RIVERS AND HARBORS SAFE

Senate Will Probably Adjourn Monday Out of Respect to Hanna and "Hoar, and President's Message Will Go in Tuesday.

WASHINGTON, D. C., Dec. 2 .- On the stroke of 12, Monday, the second session of the 58th Congress will be called to order by President Pro Tem Frye in the Senate, and by Speaker Cannon in the When the gavels of the presiding officers summon the Senators and Representatives to duty nearly every member will be in his seat, but only routine bustness will be transacted.

The President's message generally is received and read the first day, but the Senate is punctilious in certain matters and is almost sure to adjourn as a tribute of respect to the late Senator Hoar, of Massachusetts, and the late Senator Quay, of Pennsylvania. The message, therefore, probably will not be read until Tuesday.

There is Plenty to Do. After the opening day, when the mes sage of the President is read, the regular business of the session will begin and the legislative wheels will grind steadily until March 4, 196. There is plenty to do. The calendars of both Houses are loaded with bills of all kinds; hundreds of new bills will be introduced and committees are ready to report enough to keep Con gress busy for 12 months, but in the three months Congress probably will do little more than pass the regular annual appropriation bills.

There has been some talk of a possible extra session. The only reason why such a session should be called is because there is a demand in certain quarters for a re-vision of the tariff, but many of the incoming Congressmen during the past two weeks have made it plain they do not want tariff revision and further that they

do not want an extra session.

There is one feature of the tariff revision talk that has some substance. More revenue must be had, or there must be a curtailment of expenditures. With the increasing annual appropriations, a river and harbor bill, increase of the Navy, the Panama Canal and other features of extraordinary disbursement, there will be need of more money than present customs and internal revenues provide. An intima-tion has been made that curtailment will satisfy many Congressional leaders, but the majority may determine otherwise, in which event some revenue legislation may which event some revenue legislation may babilities, according to the leaders who are here, are that there will be neither tariff legislation nor an extra session.

Coupled with tariff legislation discussion is the subject of reciprocity. A number of proposed reciprocity. A number of proposed reciprocity treaties have been and still are reposing in the pigeon holes of the Senate. During the coming three mouths there may be some talk about these treaties, but the senate will be devoted to months there may be some talk about these treaties, but the indications are they will not be seriously considered. So strong has been the opposition to them that it has never been considered worth while to report them from the committee on foreign relations to which they were

Bills for Philippines.

The unfinished business in the Senate is a bill passed by the House providing for the construction of railroads in the Philippine Islands by a guarantee of 5 per cent income upon the money invested in such roads. The bill also provides for issuing Philippine bonds for other internal improvements in the islands, and in sev-eral other particulars amends the Philippine laws passed by Congress. The bill met with a great deal of opposition during the last Congress, but Senator Lodge, who has it in charge, says that he will press it from the beginning of the session, and hopes to secure its passage. Another bill for the Philippines, which

has been urged by Secretary Taft and the President, as well as nearly every one interested in the Philippines, provides for a material reduction of the duty on sugar and tobacco as well as other Philippine products. In fact, free entry of these products has been recommended. The sugar and tobacco interests were strong enough in the past to defeat any substan-tial reduction, and the law provides for a duty of 75 per cent of the Dingley rates. A demand for a reduction to 25 per cent has been quite frequently presented to

Chinese Exclusion. Some doubt exists among the members both houses as to whether additional Chinese exclusion legislation is necessary, It has been held that the law would expire this month, as it was founded upon a treaty which also expires. A new treaty is being negotiated, and an exclusion law to meet its terms may be necessary. The people of the Pacific Coast have been inelsting upon more rigid exclusion than that known as the Platt law, and if the question is brought up there will be quite

Currency legislation will be talked about, but it probably will not be enacted. A number of bills are pending before committees, but no one has shown any particular desire to have them passed. Reduced representation in Southern States which have by one form or another disfranchised negroes, will be a theme of discussion, but not action, during the Winter. It is well understood that to bring about anything like a reduced representation would require much more time than a three months' session of congress which expires by limitation. The trusts will receive attention, at least in debate, although some doubt is least in debate, although some doubt is expressed about any effective legislation being passed. A bill which has agitated Congress for a number of years providing for eight hours work only on all Government con-tracts, no doubt will be reported from the Senate committee on labor, which has given much time to hearings. A bill of similar character was lost in the last Congress by being crowded out by other business. The same fate may await this measure should it be reported from the

Senator Heyburn, of Idaho, has given notice that he will call up the pure food bill during the first week of the session and the friends of the measure hope to have it passed. But there is strong op-position, which will take advantage of position, which will take advantage of the Senate rules to attempt to defeat the measure by delay.

Senator Fairbanks, who has only three months to serve as a Senator before he becomes Vice-President, and who as chairman of the committee on public buildings and grounds has endeavored to secure a bill providing a building for the Departments of State Justice and Com-merce and Labor, will try to bring about favorable action on the bill in the 90 days he is to remain a National legislator There are other public building bill pending, but it is not expected any gen-

Irrigation.

