in most cases the most influential and able men in their respective provinces and are resolved to press the movement everywhere with the greatest vigor.

A Zemetvo banquet will be arranged for December 4, the 40th anniversary of the December 4, the 86th anniversary of the emancipation proclamation issued by Alexander II, and on this occasion speeches along the line of the memorial will be made. Later the Zemstvos, which are to meet on December 14, will be urged to adopt resolutions embodying a similar sels. made. Later the Zemstvos, which are to programme of agitation.

While the Associated Press is not at 175erty to give a detailed report of the speeches, it is able to summarize the chief points of the discussion preceding the adoption of the Zemstvos' memorandum: "The chief characteristic of Russia's existence is complete estrangement of rulers and people, due to the lack of mutual This condition has been intenuified by recent years, and has been especially noticeable during the outbreak of the war, which disclosed the true in-

and preis are prime factors in the es-trangement of rulers and people.

"Restrictions bear grievously upon classes as well as the masses, intensify discontent, war acts and opinions of the ruling apheres, fostering irresponsibility and arbitrariness.

"Bureaucracy promotes religious intolerance, muzzles the press and stifles freedom of speech in order to give a specious appearance of solidity to the structure of the state. The bureaucracy's efforts to imprison the people's minds inevitably leads to brute force. We want a free and independent administration of justice as an essential safeguard against this constant encroachment upon the life and liberty of the individual.

Equality Before the Law. "No real reform is possible without equality of all individuals before the law. This means peasants must be rescued from their present condition of servitude and granted equal rights with other classes of the community.

"Peasants must be given the widest share in local government by the creation of a small Zemstvo unit and the Zemstvo system be thoroughly revised so as to bring it into closer contact with the peo-ple and the method of assuring permanently these reforms lies in the regular participation of the people in the legisla-tive reform of the country."

General Balashoff Says Russian Hos pital Ships Are Fired Upon.

CHEFOO, Nov. 20.-General Balsahoff, the head of the Red Cross Society at Port Arthur, sent to the Associated Press on the torpedo destroyer Ratstorophy, which arrived here from Port Arthur November 16, and which was subsequently destroyed by her crew in this harbor, a personal let. ter charging the Japanese with a violation of the rules of civilized warfare. Owing to

He says that they have compelled the abandonment by the Russians of three plainly-marked hospital ships, and that mary procedur the wounded who were aboard the halfsunken steamer Angara also had to be removed. In the discussion of the oyster as a means of communicating the germs of typhoid fever in Europe and in the United States, many inaccurate statements have been put in circulation, so that the Government has deemed it necessary to have the matter investigated by an expert commission in contents. "Under the existing condition of affairs the government has no means of knowing the truth about the country and what the people desire, and is no reduced to act upon what it thinks is best for the people. But such action only makes matters worse and leads to blunders and continued estrangement. The trouble is the people are excluded from any part in the government.
