REACTION

IN THE FUTURE.

ent Cause of Selling-Specula-

tion in Union Pacific.

NEW YORK, Dec. 30 .- Today's reaction

tooks received various explanations, but die set materially impair the confidence with

which the outlook upon the new year is re-garded. The stiffening of the call loop rate during the day was the most immediate and apparent cause of the selling. The surprising fact is that the rise in call money was de-

was 5 per cent. Meantime the usual cell

rentes by bankers indicate that the inflow of currency by express has been sufficient to offset the Sub-Treasury absorption and leave a margin of gain of upward of \$1,000,000.

The changes to be shown in the loan item of temorrow's bank statement are likely, of coorse, to be large, owing to the annual est-

It is not probable that any deep anxiety ever the money market was reflected in the day's movement. The steady uplifting of prices has developed little inclination to sell

stocks up to today, and up to yesterday there had been little appearance of trading for a turn in the market. The profit-taking which met the movement today was the usual result of a

movement today was the usual result or a movement of a speculative ngiture. It served as an admenition that a too rapid rise in prices would have to recken with selling to realize. Amalgamated Copper displayed rather neutriny the reactionary effect of the

explained by news bearing on values in the

prices were not far from the lowest and the

closing was easy.

Bonds were tregular. Total sales, pa-value, \$6,620,000. United States bonds were

SAN FRANCISCO MARKETS. Grain Board Will Be Open Today for De-

comber Beliveries. SAN FRANCISCO, Dec. 30.-(Special.)-The local Grain Board will open tomorrow to enable final deliveries on December contracts for wheat and burley to be made, but will be closed on Monday. Despite continued rain in Northern and Central California, which tained sanier rices at the opening, speculality options for both essents closed stronger. Most of the December contracts have been covered and tomorrow's deliveries are expected to be light. Oats were quiet and firm, Stormy weather intercept with trade in the fruit market. Heliday business at this time has been a great disappointment to dealers. Receipts of counges were light the past few days, but stocks are ample for requirements. Only well-colored, sweat marchs show gendi-bess. Promoters of the nuction sales say that five carloads of oranges are already on the way for the initial offerings to be held next Wednesday. The apple market is quiet and steady. Bananas are playtiful.

Large dealers in potatoes and onloss agreeto close at noon formerow until Tuesday. He estate of potatore were larger and the market quieter, but prices were steady. The steamer Columbia arrived too late for trade to comsence in her potato cargo today. The enten market is congested and weak. Six carionda roun the North are in the railroad yard, be-ides two carleads from Colorado. Garden

Daily Treasury Statement, WASHINGTON, Dec. 30.-Today's statemen of the Treasury balances shows:

DROPS ON HEAVY SELLING.

Chicago Wheat Market Turns Weak at the

Close. CHICAGO, Dec. 30.—A stampeds of belated shorts resulted in an advance of over 1 cont. In the price of May wheat during the first bour of trading. Influenced by higher cabbes 1963. and exceedingly, small receipts in the Northwest, opening priors showed a fair gain, May being up %0%c, at \$1.14%01.14%. On an urgent demand from shorts and several promment commission houses, additional gains were made. An active demand from Northwestern onces, which seemed to indicate a bellof in a further reduction of receipts in the Northwest, gave renewed encouragement to local butta and the buying became more aggressive. May sold up to \$1.15%. For a time, the market continued extremely strong, with prices near the highest point. Later in the day, sentiment suddenly changed and a sharp reaction occurred. One conspicuous feature of late trading was heavy seiling by the leader of the bulls. The claim was made that 2,000,000 pushels were sold by this one operator. The seiling was quite general during the last hour. The market closed weak and practically at the lowest point, final quotations on May being at \$1.13\cdot \$1.13\cdot a loss of \$2\cdot \$c.
Early in the day the advance in wheat had a strengthening influence on the corn market. a strengthening influence on the corn market. May opened tippi higher at 6050160%c, and

closed at 45%c.
The volume of trading in cate was a slight improvement over that of recent days. May opened 150% higher at 31% 931%c, and closed at 3114031%c Provisions were subject to profit-taking, which had a weskening effect. May pork was off 21465c; lard was down 214c, and ribs were a shade lower. The leading futures ranged as follows:

YEAR A SATISFACTORY ONE

MAKES BETTER SHOWING THAN SEEMED POSSIBLE AT OUTSET.

Amount of Business on Books of Leading Industries Promises More Improvement in 1905.