Irrigation has become a permanent legislative topic. Several measures intended as amendments to the irrigation law have been suggested and are before Congress. If the Western men were united they no doubt could secure some legisla-tion, but being divided, it is quite likely

that nothing will be done.

Two years ago in the long session of Congress a river and harbor appropriation bill was passed, but it was omitted in the session which ended last April. It is the intention to pass a bill at this session and the men having it in charge, remembering that four years ago Senator Carter, of Montans, talked a river and harbor bill to death, will make every ef-fort to have it presented early and gotten out of the way of another such con-

MAY TRAP GENERAL

St. Petersburg Fears Rennenkampff Will Suffer.

HOTLY PURSUING JAPANESE

Many Passes Have Been Captured-Enemy Falls to Show Its Old-Time Form, Owing Probably to the Cold Weather.

ST. PETERSBURG, Dec. 3, 3 A. M.— The situation of the armies below Mukden is again attracting attention, but the movements in progress are very puzzling. The War Office is inclined to reticence. Reports the last few days indicate that General Rennenkampff is hotly following up the Japanese retreat, meeting with comparatively little resistance; but some fear is expressed that he may be running into a Japanese trap formed with the hope of cutting off his command. It is believed he cannot possibly hold a posi-tion as far south as the Taitz River. General Romenkampff has hotly pur-sued a Japanese detachment below Sint-sintin as far as the Taitz River and on the right Russian scouts have explored the Hun River below Liso Yang. All the passes fell into Rennenkampff's hands. The Japanese apparently falled to show their old-time form, and official as well as unofficial dispatches indicate that the edge unofficial dispatches indicate that the edge has been taken off the Japanese fighting capabilities by the cold weather. The same reports say the Japanese threw away their rifles, many of which were captured. Other reports say Japanese of-ficers shot five soldiers who refused to face the foe.

There was a heavy bombardment today along the Russian center and right, which might indicate that General Kuropatkin is preparing to assume the offensive

It is the general opinion in military cir-cles that the present situation cannot connue much longer, but it is argued that a frontal attack against fortified positions along the Shakhe River is bound to be disastrous to whichever side attempts it. Any serious advance, to be successful, it is believed at the War Office must be accomplished by a wide strategic turning movement, as the armies are too close for

tactical flanking operations.

Among some of the best-informed officers a suspicion exists that Field Marshal Oyama is trying to work Kuroki around east of Sintsintin, with a view to striking the Russians above Tie Pass, with the object of again trying a decisive coup, but no positive evidence of such a move has

Boat Bought in Britain Taken Away

to Show Japan Could Do Likewise. LONDON, Dec. 3.-Yarrow & Co., ship builders, in a letter to the Times, explain that, owing to the great success of the high-speed yacht Tarantula, now owned by W. K. Vanderbilt, Jr., they partly com-pleted two similar boats which might be fitted finally as either torpedo-boats or yachts. They declined many tempting offers to sell them as torpedo-boats, because it was suspected they would be trans-ferred to a belligerent. At the government's request. In August they stopped negotiations for the sale of one of the vessels to a Paris firm, but sold the Caro-line as a yacht on September 23 to Mr. Sinnest believing that his purchase was a bona fide one. As a precaution, however, the government was advised on September 24 and the sale was completed on October 3, the government not having interfered or commented on the sale, and the Caroline salled on October 5, without any armasailed on October 6 without any arma-ment, ostensibly for Hamburg, and to be towed thence to New York.

The negotiations for the purchase of the caroline are said to have been conducted by Burke Roche, an ex-member of the British Parliament, and well known in the United States, who represented that he was acting for a resident of New York, who wished to race her against the Tarantula. In order that the identity of the boat might not be evident, he stipu-lated that the hull should be disguised as much as possible until she could be land ed in New York. After leaving the ship yards the Caroline was coaled and manned with a crew secretly assembled, after which she was taken through the North Sea, passed through the Kiel Ca-nal under the direction of German pilots, and thence reached Libau, where she was delivered to the Russian naval authorities. It is asserted that Russia intended to base her defense of the Dogger Bank affair on

RUSSIANS HOPE TO ESCAPE.

Seamen at Shanghai Would Pilot the Ships Over Mine Fielde.

LONDON, Dec. 2.—According to the Shanghat correspondent of the Daily Telegraph, it is stated in that city that the officers and crew of the Russian torpedoboat Rostoropny hope to escape from Shanghal in time to reach one of the vessels of the Baltic squadron in order to pllot the fleet through the mine field in the harbor of Port Arthur. The general opinion prevails that if these Russian officers and men make good their escape, Japan will raise a protest of such force and vehemence that China will be placed in an extremely awkward position. In view of recent complaints of the Japanese that China is extending such extraordinary privileges in Chefoo that they can no longer consider that place as neutral ground, it is hoped that the Chinese will do their best to avoid complications of a
