BRAKE ON DIVORCE

Governor-Elect Mead Will Recommend Legislation.

SIX MONTHS FOR A DECREE

Time Used in Trial and Appeal of a Criminal in Washington, He Believes, Should Be Cut Down One-Half.

BELLINGHAM, Wash., Dec. 6 .- (Special.)-The divorce evil and the prevention of unnecessary delays in the prosecution of prisoners will be two of the important things dealt with in Governor-elect Mead's first message to the Legislature of the State of Washington,

Mead believes that more strict laws should be passed regulating the securing of divorces. His friends say that he will commend a law providing that persons siring a divorce shall be required to lle proceedings with the court six thouths before the decree may be granted. This law would make the act of a divorced person marrying a third person within six months bigamy, which is punishable anywhere in the United States.

As a supplement to the divorce endations it is believed that Mead will advocate that a law be passed making it a felony for a husband to desert his wife and family. The Governor-elect believes that the present regulations of divorce and desertion are entirely too liberal. That a emium is placed on hasty marriages by dea that if the union is not a happy one that it may be dissolved by the

Friends who are close to the Governorelect may that he believes that the time is ripe for a revision of the statutes which cause long and tedious delays after a eriminal is arrested until his trial or ap-peal is taken up by the courts. It is believed that he will advocate that the time consumed in the trial of a criminal and a hearing in the Court of Appeals be lesed by one-half.

It is asserted that Mead believes that much of the delay is caused by the courts allowing time to be consumed by stipu-lations and trivial motions. Also that believes that court stenographers should be paid by the county in every instance. This, it is said, would result in the handing in of the transcript of a case or the findings of fact without de-

Anderson, a prominent physician of Rosalia, agreed with Mrs. Etta Wilkins, a grass widow, to take her son, Ray. 12 years old, with the understanding that the boy was to remain with Dr. and Mrs. Anderson so long as he was satisfied with their home Recently Mrs. Wilkins married L. H. Stewart, of Farmington, and some time after her marriage demanded the return to her of her son. The boy asked to be permitted to remain with Dr. and Mrs. Anderson, who had become greatly at-tached to him, and they refused to give him up.

A few days ago Mr. and Mrs. Stewart secured a livery rig in Oakesdale, and, accompanied by J. T. Scott, as driver, went to Rosalia. They had a closed carriage, and drove to a point between the Anderson home and the schoolhouse, where they awaited the arrival of the boy on his way home from school. When he was seen Stewart is alleged to have leaped from the buggy and seized him. The boy screamed and fought, but was carried to the carriage and driven rapidly away.

An alarm was sounded, and the little town became greatly excited. A posse was hastily summoned, and, headed by the precinct Constable, started in pur-suit. A chase of seven miles ensued before the fleeing carriage was overtaken and Stewart and the driver placed under
