

INSTITUTES ARE TO BE IMPORTANT FEATURE.

FUND OF \$8000 NEEDED

Leaders of Thought Will Be Brought to Portland.

CORPORATION TO GIVE \$3000

Lewis and Clark State Commission is Asked to Appropriate \$5000 to Make Gatherings and Conferences Successful.

In order to make the institutes of learning and religious conferences of the Lewis and Clark Exposition an unequalled success, appropriations aggregating \$8000, to be used in bringing great thinkers to Portland next year, are being sought by leading local clergymen and others interested in the intellectual as well as the material advancement of the Pacific Northwest. The Lewis and Clark State Commission has been asked to subscribe \$4000 of its funds to this cause, the corporation having been established to make a greater appropriation than \$3000, which is adjudged inadequate. Although entirely out of the province of the Commission, the members have become determined that the cause is a worthy one. In the event the Commission can make the appropriation asked for it will be done. A communication is now being prepared for the approval of Attorney General Crawford, the legal adviser of the Commission. In the event the terms of the Lewis and Clark appropriation enactment are in no way violated by such an expenditure on the part of the Commission, the money will be set aside.

To Bring Leaders of Thought Here.

The necessity of bringing leaders of thought here and providing for the intellectual progress of the Coast was urged upon the Commission by Rev. Dr. Stephen Wise and Richard W. Montague. In communicating with the Commission they complained that while the Exposition Corporation had promised \$8000 for the purpose, the sum was inadequate. They contended that the institutes which the Corporation is already on record as highly favoring should be the greatest of the kind ever held, and the idea should prevail of showing all the forces which have been material in the development of Western America and have contributed to its progress. It has already been decided by the Exposition management that the series of institutes should embrace religion, education, civics, character, commerce, labor, science, history and woman's work. The religious conference will occur mostly on Sundays. It has also been decided to ask the teachers of the state to absent their country institutes next year and to meet in one great educational conference at Portland.

Men to Be Invited.

The appropriation asked by Dr. Wise and Mr. Montague was for the purpose of bringing great leaders here as the guests of the Exposition. They said that for the religious conference such men should come as Amos A. Phelps, of the Congregational Church; Edward Everett Hale, Minot J. Savage, Robert Collier, or Samuel Eliot, of the Unitarian Church; William R. Inge, of the Episcopal Church; Archbishop Ireland or Bishop Spalding, of the Roman Catholic Church; Henry Van Dyke or C. C. Cutbert Hall, of the Methodist Church; Emil G. Hirsch or Leon Harris, of the Jewish Church, and Felix Adler, of the Ethical Culture Society.

For the institutes of civics and corrections as Robert W. De Forest, Jane Addams, Florence Kelly, Edgar Gardner Murphy, S. J. Barrows, Homer Folke, Judge Lindsey and Professor Henderson. A number of distinguished educators are also wanted, among them President Elliott, of Harvard; President Butler, of Columbia; President Schurman, of Cornell; President Jordan, of Leland Stanford; President Wheeler, of the University of California; Booker T. Washington, of Tuskegee; John McMillen, of the University of Wisconsin; Herbert Putnam and Dr. Billings.

As soon as the necessary legal opinion is rendered by Attorney General Crawford the State Commission will act. There is a general belief among the Commissioners that to make the appropriation lies within the province of the Commission and the attitude of all the members is one of friendliness together with the firm belief that the money could not be set apart to better use.

VOTING CONTESTS STARTED.

Oakland and Baker City Newspapers Offer Free Trips to Fair.

Indicating the popularity of the Lewis and Clark Exposition are the voting contests which have been started by two newspapers and which a number of others are planning to begin. The Oakland Enterprise offers a free trip to the Exposition to those guests nearest the total attendance at the Lewis and Clark Exposition on the opening day. Each copy of the California paper contains a coupon upon which one guest may be submitted. The number of people who actually pass through the gates on the opening day of the fair will decide the contest. The Baker City Herald has announced that it will send the most popular young lady in each district of the county to the Exposition. Each copy of this paper contains a voting coupon and the winners are allowed for regular subscriptions. The Herald communicated with headquarters yesterday, stating that the winners of the contest will be sent here for a two-weeks stay, with every item of expense paid, including fare to and from the city.

WILL FURNISH INFORMATION.

Evangelical Association to Have Bureau at Lewis and Clark Fair.

The Evangelical Association of Oregon will have headquarters at the Lewis and Clark Fair, where an information and correspondence bureau will be maintained. A meeting of ministers of this denomination was held yesterday at the home of Rev. G. W. Plummer, pastor of the First Church, Bell Sixth and Market streets, when it was decided to start preparations for this bureau. Theodore Showers, Rev. P. J. Green, Rev. N. Shupp, Rev. H. O. Henderson and Rev. G. W. Plummer were appointed the general committee,

which will have full charge of the bureau. A correspondence bureau will be established at once, and will be in charge of N. Shupp, P. J. Green and G. W. Plummer. Its functions will be to furnish information to members of the Evangelical Association at home and abroad concerning the scope and purpose of the fair, so that they will know what to do when they come to Portland. This bureau will undertake extensive correspondence in the East, where the Evangelical Association Church is quite strong.

The bureau of information will be for the purpose of directing members of the denomination when they arrive in Portland where they can get rooms and board for reasonable rates, and also to give such other information as may be called for. Rev. G. W. Plummer and Rev. N. Shupp were appointed to interview the managers of the Exposition relative to headquarters.

INDIAN EXHIBIT PLANNED.

Chemawa Schools Ask Government Board for Space.

