### SCENERY MUST BE VISIBLE

Urged That Veil of Smoke From Forest and Brush Fires Would Prove a Great Setback to the Expositions

At its meeting held yesterday afterno the executive committee of the Lewis and Clark Exposition, having in mind the fact that the usual amount of smoke from forest fires would be detrimental to the Exposition next Summer, recommended that a memorial, which had been prethat a memorial, which had been pre-pared, be sent the president of the Sen-ale and the Speaker of the House of Representatives of the Oregon General Assembly, urging those bodies to enact during the coming assion laws looking toward the protection of the property of the state from forest fires, which have hitherto frequently prevailed in the state during the day assisten.

during the dry season.

It is suggested that the desired effect may be produced without the appointment of additional state officers, and with but little additional expense to the state. The proposed law is also to reasonably limit the setting of brush fires by persons clearing land, and requires that a permit shall be obtained from the County Court upon a proper showing, before such clear-ing fires are set out.

### Legislation Seems Imperative.

It is believed that by this legislation the number and extent of forest fires arising from neglect by rangers and care-lessness by hunters and campers, will be greatly diminished and that the results will be beneficial to the state and the Exposition. The memorial, which is to be sent the officers of the Senate and House of Representatives, is as follows:

House of Representatives, is as follows:

To the Honorable President of the Senate and the Honorable Speaker of the House of the Legislative Assembly of the Sinte of Oregon—The Lewis and Clark Centennial and American Paoific Exposition and Oriental Pair hereby respectfully memoralilizes the Legislative Assembly of the State of Oregon to enact, during its pending assesson, entitable and appropriate legislation looking towards protection of the property of the state from devastating forest fires which have hitherto on frequently necessited in this state during frequently prevailed in this state e dry mason, and we would respectful orialize your honorable body to so p ch legislation me to secure the fo

results:

1—That a measure may be economically, efficiently and honosity administered, without the creation of any additional public officials or any very considerable increased expense of state government, and to that end we suggest whether the duties of the various rangers for the execution of the proposed law could not properly be conterred upon the Sheriff of each county, acting by a deputy to be specially samed by the County Court of each county, who shall perform the duties imposed on that office by the proposed law, and shall, at the same time, have police power, and whose ary, including expenses, by the county court of each county sitting for the transaction of county business, and whose teure of office shall begin May 1 of each year and end No

shall begin May 1 of each year and end November 1 of each year.

5—That the proposed law shall reasonably limit the setting out of brush firce by persons engaged in the clearing of lands, and that a permit should be required from the County Court, upon a proper showing, before any clearing first shall be permitted to be set out.

5—That in addition to existing penal statutes relating to the destruction of property, a stringent penal code should be embraced in the statute intended to protect against fires being negligantly or carelessly set by camping parties, hunters and other persons.

4—That the County Judges of each county shall be authorized by the ant to meet in general conference, as soon as the law shall take

eral conference, as soon as the law shall take effect, to prescribe rules and regulations for the governing and guidance of the Sheriffs and their deputies charged with the execu-tion of the law.

### To Erect Additions.

In addition to the memorial, the execucommittee at its meeting yesterday afternoon recommended that the two pro-posed additions to the Transportation building, each to be 100 by 125 feet, be built, if the work could be done for \$10,000,

sum considered adequate.
Plans will be prepared and have been repared partially, and bids will be asked for at once. If it is found that the ad-ditions, according to specifications, can be built for \$10,000 or less, the contract

Portland yesterday, accompanied by

Judge Hunt stopped in Portland on his way from San Francisco to Helena, his way from San Francisco to Helena, his present headquarters, and there was no particular significance in his visit to this city.

Since he was appointed to the Fed.

was no particular significance in his visit to this city.

Since he was appointed to the Federal bench he has acquired a judicial caution which comports admirably with the position. He declined to discuss land frauds, whether they pertain to Oregon, Idaho or Montana, and carefully forced. fully fenced all leading questions re-

Matters relating to Porto Rico, however, he was more willing to dis-cuss. Judge Hunt was the second Civil Govenor of the Island, succeeding Governor Allen, who served for a short time after May 1, 1950. His term commented early in 1981 and termi-nated last Winter, when he resigned

to accept his present position.
"I completed the organization of the civil government of Porto Rice," said he last night, "and I felt that my work was done. My profession is the law and I desired to return to it. I find my present position very pleasant, but, of course, it is not one which figures greatly in the public eye.

"Porto Rico has a great future. The island is immensely rich and it is only a question of a short time until it will be capable of territorial form of government, looking toward eventual statehood. The changes which have taken place since the American occupation have been remarkable. When we took possession there were but 20,000 children in the schools and now there are 75,000. At the time we declared our sovereignty there was just \$6.50 in the treasury. On July 1, 1904, there was \$675,000 and the island had paid was \$655,000 and the island had paid its own way. It's a valuable possession and its coffee, sugar and fruit possibilities are practically unlimited. By the way, an Oregon man. Rev. Mr. McLeon, a Presbyterian clergyman, is one of the most influential men in the island and his services in Americanizing the island have been of great value.

industry of the island is fruit-raising, increase and be followed by rain or snow. The New York being the principal market. Most of the larger operators are Span-ish, although the very largest holder of fruit lands is an American syndi-

"Wonderful changes have taken place in five years. The cities have been made sanitary, reliow fever has been stamped out and conditions generally are very much better. The people will ultimately fit themselves for a territorial government and at some future day will ask for statehood. Just at present they are slowly but surely working out their best interests under the present system of government."

### An Appreciated Present.

ditions, according to specifications, can be built for \$10,000 or less, the contract will be awarded and the work will begin immediately.

No other questions were discussed by the committee at yesterday's meeting. There are several important decisions to be made within a short time, and possibly a large amount of work will be done at the next meeting of the executive committee, which will be called within a short time.
