E. A. Magoon Writes Employers That Police Chief Had Been Paid \$300, but Machines Could Not Be Run.

Magoon wrote a letter to his company in the East in which this statement is made. Chief Hunt denounces the asser-tion in most positive terms as false. tion in most positive terms as faise.

The grand jury was engaged in investigating this question yesterday. The story told around town, in connection with the affair, is that, on October 14,

1904, E. O. Magoon wrote a letter to his principals in the East in response to one he had received from them, informing them he had been grafted by Chief Hunt to the extent of \$300, but still was unable run the machines for money prizes. Magoon explained, further, that gambling was all closed in Portland, due to the action of the Sheriff.

Firm Takes Matter Up.

The firm in the East, in an effort to collect money due from agents in this part of the country, sent on a lot of correspondence received from these agents to Murdoch & Moser, local attorneys. This letter, speaking of the pay-ment of the \$300 to Chief Hunt, was among the number. Miller Murdoch, of the law firm in question, was a witness before the grand jury yesterday afternoon and, as he has shown this letter to several persons, he, no doubt, submitted it to the members of the grand jury for

Inquire Into Police Affairs.

The investigation of Chief Hunt and his manner of conducting police department affairs took up considerable of the time of the grand jury session. Police officers, called as witnesses, were L. Hirsch, C. E. Foster, H. F. Gibson, J. A. Lee and Officer Goltz.

Other witnesses who appeared before Other witnesses who appeared before the jury were: John Bain, Robert Living-stone and D. A. Pattulo, members of the Municipal Reform League, W. M. Kill-ingsworth and Councilmen Flegel, Sigler and Whiting. It is reported that police regulations generally are still a subject of inguiry by the grand jury. The reason certain saloons persistently break the l-o'dock closing ordinance and other things are being looked into particularly.

Chief's Denial Emphatic. When Chief Hunt learned that a story was in circulation to the effect that the grand jury had been shown a letter, alleging he accepted money for his prom-ise to let slot-machines run, he made

an emphatic denial. "A great many things have been said from time to time that I have given no seed because of the irresponsible sources from which they sprang," said the Chief,
"This has been particularly true in the past few weeks, during which time absolute falsehoods have been published by persons who knew them to be false. But when a matter such as this comes up, and direct charges of grafting are made against me, I will not permit them to go

Do Not Like to Walt.

The attorneys of Portland have filed a petition in the State Circuit Court asking that the argument of motions, where, only a brief time will be taken up, be given preference over motions where the arguments consume an hour or two. The object is to prevent attorneys from having to wait around the courtroom until long arguments have been completed before they can present short motions, as sometimes occurs. Judge George, who is the presiding judge, will, no doubt, arrange to make the desired change.

HISLOP PAYS \$250 A LOT. Compromise Reached in Union Ave nue Fill Assessment.

The old question of the Union-avenue fill was the principal bone of contention at the street committee meeting yesterday afternoon in the City Hall. Messrs Zim-merman, Merrill and Bentley were absent. A report was received from Viewers Sharkey and Sherrett relating to the Union-avenue controversy. This was augmented by an affixed report of Engineer Greenleaf, who delved into the intricacies of trigonometry and demonstrated that the contractor's claim of removing 1258 yards of earth was erroneous, in so as a matter of fact, the excavation was

lots 1 and 2 \$548.72. Mr. Hislop was present at the meeting, representing his own and others' interests and stated that he was willing to pay an assessment of \$100 the lot, in other words he would pay for the improvement at the rate of 50 cents on the dollar, offering the city as an alternative a law suit. He finally comprimised by paying \$250 a lot. Mr. Hislop makes \$674 by the transaction. He did not seem to like the committee's ac tion and in addition to that figured in a verbal tussie with R. R. FOR BETTER PUBLIC SERVICE New York Man Gives Interesting Address on Subject.

"Volunteer service for the public good," was the central thought of an interesting address delivered last night in the Temple Beth Israel, by Alexander Johnston, gen eral secretary of the National Conference of Charities and Correction, of New York. The lecture was all the more interesting because Mr. Johnston is the advance guard of those workers for civic and National reform who will hold their annual meeting in this city next July.

"I am only a door-keeper in the house of the Lord. In our Conference of Chari-ties and Corrections, we have no priests but many prophets," began Mr. Johnston. "A historian, writing a century hence, of "A historian, writing a century hence, of our day and generation may wonder at the existence of graft in our cities, and how men are only appointed to a position so that a political debt may be paid. A 15-foot stage will put the water over some of the lower docks on the water-front, and in consequence of the warning there was lively hustling at many of the

Federal Grand Jurors Probably Adjourn Today.

HENEY GOES TO CALIFORNIA

In the Absence of the Assistant District Attorney, Consideration of Land-Fraud Cases Will Be Postponed.

