

TO REPAIR SEWER

Councilmen Agree to Appro- priate \$5000.

MONEY WILL BE RETURNED

City Engineer Will Rebuild Tanner- Creek Tunnel, and Cost Will Be Deducted From the Amount Paid Contractor Riner.

Councilmen Albee, Fligel, Whiting, Zimmerman, Sheret and Sharkey, comprising a majority of the Council, yesterday, in the presence of Mayor Williams, agreed to pass a resolution at the Council meeting Wednesday, appropriating the sum of \$5000 for the repair of the Tanner-Creek sewer.

In addition to this, Contractor R. M. Riner has signed an agreement by which he turns the work of repairing the sewer over to the city and agrees that any money expended for construction will be deducted from the sum due him on the contract.

Repairs to Begin at Once.

The work of construction will be commenced immediately after the Council meeting, according to City Engineer Wanser, under whose supervision the repair will be made. When apprised of the action of the Councilmen and asked to make a statement, Mr. Wanser said: "As soon as I am officially advised that the necessary money has been appropriated I shall be ready to commence work."

This unexpected culmination of the Tanner-Creek matter, which a week ago promised to be rejuvenated and become a worse scandal than the previous one, is due to Mayor Williams, who yesterday, knowing that the above-named Councilmen were in the City Hall attending various committee meetings, summoned them to his office and placed the proposition before them.

Property-Owners Skeptical.

Notwithstanding the indication of an end to the Tanner-Creek scandal, the property-owners remain skeptical as to the ability of City Engineer Wanser to repair the sewer as he intends. In an interview last night, Tyler Woodward, who is largely interested in property abutting the sewer, said:

"I am not sure that the Tanner-Creek sewer can be repaired as proposed, because the original specifications provide for a sewer which is not being made. I have consulted many engineers who, personally, have been through the sewer and know just what must be done. However, if Mr. Wanser succeeds in repairing the sewer and making it as good as he says he can, I shall be satisfied, but I will not pay for a job job."

TAKES CHARTER TO SALEM.

L. B. Chipman Is the Envoy of the St. Johns Commercial Club.

With 33 carefully typewritten pages of manuscript, constituting the charter of the new and growing city of St. Johns, stowed away in his grip, L. B. Chipman left for Salem yesterday, there to campaign for a charter to the city of St. Johns. Mr. Chipman goes as the duly accredited envoy of the St. Johns Commercial Club, and he is to stay with the charter until it is passed and received the signature of the Governor. The document is somewhat bulky, but the committee wanted a charter under which St. Johns could expand, and they got it.

GOES UP FOR A YEAR.

A Municipal Judge Sentences Man Who Stole Physician's Overcoat.

For the theft of an overcoat valued at \$30 from the office of Dr. E. J. Miller in the Dekum building, H. M. Bennett, alias H. J. Woods, was yesterday sentenced to one year in the County Jail by Municipal Judge Hogue. Bennett would not plead guilty and asked for a hearing. The evidence showed that he entered the outer office of Dr. Miller's suit while the physician was in the bath and stole the overcoat. Bennett worked in a cleaning and dyeing establishment.

ST. JOHNS TAXPAYERS MEET

Form Citizens' Honest Government League, and Will Revise Charter.

Seventy indignant taxpayers of St. Johns met last night at the hall and formed what will be known in the future as the "Citizens' Honest Government League." It seems that the taxpayers are dissatisfied with the manner in which St. Johns has been governed. The league is to be organized for the purpose of securing reforms. A committee consisting of A. L. Potts and Mr. Potter were appointed to appear before the Legislature and request the return of the new St. Johns charter so that it may be amended.

FIRST ASSESSMENT STANDS.

Judiciary Committee Opposes City Paying Part of Union-Avenue Filling.

The Union-avenue-filling matter received an abrupt setback in the hands of the judiciary committee at its meeting yesterday. On motion of Mr. Zimmerman, the original assessment will stand and the property-owners, if they see fit, may carry the matter into court and attempt to make the city pay the total assessment of \$13,750.

Pullman Merchants Want Saloons.

PULLMAN, Wash., Jan. 16.—(Special.)—The question of establishing a "two-mile limit" for saloons in connection with the State Agricultural College here has met with opposition from the business men of Pullman and a petition signed by every business man on Main street except Theodore T. Davis, proprietor of the Palace Hotel; J. F. Armfield, a butcher; E. S. Burman, a merchant; and two druggists, protesting against the passage of the proposed law, has been sent to Olympia.

Great Blaze, Mostly Groceries.

UTICA, N. Y., Jan. 16.—The Crouse building of this city, was destroyed by fire today, entailing a loss of more than \$100,000. The building, which was owned by Head & Co., wholesale grocers, \$90,000.

BRIDGE IS OPENED

Cars and Passengers Cross Morrison Structure.

FOR FIRST TIME IN 85 DAYS

Machinery is in Perfect Working Order—Officials Deny That Bill of Contractors for Construction Will Be Held Up.

Promptly at 6 o'clock yesterday morning, the first car passed over the Morrison-street bridge and through the dry cars crossed the new structure on their regular schedules. But one sidewalk is as yet completed and this yesterday proved utterly inadequate to accommodate the enthusiastic East Side residents who were anxious to cross the bridge for the first time in 85 days. Traffic will not be allowed on the bridge until the end of the week.

Contract Let a Year Ago.

