# FACE CITY COUNCIL

Dr. Matthews Will Back Up His Charges of Graft

SERMON STIRRED ALDERMEN

Pastor of First Presbyterian Church Savs He Will Substantiate Before Committee What He Said in His Pulpit.

BEATTLE, Wash., Jan. 5 .- (Special.)-Rev. M. A. Matthews, pastor of the First Presbyterian Church, will face the City Presbyterian Church, will face the City Council and answer the charges he made that the body was afflicted with graftitis. The minister made grave charges against the Council in a sermon delivered here last Sunday. On the following day the City Council adopted resolutions calling attention to the public accounts of his charges, and inviting him to appoar and substantiate them.

In a statement given out today, Mr.

appear and substantiate them.

In a statement given out today, Mr. Matthews declares that he is ready to meet the Council, or a committee of that bedy, and to put before them the evidence he has. The minister was in Eastern Washington when the Council de-manded that he make good his charges, and when he returned this morning he

had his first opportunity to answer. It was insisted, when Mr. Matthews was interviewed, that an evasive response would be interpreted as a qualification of his charges. The pastor declared that when he appeared before the Council he would make good everything he had said in the pulpit. Dr. Matthews is one of the best-known preachers in the city, and his defance of the Council has created a sensation. His declaration that he will prove his assertions has intensified the feeling of interest. Thus far the special Council committee named to meet him has not notified the minister of its eag-

LEGAL AID FOR SALMON.

#### Seiners and Cannerymen Send Separate Recommendations.

ASTORIA, Or., Jan. 5 .- (Special.)-The Columbia River canners and the association of seiners and trappers have each prepared letters setting forth the changes desired in the fishing laws of the states of Oregon and Washington. and copies are being sent to each of the Legislative members from the counties bordering on the Lower Columbia River. The gillnet fishermen are preparing a letter containing their views on the ubject, which will also be sent to the Legislators. The letters sent by the trappers and seiners embody the reso-lutions passed at a recent meeting and which were published at the time. cannerymen's recommendations

### FINDS FATHER IS UNCLE.

#### Raiph Coon Also Learns of Large Inheritance Now Due Him.

PENDLETON, Or. Jan. 5 .- (Special.) From driving a delivery wagon to the possession of a fine inheritance is the sudden turn of fortune which has fallen to Ralph Coon, a young man of this city. A letter from a wealthy uncle in Wis-consin, received this week, conveys the news of Coon's heritage, a fortune of several thousand dollars, of which he is to come into immediate possession. The letter also contains other informa-

tion new to the young man.
At the age of 3 weeks Coon was left an orphan. He was adopted by his uncle and aunt, Mr. and Mrs. B. E. Coon, and brought up as their own child, being kept in ignorance of his true parentage until a few days ago, when he became of age. The property of his parents was placed in the hands of relatives in Wisconsin, and during the past 21 years it has steadily in-creased in value, so that now it is worth several thousand dollars. The property will be legally signed over to Coon and held for his disposition when he returns to Wisconsin on the condi-tion that he will adopt his true name.

Surprised as was young Coon when covered that he had fallen to a fortune, he was more amaged upon learning that his parents had long since been dead and that Mr. and Mrs. were uncle and aunt, not his father and mother.

"It seems like a dream to me. I can hardly believe the contents of this jet-ter," said Coon. "Now that the truth has been established, I hardly know what to do. I have always believed Mr. and Mrs. Coon to be my parents; they have treated me as a son and kindly cared for me all these years. Now to discover that they are not my parents is bitter indeed."

As Mr. and Mrs. Coon are growing old, young Coon is planning to return to Wisconsin, convert his property into money, come back to Pendleton with his fortune and provide a coay home

### PREACHER PRAYS IN COURT.

### But Is Sentenced to Pay a \$5 Fine for

Trespass on Church.

He asked if he might consult his counsel. Upon the Judge's granting the very ordinary request, the preacher kneit in the courtroom and prayed. He asked that the hinch of shame be brought to his persecutors. But the prayer had little effect upon the Judge, for Rev. Mr. Pettyjohn was fined E.

tyjohn was fined \$\overline{8}\$. Hev. H. Bowman began a series of revival services several weeks ago. Rev. Mr. Pettyjohn, a resident member, thought the series closed too soon. The church door was locked, but a window was open, and Mr. Pettyjohn was able to lead the services again.