It is possible, that the members of the Federal grand jury will be given a rest for a few days during the first of the coming week. F. J. Heney, who, as Deputy District Attorney, is conducting the examination of the witnesses before the jury, is compelled to go to San Francisco to argue an important case now on appeal in the Superior Court, and will have to be in San Francisco on January 3. When the jury convenes this morning the question of a recess will be discussed and in all probability the jurors will decide to take a brief respite from the work they have been doing for so long. In the event that they wish to continue their investigations, the consideration of the land fraud cases will be post-poned until Mr. Heney can return from California, and in the meantime several matters which District Attorney Hall has to bring before the body will be taken up and put out of the way. It is probable, therefore, that the jury will adjourn this afternoon until Friday, January 5, at which time Mr. Heney will return to Portland. Hermann Case May Be Up.

The examination of yesterday would lead to the belief that the case of Binger Hermann is directly before the jury. In the morning the first witness called was ex-Senator Charles Hilton, of Wheeler County, who was in the juryroom for some little time. No one outside of the Government and the jurors has any idea as to the nature of the testimony which was offered by Mr. Hilton, as he has not been connected with the case heretofore, so far s is known.

Following Mr. Hilton, District At-torney Hall was called into the room and remained there for a quarter of an hour. He was followed by W. J. Burns, the secret service man, who has been working on the cases for some time, and who is supposed to be in posses-sion of a great deal of information which will be damaging to the two

Congressmen. Chris Muller, who was a messenger during the administration of Mr. Her-mann, was the next witness called and he remained in conference with the ury for some time. He was followed by Elliott Hough, a clerk in the pub-ic lands division of the General Land Office, who was one of Mr. Hermann's private clerks during his administration. Mr. Hough was also in extended conference with the jury and when he was released S. A. D. Puter was the next witness and remained with the jury until the hour of adjournment.

Indictments May Be Delayed.

There are a great many witnesses of to be called by the Government, and it is not thought that the work of the Jury will be done inside of three weeks. If the adjournment for a week is taken, the time will stretch out longer than that. It is practically certain, at any rate, that no indictments will be returned, at least against Mr. Hermann and Senator Mitchell, until Mr. Heney returns from California. The Fir Cemetery.

WILL DELAY TAX ROLLS. New State Law Is Encountered by County Clerk.

County Clerk Fields, who expected to have the tax-roll in 1995 ready for the Sheriff to begin collections January 15 to 39, has encountered an obstacle to his plan in a state law which goes into operation next month. The law in question pro-vides that he shall submit to the Secretary of State on or before January 15 a statement of the county expenditures for each of the past five years.

On this statement, in connection with like statements from other counties, the state levy is fixed for each county, The law provides, in particular, that in order to ascertain the proportion of state tax to be paid by the soveral counties, the Governor, Secretary of State and State Treasurer shall ascertain from the reports of expenditures of the several counties the average amount of expenditure of each county during a period of five years past, and each county shall pay such proportion of said state taxes as its average amount of expenditure for said period bears to the total amount of expenditures in all of the

counties in the state.

The Secretary o State is to return the amount of the state levy for each county to the several County Clerks, but how soon after January 15 he will do so re-mains to be seen. The County Clerk cannot extend the tax-roll until this levy is received. It might be as late as February which would delay tax collections one month from the time previously calculated upon. The statute allows 3 per cent rebate on all taxes paid on or before March 15 in full. The sooner the roll is opened the better. If the tax-collection force has two months to work in prior to March tion. The lands are said to be well adapted 15, a less number of clerks will be required than if there is only one month's time before January 15, and clerk hire will be saved. Interest on outstanding war-rants will also be saved if tax moneys come in earlier, because many warrants can be called in sooner. Mr. Fields has written a letter to the Secretary of State in an effort to expedite the matter as

much as possible.

This year Multnomah County paid a lit-tle over H per cent of the state tax, or a total of \$382,567.50.

Judge Hogue was firm and Kornes walked from the courtroom a free man, but with the knowledge in his heart that he must stay away from the vicinity of Sixteenth street. Love may laugh a locksmiths, but not at Judge Hoguethat would be contempt.

A New Town Booming.

WALLULA, Wash., Dec. 30.-(Special.) A new town is arising at Two Rivers, Wash., several Portland capitalists being interested in the venture. It will blessom with irrigated land, and is being built by Spokane capitalists, the water being supplied from the Snake River by a canal now under construction and nearly fin-ished. A new hotel of 18 rooms is about completed, as also a livery barn and several dwelling houses, while a flouring mill with a capacity of 300 barrels is to be erected on the tracks of the Northern Pa-cific near the Columbia River. The town of Two Rivers is near Wallula, and its development and the belt of land that will be made productive are being watched with interest by people over a wide se to the growth of fruits and early vege tables requiring intense cultivation

Scale Walls and Escape. Tiring of confinement in the Home f the Good Shepherd, Laura Ames and Maud Gould, girls aged 16 years, last

night made an escape from the insti-tution by scaling the walls and running for their liberty.

Officials of the home telephoned to the police about the e-cape, giving the details of the case and description of the girls. Both of the girls climbed through the windows of their rooms, went down a ladder and then over the walls to the street.

Captain Moore detailed Detective Hawley, of the Boys and Girls' Aid Society, to handle the case. Up to a late hour the escapes had not been located. It is thought two men as