Yesterday was the 40th day since the contract for the Morrison-street bridge was let to the Pacific Construction Company of San Francisco. The structure which spanned the Willamette for nearly a score of years has been removed and in its place is a structure which compares favorably with any bridge built for any city or corporation on the Pacific Coast.

Cost of Structure Near \$400,000.

Neither the highest nor the lowest bid was recommended, but a plan of the Pacific Construction Company with the price of \$321,241.25, was the time additional items have been ordered by the Executive Board amounting to \$2,480, so that the total bill for the contract for the Morrison-street bridge will be \$323,721.25. The cost of the bridge will be \$323,721.25.

Every mother should know that Chamberlain's Cough Remedy is perfectly safe for children to take. It contains nothing harmful and for coughs, colds and croup is unsurpassed. For sale by all druggists.

This company has been guilty of very naughty actions in the past, it is alleged, and has harassed the settler until he would leave his holdings to be subjugated by the syndicate. It is in the interest of the Government to have finished its investigations by the first of the month and between this time and the first of February occasional claims will come in. The grand jury will be discharged and will go home to rest.

LARGE WATER CONCERN FORMED

Will Supply Suburbs With Sandy and Bull Run Water.

A water company to supply suburban towns surrounding Portland with water from the Sandy and Bull Run rivers has been filed to be known as the Suburban Home Supply, Canal & Pipe Line. The places to be supplied include Mount Tabor, Montaville, Russellville, Stewart, Troutdale, Gresham, Woodstock and St. Johns, an area of 30 square miles. Articles of incorporation have been filed in the Recorder's office of Clark and Multnomah counties.

Engineers are engaged in making the surveys, preliminary lines having already been gone over to obtain a large amount of the necessary information, and, according to statements obtained from Mr. Pence this morning, it is expected that actual construction work will be under way within 40 days. Under the law, construction must begin within six months and be prosecuted continuously to completion of the system in protection of the claims made for use of water.

There will be five reservoirs and the pipe through which the water will be carried will be not less than 60 inches in diameter. The canal through which the waters of the Sandy River will be carried for a distance of several miles will be at least 30 feet wide at the bottom and six feet in depth.

The point of diversion from the Sandy River will be at a point in section 25, township 1 south, range 4 east, and a notice has been posted on the bank of the river, where the range lies between ranges 3 and 4 crosses the stream.

The point of diversion from Bull Run, where the pipe line headgate will be located, is at the west end of the county complaint located in section 6, township 2 south, range 5 east.

SETS HER GOODS ON FIRE

MRS. MARY E. TILDEN STARTS A BONFIRE.

Woman Suffering From Strange Hallucination is Arrested on Charge of Insanity.

Laboring under the hallucination that serpents and other deadly things inhabited her bedchamber, Mrs. Mary E. Tilden yesterday afternoon made a bonfire of the household effects, lighting the pile back of her home, 537 East Morrison street, and endangering many houses. In the meantime her husband, George A. Tilden, hurried to County Judge Webster to make a complaint against his wife, charging insanity.

Judge Webster immediately issued an order for Mrs. Tilden's arrest. Deputy Sheriff Downey was dispatched hurriedly, but when he reached the house the woman was not to be seen. Believing she had gone in and locked the doors, the officer burst in and investigated. He expected to see the house ablaze or his quest dead, but neither was true. She had left the place, evidently fearing arrest.

Frightened neighbors had telephoned to Captain of Police Grismacher, telling him of the case. He is a member of Mounted Patrolmen Crute and Maloney to handle the case. When they arrived the place was deserted. With Deputy Sheriff Downey they put out the fire, which was still burning, and returned to police headquarters.

After waiting about one hour Deputy Sheriff Downey was rewarded by the return of the woman. At first she was inclined to resist arrest, but upon the advice of her husband she submitted and went quietly to the County Jail, where she was lodged.

Mrs. Tilden also imagines she is Francis J. Heney, that she has charge of the prosecution of the land-fraud cases, and that she is also in charge of the local police department. She is 40 years old. Her husband is a well-known dyer. She will be given an examination before Judge Webster today, and will probably be committed to the asylum for the insane, at Salem.

THE WELL-INFORMED MAN

This is the era of the well-informed man—the day when the person who knows steps in ahead of the one who simply guesses. The world is always willing to listen to the man who can quote facts. And it is not mere vanity that makes a man desire to be well-informed. That much is taken for granted with every ordinarily successful man. But the well-informed man also keeps posted upon the latest facts upon every important topic in which the busy life of today is interested.

That is one of the many reasons why a great reference library like the New Twentieth Century

Encyclopaedia Britannica

is of the highest value to every thinking man and woman. It puts in easy reach the fullest facts upon every subject. Take, for example, the great public questions which have absorbed our country's attention during recent years—imperialism, Protection, Currency, Corporations, Labor Unions, the Monroe Doctrine and the like. This edition of the Encyclopaedia Britannica gives you complete and interesting discussions upon the world's ablest authorities. Then, as to our Nation's history, you can follow the growth of the Republic from the first settlement to the unfolding of the flag in Alaska, Hawaii, Panama, Cuba and the Philippines. The great Exposition celebrated at St. Louis. Yet how many of you have ever read the history of the acquisition of that vast tract of land?

That a good Encyclopaedia is a daily necessity to every man and woman. They not get the best. The opportunity now yours upon the most unusual terms. Buy the New Twentieth Century Edition of the Encyclopaedia Britannica at