UNITE TWO BOARDS.

School Laws May Be Materially Changed by Legislature.

OLYMPIA, Wash, Jan. 5.—(Special.)—
P. M. McCully, Deputy Superintendent of
Public Instruction, who was named as a
member of the legislative committee by
the recent meeting of the State Teachers'
Association in Spokane, today gave an
outline of the legislation it is proposed
the committee shall present to the Leg-

islature. "In my opinion," said Mr. McCully, 
"The omnibus bill offered to the educational committee of the Assembly and 
Senate will be neither very long nor verycomplex. The association's plan of consolidating the Board of Higher Education and the State Board of Figure Education and the State Board of Education into one board, consisting of the presidents of the university and Agricultural College, principals of the normal schools, superintendents of the three largest cities, and three County Superintendents to be selected by the Governor, will no doubt be brough before the coming Legislature. brought before the coming Legislature.

"An effort will be made to secure longer terms for County Superintendents, for the reason that under present laws a super-intendent is forced to relire from office intendent is forced to retire from office just at the period of his greatest usefulness to the school interests of his county.
"A distinct effort will be made to strengthen the compulsory education law, so as to compel children between the ages of 8 and 15 years to attend school for the entire term, instead of a limited number of months, as at present.
"There will enoughly be as affect to an

'There will probably be an effort to secure legislation toward an increase of teachers' wages. A bill may be presented fixing a minimum salary, but that is more or less a matter of speculation. "The association voted unanimously to

ask the Legislature to provide additional help for the state office. Toward this end the legislative committee will advise

end the legislative committee will advise that an additional Deputy State Superintendent be provided for.

'There will probably be an effort made to raise the standard among teachers in the state, and as a step in this direction it is proposed to abolish the third-grade certificate. While this action might be a temporary embarrassment to some coun-ties, it is generally believed that such a raising of the standard would ultimately work to the advantage of the teachers themselves, and I am inclined to think that the plan should be favored, provided the law does not become operative until the close of the present school year."

CARTER MEN JOYFUL.

Declare That He Will Be Montana's New United States Senator.

HELENA, Mont., Jan. 5 .- (Special.)-The Republican members of the Legisla-ture met tonight in caucus, but adjourned without making any nomination for United States Senator. There were 42 present out of the 53 Republican Legislators. No ballots were taken, and the caucus ad-journed subject to the call of Chairman

The Carter men are in great glee, however, and assert that there can be no doubt as to the outcome either in the caucus or joint assembly. The former National committeeman is an odds-on fa vorite on election. The caucus will be beld perforce before next Tuesday, when balloting in the Legislature upon a sucvery high and severe.

The question of an appropriation for the advancement of the fish hatchery at the head of Wallowa Lake will be brought before the Legislature.

Extend Burlington's Branch.

BUTTE, Mont., Jan. 5 .- A special from Billings, Mont., Jan. 5.—A special from Billings, Mont., says: It is reported here that the Burlington rond has begun prep-arations for the extension of its Cody branch to Thermopolis, Wyo., which is about 90 miles from Cody. If the extension is built it will leave the present branch line at Garland, Wyo., 25 miles north of Cody. Burlington surveyors and a right-of-way agent are already at Ther-

"Pirates" Bound Over.

EVERETT, Wash, Jan. 5.—James Burdock, Joe Roberts and Williams Peeney, alleged "pirales," were bound over in the Justice Court at Maryaville this morning in the sum of \$1000 each. The trial is on a charge of grand larny. The men were captured at the int of a Winchester rifle by Deputy eriff Beard and taken from their Sheriff Beard and taken from their sloop into the Sheriff's steam launch.

Ask for Better Roads.

EUGENE, Or., Jan. 5 .- (Special.) -- Farmers in the vicinity of Loraine have come here with a petition signed by almost everybody in that section of the county asking for extensive improvements on the public road between Loraine and Cottage Grove. They had a hearing before the County Court today, and it is proba-ble an appropriation will be made for the

# SETS RACING DATE

Portland's Next Meet Will Continue 47 Days.

FROM JULY TO SEPTEMBER

Will Be in Very Finest Racing Season, and Prospects Are for Fast Track-Stakes Are to Be Worth Racing For.

