At this point the steamer Fox, bearing the referee and the judge. Messrs, Stowell 1:41. and Luders, of the Portland Rowing Club and the steamer Mascot, with the special party aboard, steamed ahead to be in close at the finish. At this juncture was a question with all watching the race whether the Holt Hill or the Dumfries-shire would win. The Hampton was creeping up, and it was to be seen that the first three positions were to be taken by British boats. Finally the referee's pistol cracked, the officials pointed to the Chicago boat of the Dumfriesshire, and the race was declared won. Half a length behind was declared won. Bad for Attorneys.

The new rule of the Judges requiring es to be placed on the trial docket and set for trial is naturally opposed by attorneys who have been winning cases by the appeal process. If they are forced to go to trial in the upper court, it means additional work to earn their fees, and also that convictions of their clients may be the final outcome.

MAY DROP MULTNOMAH.

Washington Wants Oregon to Play Thanksgiving Day Game.

From Seattle comes the information, carelessly dropped, that Oregon has evinced a willingness to open up negotia-tions with the University of Washington for an annual Thanksgiving day football game. It came out as if it might have been a slip, sandwiched in between a lot of talk, about the anxiety of the Califor-nia universities to take the date. If was intimated that the Multinomah Club and the University of Oregon had been on bad terms for a long time, and that Oregon would gladly break off with Multhomah. There is nothing new in the situation Oregon has wanted to break with Multure mah for several years, but each season has had a hunch that it is going to have a streak of luck and win out in that game. It did not miss it so very far this year. Dick Smith had a hunch that they were stronger than any team which has come from Eugene for the Thanksgiving the second for the thanksgiving come from Eugene for the Juanassiving day game in several years. But even that team was licked, and now, if the Seattle story is to be accredited, it has its an-nual blue spell in which it believes that there is no use playing Multhomah again. Oregon and Multhomah are not on bad terms. They were never on better terms than at the present time. But Oregon feels that it has no chance with the heavy clubmen, and wishes, naturally, for a team of its own size for the best day of the year. In Washington, in splie of the bombastle talks from that institution since it met a "road" eleven from Berk-
