message goes on to state that the fleet will hardly attempt to move from the present place of anchorage for some time, at least. Just now the Indian Ocean is a place of danger from frequent and terrific cyclones, and it would be little short of foolhardiness for the Russian essels to attempt to weather such a

LONDON, Jan. 12.—The Port Louis (Mauritius) correspondent of the Daily Mail wires that the commander of the second division of the Baltic fleet has informed the commander of the Messageries Steamship Company's vessel Orus that he expected the fleet would be attacked by the Japanese in the Indian Ocean. He accordingly applied to the Captain for a map of the barbor of Diego Suarez, said to have a port which he might steam to if it became necessary.

ST. PETERSBURG, Jan. 11.—The metropolitan of St. Petersburg, in a sermon preached before the Imperial family at Tanrakoe-Selo yesterday on the occasion of the religious festival of Christmas, drew a parallel between the peace of the gospel and the peace of the world. In concluding, he addressed the Emperor as Steamship Company's vessel Orus that he

Russia Will Reinforce Rojestvensky, Who Will Coal in French Colonies.

ST. PETERSBURG, Jan., Il.—The Admiralty has not given the slightest official confirmation of the report of the recall of Vice-Admiral Rojestvensky's squadron. On the contrary the officials point calmly to the preparations being made to reinforce the squadron with a division of the third Pacific squadron as

division of the third Pacific squadron as sufficient evidence that Rojestvensky will not return to European waters.

Under the French regulations, it is maintained that Rojestvensky's ships could cruise in the Indian Ocean, coaling and provisioning from their own storeships at Jibutil, French Somoliland, in the waters of the island of Madagascar and the Island of Retuilon and other French islands until reducements arrive with islands until reinforcements arrive withislands until reinforcements arrive, without cause of complaint from Japan, inamuch as the regulations are the same as

PARIS, Jan. The official view is that Admiral Doubasoff's statement is expressive of gowing sentiment within Russia favorable to peace. Reports show that the movement has made notable progress in recent days, particularly at Moscow. Emperor Nicholas has not shown a disposition to check the movement, although personally he disapproves of its inopportuneness.

TOKIO, Jan. 12.—The first batch of the Russian officers who so bravely withstood the II months' attack of the Japanese at Port Arthur and who are now on the way to fit. Petersburg under parole, agrived at Nagasaki today. They were given a welcome such as might be expected by returning heroes, whore for the cause of the home, rather than vanquished and bitter enemies of the Mikado. The city council of Nagasaki had set aside \$19,000 to be expended in the entertainment and, if the programme is continued, there will be little, if any of the money left.

When the officers arrived at the landing pier in Nagasaki harbor, they were met by the city officials and Japanese army officers and welcomed in no doubtful tone. Each official seems to be endeavoring to outdo the others in displaying that hearty feeling of good fellowship and complete goodwill so characteristic of the Japanese people. The officers were conducted to the Temple Garden, passing through serried ranks of a cheering populace. Arriving at the garden, they were given an ovation which was followed by the spreading of a collation of the best the city offered. The refreshments served the time was given up to toasts and speeches, and Japanese and Russians alike gave expression to happy words of friendsbip, a presage of better Russians alike gave expressibly to happy words of friendship, a presage days to come

Colonel Kuckakoff was the main speak-er for the Russians. He said:

On behalf of my fellow-officers and myself, I where in the China Sea, within easy steaming distance of either the Malaysia or Sunda Straits, but, anyway, they declare, if Admiral Rojestvensky's purpose is to spend the ensuing weeks in cruising in the vicinity of Madagascur, it is improbable that he will find himself assaile dby a torpedo fiect.

Ch behalf of my fellow-officers and myself, is want to thank you. It would be impossible for me to explain in words adequate for the occasion our feelings of gratitude for the manner in which we have have have been received as triends. After the war is over, it is my firm belief that such heave people as the Japanese and the Russians cannot help but be the fastest kind of friends.

DECORATIONS FOR GENERALS. Emperor William Does Honor to

BERLIN, Jan. II.—Emperor William received the Russian Ambassador yesterday in formal audience. His Majesty expressed admiration of General Stoessel's defense of Port Arthur and informed the Ambassador that the Emperor of Russia had given his consent that General Stoessel should receive the Prussian order of Pour le Merite, as Emperor William's recognition of his distinguished bravery. Today Emperor William received the Japanese Minister in andlence, complimented him on the courage, tenacity and capacity of General Nogi and informed him that the Emperor of Japan had consented that General Nogi receive the same order. LONDON, Jan. 11.—Baron Suyemaiso, ex Minister of the Interior of Japan and son-in-law of Marquis Ito, addressing the Central Asian Society of London tonight, discussed lengthly the so-called yellow peril. He said it was senseless, minchievous agitation. The basis of China's civilization was executible needle. chievous agliation. The basis of China's civilization was essentially pacific and Japan only aspired to press onward in the same path of civilization as the countries of the West. He was in a position to deciare positively in the name of Japan that, when the present war was ended, Japan would honestly and faithfully pursue a policy of peace, no matter in what form the contest might terminate.

What The Earth Produces.

What The Earth Produces,

The earth has nourished as through unknown ages of human existence. Is it not true that the earth supplies us with everything that we really require for existence? Have you ever thought that it is probable that the earth supplies us with the means to keep our bodily vigor, our health, if we only knew it? The animals know by instinct what is good for them and will search until they find in some plant what they need for correcting indigestion or constipation, etc. Is it, therefore, not possible that there are roots and herbs supplied by nature which will cure the diseases that afflict human kind? That is why Dr. Pierce, of Buffalo, N. V., has such faith in his "Medical Discovery." Years ago, when he was in general and active practice, he found that a combination of certain herbs and roots made into an alternative extract, without the use of alcohol, would always put the stomach into a healthy condition, nourish the tissues, feed the blood and nerves and put healthy tone into the whole system.

flesh and strength are made.

"I was all run down, very nervous, and suffered terribly from stomach trouble, which the doctors prosounced indigestion," writes Mrs. Wm. Morey, of Marshall, Mich. "I doctored for a year without permanent relief. Was advised by a friend to try Dr. Pierce's Golden Medical Discovery, and after the use of nine bottles I was cured. I can heartly recommend the 'Golden Medical Discovery' to any one suffering from stomach trouble. My husband was also greatly benefited by its use."
