CUBANS DENY IT

Ask for Proof Yellow Fever Exists.

A CHALLENGE TO AMERICA

Health Officers Ask Hospital Service to Find a Case.

PALMA CALLS IN AN EXPERT

President Will Learn Sanitary Conditions in Cities_Minister Squiers Will Also Confer With Him Today.

WAVANA Nov. M .- "We challenge the United States Marine Hospital Service to point out, as alleged, that several cases of yellow fever have appeared in various parts of Cubs." was the response of Dr. Carlos Finlay, chief of the Department of Health and Sanitation, when shown a dispatch from Washington today, assigning that as a reason of the instructions of the United States to Minister Squiers to call attention of the Cuban government to the uneanitary conditions at Santiago and elsewhere in the island, and his prompt and thorough remedy of these conditions.

Dr. Finlay, who has a high reputation as a yellow fever expert, asserted that there was not a single case of that disease in Cuba. It was not an impossibility, he added, that half a dozen marine hospital inspectors should have discovered cases which thoroughly organized health departments of Cuba have failed to diswhich thoroughly organized health departments of Cuba have failed to discover, and more than improbable that
they should know of such cases and yet
fail to call them attention of the Cuban
flepartment to them. Dr. Finlay referated
that the only case originating in Cuba
within the last three years was that of
the American, Scott Fuller, at Punta
Desal, which was extremely light and of
questionable authenticity.

Suspicion attached also to Fuller's attendant, but the disease had not developed. Health officers at all Cuban ports
treat all fever symptoms in arrivals from
Caribbean and South American ports as
suspicious, and also all others that are in
the least questionable. These are invariably detained and isolated until they dis
or are cured.

Dr. Delgado, who is in the United States Dr. Deigado, who is in the United States Marine Hospital Service at Havana, disclaimed any knowledge of yellow fever cases this year, except in six cases who arrived from Mexico and who were immediately isolated. Of these two died and the others recovered.

Cuban officials unreservedly admit and condemn the bad sanitary conditions in some of the eastern cities. Dr. Guiteras, the yellow force expert has been aum-

the yellow fever expert, has been summoned to inform President Palma tomorrow of existing conditions. Minister Squiens has received no directions from Washers has received no directions from washington, but will take up the matter informally at an audience with President Palma which has been arranged for tomorrow. It is now generally held that President Palma should undertake sanita-

TUMULT IN AUSTRIAN HOUSE Socialist Attacks Premier's Policy

Regarding Innsbruck School. VIENNA, Nov. 36.—Disturbances marked the session of the Lower House of the Reichstag today, and this evening the President abruptly closed the sitting amid great excitement. The uproar commenced when a Socialist member, replying to the President's stricture on the language used in the last few days, said the Social Democrats never attacked the wearer of the