NEW YORK, Dec. 30. Dun's weekly relew of trade tomorrow will say: Holiday week brought the customary quiet modifions in the business world, inventories Rollary week brought the customary quiet conditions in the business world, inventories and preparations for annual settlements monopolizing attention, except in some branches of maintfacture, where deliveries were required. Severe storms also interrupted communication and transportation, particularly at the West, but on the whole the elements were helpful, for the departs. selpful, for the drouth was broken in the

helpful, for the drouth was broken in the Pfittsburg region.
Annual reviews indicate that the year has made a risich better showing than seemed possible at the outset, the second half comparing very favyrably with the first six musths, and the amount of business on the books in the leading industries promises still further improvement in 1905. Traffic returns of December indicate that gross earnings of the railways were 7.2 per cent larger than in the previous year, and foreign commerce for the last week at this pert shows an increase of

Buoyant sentiment prevails in the iron and Buoyant sentiment prevails in the iron and anset industry.

Supplies of native hides are accumulating, owing to the liberal movement of cattle, and the tone is easy, but small stocks of branded hides maintain that department.

Woolen goods are advancing because of the upward tendency of raw wool, and purchasers are more willing to place contracts at prevailing rates.

Failures this week number 232 in the United States, against 222 last year, and 11 in Canada, compared with 17 a year ago.

ENDS BETTER THAN IT BEGAN. Trade Reports Are Generally Favorable

Wholesale Trade Light.

NEW YORK, Dec. 30.-Bradstreet's tomor NEW YORK, Dec. 30.—Bradstreet a tomor-row will say;
Distributive trade generally is marking time, while past results and future prospects are subjects of consideration. A period of marked activity in holiday goods of higher than usual quality has brought to a close a year which, because of marked improvement in the last quarter, has ended better than it began and certainly in far better shape than seemed possible at the turn of the year. Winclessle trade is naturally of the lightest at this season of stock taking and inventory, and atormy weather and the flurry in raw cotten have been additional chilling influences. Rather less than the usual annual clearing sales have occurred because of the noishle absence of stocks of unished goods pressing for sale. Collections show some effect from the recent heavy of culation of money in retail

scason of the year, especially in fron and steel and kindred lines of manufacture. Rallway returns are fascerable in that in-creased earnings are quite general, and the only drawback is the wide reports of oar

the breaking up of the Winter-wheat drouth. Prices of metals have hardened this week, copper advancing to the highest point yet reached. Wool is strong and stocks in dealers' hands are the lightest in years.

Business failures in the United States for the week ending December 29 number 218, against 249 last week and 200 last year. In

Canada failures for the week number 20, against 37 last week and 18 last year.

Wheat, including flour, expects for the week ending December 29, aggregate 981,140 bushess, against 1,080,708 hat week, 2,915,380 has year and 4,818,471 in 1902. From July 1 to date the exports aggregate 34,748,327 bushels, against \$6,150,786 last year.

Bank Clearings. NEW YORK, Dec. 30.—The following table, compiled by Bradstreet, shows the bank clearings at the principal cities for the week ended mber 29, with the percentage of increase

and decrease as compared with the ing week last year: New York \$1,265,162,000 22.1 Chicago 155,673,000 16.3 Boston 103,571,000 6.7 Philadelphia 112,800,000 16.8 St. Louis Pitteburg San Francisco 3.0 25,1 12.2 8.6 14.4 29.8 27.1 11.8 37.1 17.9 Los Angeles

WORK FOR POSTAL STATION. Residents of East Side Intend to Have Full Service.

A committee of East Side residents and A committee of Fast Sace residents and business men, composed of Joseph Buch-tel, Dr. R. A. Wilson, E. M. Branick, Ed-ward Newbegit, Mr. McFall and H. H. Newhall broached the matter of the res-toration of Postal Station A, in full, to Senator John H. Mitchell and Congress-man Binger Hermann tast night and re-ceived assurances that they would do all in their power to reopen the station with increased facilities.

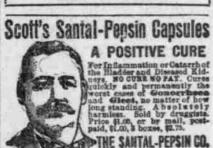

Mr. Mitchell explained that the station was discontinued on the recommendation of Inspector Flint, of San Francisco, who made two reports on the subject to the department at Washington. Mr. Hermann said that in other cities large postal sta-tions were maintained, spart from the general postoffice, and he saw no reason why East Portland should not have mail facilities equally as good.

The committee decided to invite Postmaster John Minto to a conference with business men of the East Side and ask for his co-operation in securing the restora-tion of the station in the near future. All the papers and petitions will be made ready for filing with the Postoffice Department at Washington in a few days