A complete showing of the industrial conditions surrounding the Indian students of the Oregon Indian schools will probably figure in the Government's exhibits at the Exposition. Edwin L. Baker, in charge of the Chemawa Indian School, called at Exposition headquarters yesterday, and filled out an application blank to the Government Exposition Board asking for a space in one of the Government buildings for the purpose of making a complete exhibit of the Indians' work.

OSKAR HUBER GOES TO ST. LOUIS

Director of Works Will Observe Destruction of Exposition Buildings.

Oskar Huber, director of works, has left for St. Louis to observe the wrecking of the St. Louis Exposition buildings at the conclusion of the big fair in order that he may be able to apply similar methods to the wrecking of the Lewis and Clark buildings when the fair has been concluded here.

Will Advise the Fair.

The Studebaker Company, with branch offices in every portion of the United States, has offered its services in advertising the Exposition. The company has already stamped the official emblem of the Exposition on all its envelopes and stationery, together with the announcement "We'll be there," and now offers to do anything else to aid in advertising the fair.

SIGNS STAIR AND HAVLIN SHOWS

George L. Baker Secures Five-Year Contract for These Attractions.

It is announced that George Baker has secured the Stair and Havlin theatrical attractions, which for many years have been presented in Portland by Manager John F. Corday. It was learned yesterday that Mr. Baker, a graduate of the Eugene High School, had received a message from his chief announcing the fact. It is understood that the contract for the Stair and Havlin attractions extends over a period of five years, and that the first of the shows to be given in Portland under Mr. Baker's direction will occur when "Darkest Russia" appears at the Empire Theater.

John F. Corday now owns a controlling interest in the Empire Theater, but he announced last evening that he was making no effort to hold the Stair and Havlin attractions.

When Mr. Russell and I said out," said Mr. Corday, "we did so because we got an excellent price for our theater. We had the Stair and Havlin attractions then, and if we had wanted to stay in the show business, nothing could have prevented us. The fact is that the town is vaudeville crazy. It is an axiom of the show business that the people want to be given to them. We got a good offer for our theater and sold out, and I am perfectly willing to let some one else have the Stair and Havlin attractions. I found that the Empire stock was for sale and bought it at a bargain. That deal has nothing to do with my proposed new theater. It will take me perhaps a year to build, but it will be ready when the vaudeville craze has died out."

MILITIA OFFICER RESIGNS.

Lieutenant Gantenbein Leaves City, and Another Officer is Promoted.

The resignation of Lieutenant J. E. Gantenbein, battalion quartermaster, Third Infantry, Oregon National Guard, was presented at the headquarters meeting last night and accepted. Following his resignation, Carl Ritter, regimental quartermaster, was promoted to the grade of second lieutenant and appointed battalion quartermaster.

Lieutenant Ritter's resignation was the result of his expected departure from the city, and caused much regret in militia circles.

Lieutenant Ritter's resignation has been accepted by the Oregon National Guard for many years and has served most of his enlistments in the quartermaster's department. He acted as regimental quartermaster throughout the war, and his resignation was a loss to the militia with an abundance of experience.

JUDGE ON LOVER'S SIDE.

Irate Father Fails to Fulfill Threat, and the McGanns Are Released.

If A. M. Downing went to Vancouver yesterday to cause the arrest of the witnesses in the McGann case, he failed. Judge McGann, he found there was little purpose in it, and let it drop. There was no complaint filed in Vancouver yesterday against either G. B. Hays or Dr. C. S. Irwin, the witnesses.

Hays, who accompanied the pair from Portland, was the only one to sign the affidavit signifying that they were of legal age. Dr. Irwin having been called by Justice Sparks just to give a legal aspect to the marriage documents. Justice Sparks acted on the license, which was made out in the legal form.

Gives \$200,000 to Cathedral.

NEW YORK, Nov. 22.—Announcement was made today that a man whose name is withheld has given \$200,000 toward the completion of the Cathedral of St. John the Divine, with the proviso that the others shall contribute the same amount. Another gift of \$100,000 has already been received.

SHIFT IN TEAM

Claude Gray May Go Behind U. of O. Line.

JOE TEMPLETON ON LEFT END

Back Field on Defensive Will Then Be Made Up of Kerron, Gray and Frank Templeton, Who Will Trade Place With Brother.

UNIVERSITY OF OREGON, Eugene, Nov. 22.—(Special).—

Now that the college football season is ended, and the Oregon team has been defeated by the Multnomah rivals in the Northwest, the football enthusiasts about the campus, as well as the Eugene supporters, are discussing the probable outcome of the meet with the Multnomah team. The Thanksgiving game this year, according to the gossip of local sports, will afford an opportunity to contrast genuine college and club football, for the shifter points of the game have been taught in the university this year by the most competent coach the Eugene students have ever engaged.

Smith has accomplished wonders with the "varity" squad this season, and the collegians give him the credit of landing the college championship for the State University. With four old men as a nucleus, and with a squad of 20 men, who entered college as the poorest material that ever registered in the freshman class, he began working late in September. Realizing that weight must be secured for speed and power, Smith immediately forced his men into hard training, and as a consequence he has perfected the greatest team that has ever represented the University of Oregon. The line men got the "jump" on the ball, and the collegians give him the credit of landing the college championship for the State University. With four old men as a nucleus, and with a squad of 20 men, who entered college as the poorest material that ever registered in the freshman class, he began working late in September. The line men got the "jump" on the ball, and the collegians give him the credit of landing the college championship for the State University. With four old men as a nucleus, and with a squad of 20 men, who entered college as the poorest material that ever registered in the freshman class, he began working late in September. Realizing that weight must be secured for speed and power, Smith immediately forced his men into hard training, and as a consequence he has perfected the greatest team that has ever represented the University of Oregon. The line men got the "jump" on the ball, and the collegians give him the credit of landing the college championship for the State University.
