MANY REASONS ARE GIVEN

Mill-Owners Contend That Business Should Now Be Placed on Paying Basis, and State Advance of \$1 Per Thousand Likely.

The price of lumber is almost sure to go up after the first of the year. It has been at the bottom notch for two months. and the anticipation of increased trade has about convinced the local millowners that it will soon be time to place the pro duction of lumber on a paying basis. They say now that \$7.50 a thousand for rough

There are all sorts of odd and conflict-ing reasons for the present inactivity of the lumber market and the poor prices asked. And the purpose to increase the price is bred in these.

Prices fell two months ago on account of overproduction. The foreign trade was not sufficient to keep the mills going full capacity, the freight rate into the Nebrasks and Iowa markets was and is pro-hibitive, and the local sale let down. The local sale is really only about one-tenth of the local production, but during the Summer it was sufficient to keep the yards clear. The Pall brought less building and the stock began to accumulate. The pards were soon overflowing, and are still in that state. For when the price of lumber went down the amount of building did not increase in proportion.

It is believed the people will begin to build in a herry as soon as they find the price of lumber stiffening. If lumber goes up to \$8.30 a thousand as it is very likely o as that was the price before the building activity will begin to start

There is a psychological condition be-kind this, and not only building contract-ors, but millowners also, realize this. There is, beside, the renewed activity of the new year. That makes the first of the year an appropriate time for the advance

affected a great deal by the change, for they are only about 20 per cent of the pro-duction. But the price of common rough lumber varies directly with the demand

and supply and the cost of logs.
Lumbermen believe also that the price of logs will be raised shortly. They are assured that their expert trade will in-crease, and they expect to clear out their yards of the rough lumber surplus. The supply, they say, will be less, and the

Francis, manager of the Portland W. 1. Francis, manager of the Portugua Retail Lumber Company, said yesterday when asked of the prospective rise in the price of lumber: "I have no assurance that the price will be raised, but I know will justify it. I would not be surprised if it were the decision of the retail lumber dealers to demand more for their product than now, some time in the near future I do not know how much of a rise it will be, but it was \$8.20 a thousand for rough

ber last Sommer and \$12 a year ago. The local trade is not frombling the lum-ber manufacturers here to a great extent, freight rate into Nebraska and Iowa, a field which they consider is their legitimate market. At present they cannot do anything there against the Southern man-icusturers. Otherwise they have an outtook for a year of prosperity.

CHARGES AGAINST MATRON. Attorney Vaughn Alleges She Mistreated Ruth Osborne.

Police Matron Simmons may be arrosted today, charged with assault and battery, and charges may be preferred examine her for alleged mistreatment of

She was intoxicated when she tried to jump into the river Monday night.

RENEFIT OCCURS TONIGHT.

Thalian Girls to Aid Boys' and Girls' Ald Society.

The benefit for the Boys' & Girls' Ald Society, which will be given at Arion Hall tonight by the Thalian Girls, a promfrient High School organization, promises to be one of the greatest successes in amsteur theatricals seen in Portland for some time. "Offerings to Folly" is the title of the pretty little comedy which has been prepared. In addition to the cast of the play specialties will be offered by Thomas on, the boy soprano, who has so often delighted Portland music-lovers with his rare voice, and by the clever Nordstrom brothers, whose singing and dancvaudeville houses.

The performance begins promptly at 8 o'clock and the Thalians hope that the public will liberally patronize so worthy a benefit as one for the Boys' & Girls' Aid Society. Two years ago the same organization performed the same service for the Children's Home, netting a substantial sum for that institution d and Oak, or Woodard, Clarke & Co.'s, at 25 cents each.