> "San Francisco, Jan. 5 .- (Sporting Edi tor The Oregonian.)-Portland gets racing dates beginning July II to September 16 nclusive; Seattle from May I to July 18 "A. R. DIAMOND."

days and also the cream of the racing weather in the Northwest. Some time ago there was some talk of having the 1906 racing season open in June. If these dates should have been allotted to Port land, the Multnomah Fair Associatio would have been compelled to unload the horses here at a cost of at least \$20,000 As it is, Seattle will have to stand this heavy expense because they open the rac-ing season in the Northwest. In having racing during July, August and a part of September, fine weather is

almost assured. These are the months that the weather god, J. Pluviu that the weather goo, J. Pluvius, pays only occasional vieits to Oregon and when he does make his appearance, the mudiarks will have their inning. As yet the stakebooks for the big events which the Mulinomah Fair Association will give during its meet and the Lewis and Clark Fate bean and been decided upon but have not been decided upon, but they have been under discussion and they will be purses that will be well worth while racing for. The five weeks' meet held during 1963 pleased horsemen and also the public, and this year a higher class of thoroughbreds will be found racing at Irvington.

Owners Will Return Here.

Every owner that started a horse at Irvington during the last meeting deirvington during the partial clared that he would return. Every on clared that he would return their horse m had a chance to start their of them had a chance to start their horses and they have talked about the splendid treatment accorded them at Portland to owners that last year shipped East. An-other thing that assures a better class of horses this year is the high rate of tariff that the railroads are asking from the horsemen. For reasons known only to the railroad people, there is a disposi-tion on their part not to care to handle thoroughbreds on their trains. The Cali-Winter racing, bowever, brought many horsemen to the Coast, and they came to the Coast with the intention of staying, because they could find racing for their stables in the Northwest during the

SHOOT FOR PURSES.

Roy Caseday Wins Out in Match at

John Day. JOHN DAY, Or., Jan. 5.—(Special.)—Shoting matches have been much in vogue here during and since the holiday season, and if the champion shot is determined they must continue for some time longer, Liberal purses have been put up by each of the three larger towns of the county, beginning with John Day. Here the merchants made up four purses of \$50, \$30, \$15 and \$6 for first, second. third and fourth prizes, respectively. The conditions were three shots at 75 yards offhand, or 100 yards with a rest, measure-ments being made from the center of the target to the center of each of the three builet holes. The one whose three measurements produced the shortest string was declared the winner. The terms at the other two places were practically the same, telescope sights being barred.
At John Day the winner was Roy Caseday, of the Washington National Guard, of Ellensburg, whose "string" measured 21-18 inches. At Prairie City, Henry Fisk

Scientific American.

At the International Engineering Congress, recently held in St. Louis, som musual figures were given on the subject of the height and power of oc waves particularly as regards their ef-fect upon harbor works. In the course of a paper dealing with the new Dover harbor, it was stated that since these works have been in progress, no wave of a greater height than 15 feet has been recorded—a fact which will be very sur-prising to those who have experienced the miseries of the Dover-Calais passage. The fact is the more remarkable becaus at the entrance to the Type, waves from 55 to 40 feet high have been measured, and the last-named height has also been observed at Peterhead.

In dwelling upon the necessity for

what are known as spending-beaches and wave traps, for dissipating and control-ling wave action, it was stated that the depth to which the latter extends is now known to be much greater than was once commonly supposed. Proof of this is shown by the fact that lobster pots placed in from 129 to 139 feet of water have been found to be filled with sand and shingle after a heavy gale; moreover, sand had been found deposited after a heavy gale in the gallery of the Bishop Rock light-house, the latter being 120 feet above the water, and the depth of the water at that point 150 feet.

That the water, even at considerable depths, must be moving during a gale with great momentum is shown by the fact that at the Peterhead breakwater blocks weighing 41 tons and located over 36 feet below spring tide low water, were displaced during a storm, while a section

EUGENE, Or., Jan. 5.—(Special.)—At Blackley, 55 miles west of this city, Mrs. Lillie Warner, wife of Clifford Warner, was killed by a falling tree, on New Year's day. Mr. Warner was felling a tree near the house, and Mrs. Warner was looking on, when suddenly the tree fell before it was expected and the unfortunate woman was crushed beneath it. She was 41 years old, and left a husband and one child.
