Supplies are larger than they have ever been and still lower grades are almost 2 cents higher than they were last year at this time. Stocks of all kinds exceed the supply of a year ago by almost 1,000,000 bales.

No. 7 Rio continues to fluctuate between 8% and 8% cents, as it has for the last three or four months. The hig interests in the coffee market seem to have a firm hold on all of this sort of coffee and evidently must have great faith in the market, as it is said they are continually adding to their holdings. The ordinary coffee dealer and roaster would like to see a break in the market, but a careful canvas of opinions of brokers and important of New York and San Francisco indicate that they believe in the market and instead of a break anticipate an advance.

Some sorts of high-grade coffee are soft, and there have been some slight decilines in them particularly among Central American varieties. Java coffees are a little firmer, and Siberian Javas are particularly strong. Mochamas considerable of an advance about two months ago and this has been maintained.

INTEREST WELL MAINTAINED IN STOCK MARKET.

Greater Part of Advances Are Among Obscure Stocks-Decline In Steel Preferred.

NEW TORK, Nov. 29. - Speculative interest was well maintained in today's stock market, and another large day's business was trans-acted. There were points of aggressive strength in the market, and these included some of the influential railroad stocks. But the greater part of the advances of the day were among stocks of less credit and sharp reactions were suffered by recent influential leaders of the advance. This was notably true of the great Southern frunk line stocks and Colorado Fuel. which made such brilliant advances yester

Southern frunk line stocks and Colorado Fuel, which made such brilliant advances yesterday, and also on United States Steel preferred. The heaviness of this stock is always an important sympathetic influence on the whole market, and it was officed by the strength of the common stock today. The latter stock did show good resistance, however, in the reactionary periods of the market. At one time during the day the reaction was fairly comprehensive and prices were well below yesterday's close level. For the most part, the movement was constantly irregular, sharp advances and dull sagging movement occurring at the same time.

The putting out of short lines on the general reaction seemed to afford a basis for the laier raily, which also became fairly general. The rise in some of the obscure stocks was sensutional and the lack of explanation for them in any news developments arouned suspicion of a manipulative origin. Taken in connection with the unusual number of lesses recently among outside stock dealers and bucket shops, presumably due to commitment on the short side of a rising market, the presumption is suggested that a campaign against the known position of bucket shops an certain stocks is the ground for the manipulated advances in these stocks. The late strong rise in United States Steel followed the publication of a rumor that the corporation had secured an option on the Lackswanna Steel Company. Canadian Pacific was hurt by its decrease in October net earnings.

Sterling exchange was forced as low as 2 per cent late in the day under free offerings, but closed higher.

PROBABLY KEPT DEATH PACT Cincinnati Jury Finds Raliroad Man Ended His Own Life.

CINCINNATI, Nov. 28.—Coroner Weaver today rendered a verdict in the case of C. A. Parker, vice-president of the Cincinnati, Hamilton & Dayton and Pere Marquette rallroads, who died suddenly in his office November 19, finding that death was caused by suicide with prussic acid.

death was caused by suicide with prussic acid.

Mr. Parker's death at the time was supposed to have been from natural causes and no autopsy was held neither was the Coroner disposed to hold an inquest, and the body was forwarded to St. Louis for burial. On the day of Mr. Parker's burial, however, and almost at the hour of his funeral, Miss Eisie Gesterling died by her own hand in Chicago. It developed that she had been his stenographer in Denver, and that there was a story of improper relations between them. The husband of Miss Gesterling's mother said after his stepdaughter's death that he believed that Parker and Miss Gesterling had agreed to die together. It was shown that just previous to Parker's death he had visited Miss Gesterling in Chicago.

Mormons Will Not Assist. SALT LAKE CITY. Nov. 28—At the office of the first presidency of the Mormon Church today it was stated the church had no "bureau of immigration," and that no assistance would or could be given in the proposed movement against the Murray laborers.
