BARBED WIRE WORST FOE.

Cossacks' Gallant Attack Comes to Naught at Foot of Trenches.

MUKDEN, Nov. 1.—(Correspondence of Associated Press.)—There was an unknown and unheralded fight when the Don Cossacks set out to confound the armchair strategists and prove that cavalry could take a modern battery of quick-firing guns supported by infantry. That they failed was due only to another development of modern warfare on which they had not counted, barbed-wire that hung up their charge under the very muzzles of the guns. But they failed gallantly, and the Associated Press correspondent heard of it only some time afterward from the officer who was sent Kuropatkin to congratulate the inded Colonel on the dash and discipline of his men.

The third regiment of Don Cossacks was sent forward October 17 to reconnoiter the villages of Pan Pausen and Trinziatun, which nobody ever heard of before, and whose location was of no real interest to anybody, except that they are ction of Liandiantun, where the fight took place.

The Japanese in the two villages first named were taken by surprise. In Tzin-ziatun, the Japanese had just settled down to dinner when the regiment swept in with a claffering of hoofs at one end of the village, and the enemy cleared out at the other. The Russians were flushed with success and comfortably feeding when a battery of eight quickfirers shelled the village from some trenches. The Colonel decided he would get the guns just to show that it could be done. The regiment charged in open order in the face of a heavy fire, converging on the battery, and it looked for a moment as though the Cossacks would be able to ride down the gunners, when at the of the trenches the horses were ought up by a series of cleverly cealed barbed-wire entanglements. It was here the Captain of the leading squadron was blown out of his saddle by a shrapnel, 19 men killed and 3 wounded The retreat was orderly. The Colonel was shot through both legs. The Dons took their repuise gamely, but the enlisted men seriously assert that barbedwire is not legitimate warfare.

ARE YOU SICK?

Headache? Foul tongue Loss of appetite? Lack of energy Pain in stomach? Bowels? General weakness?

These are but a few of the signs of indigestion. Some others are: Wind in the stomach or bowels; constipation or diarrhea; pale complexion; spots before the eyes; disziness; loss of flesh; irritability; sleep-

lessness; nervousness.
All these symptom will plague and torment you, and will never permanently leave you, once you suffer from them; only are sure, in time, to get worse, if not treated by the best known scientific method of cure-Stuart's Dyspepsia Tablets. These curative tablets are composed

of ingredients which modern knowledge of the true inward processes of digestion approve of, as forming the best, safest surest and most scientific com-bination of medicinal drugs, that can be used to relieve all the conditions of Ill health brought on by this much-dread ed disorder. disease so "protean" or changeable in its manifestations, assuming so

many forms, characterized by so many different symptoms that, more times than not, it is mistaken for some other disease altogether, and the poor patient may die, or at best allow the seeds of permanent, chronic sickness, to germinate and take root in his system. So it is a real danger we ask you avoid, when we say: In case of doubt, take Stuart's Dyspepsia Tablets. Even if disordered digestion the real cause of your sickness (which,

order, and if allowed to remain so will seriously complicate your sickness for Stuart's Dyspepsia Tablets, then, will be sure to do you good, and will not in-terfere with any other medicine you

gestion is nearly certain to be out of

probably, though, it is), 'yet

may be taking.

They will help to make your food make you strong, and thus, if in other way, help you back to health by helping your system to throw off disease like a healthy duck shakes wa-

ter off its back. Snake off your sickness with Stuart's Dyspepsia Tablets.
