Centrary to expectations, the introduction of the resolution yesterday in the Council meeting to appropriate \$5000 for the repair of the Tanner-Creek sewer was not accompanied by a bitter fight, but nevertheless the plan suffered sadly in the hands of the Councilmen. Messrs. Albee, Whiting and Flegel keeping their agreement with Mayor Williams. Councilman Merrill voted in favor of the resolution, but even this aditional vote was

not sufficient to give a majority.

It was known yesterday that Councilman Rumells would vigorously oppose the resolution and further that Mr. Zimmerman on reconsideration had changed his mind feeling that it was not wise to draw upon the general fund when other departments of the city were in dire need of financial support, but, however, it was thought that Councilman Foeller would vote in its favor, and, if necessary, a vote from the Mayor would have decided a

I taink, if the plans of the City Engineer be definitely fixed so that the people may know what is to be done. "There is a 'nigger' in the woodpile, gentlemen. A concern known as the Barber Asphalt Company is here trying to get the business away from the Warren brothers, but if you want to see how good an asphalt pavement is, walk down Third etreet, where some of it was laid for us ten, years ago by the Barber Asphalt Company." The matter was referred to the street committee as first moved.

City Engineer Explains.

"Partly so. I will explain some of the details," said the City Engineer. "A great deal of the newer is not in need of any repairs. I intend to make snother examination, something more than a cursory one which I have al-ready made. I can't see any further through a brick wall than anyone else. I intend to remove all the deries in through a brick wall than anyone else. I intend to remove all the debris in the sewer and then take up the proposition of going into the bottom and if I find that the bottom is only bad in places through cardiestness, why I will go to the other parts of the sewer and examine them, but if to the contrary I find that there is no bottom, why, I will simply tell you to build a new sewer, because if there is no foundation I cannot build and I do. no foundation I cannot build and I do not propose to spend the city's money or anyone's else for such a purpose." Mr. Sharkey arose, saying: "If Your Honor please, the City En-

gineer in his statements shows that he

ginser in his statements shows that he does not know any more about the sewer than anyone else, and I move you that the ordinance be passed."
"Mr. Engineer," persisted Mr. Flegel. "A criticism has also come to me of the manner in which the bricks are laid. As I understand it the original specifications called for bricks laid in coment and it is found, I am told, that some bricks are laid without any cesome bricks are laid without any ce-ment and some with a little cement. Is that so?"
"As far as the bricks are concerned."

"As far as the bricks are concerned," answered the City Engineer, "that is to say, as far as can be seen, they are laid in good cement. I have never been in a dryer sewer than the Tanner Creek, as regards leakage. I do not care how good a sewer is, there is always some little leak, but of course I shall expect that all bricks be laid properly."

"Is it the intention of the Engineer to rectify the arch and make it what they call backfilled," asked Mr. Flegel.

"Some of the arch is not backfilled," said the Engineer, "and I intend to strip it and find out just what has to be done."

Opposed by Mr. Zimmerman.

Opposed by Mr. Zimmerman.

"I have every reason to believe." said Mr. Zimmerman," that the City Engineer will make a first-class sewer. Whether he can repair it for \$5000 or \$10,000 or \$15,000 must be determined at some future time. I do not see why, though money should be taken from the General Fund to repaid the Tanner-Creek sewer when we haven't got the money. We have had to cut the police and fire department appro-priations, and the Executive Board has pristions, and the Executive Board has recommended that we appropriate \$50,000 for the Board of Health so that they can construct a garbage crematory that will aid in making the city presentable for the Lewis and Clark Fair. The Board of Health ought to have the money, but we cannot give it to them. Whether it is best to spend the money on the Tanner-Creek sewer or the police or fire departments or for a garbage crematory we must decide. I am sick and tired of the name of Tanner Creek without the sewer name of Tanner Creek without the newer and I will be gind when the whole thing

I shall oppose the appropriation of one sin-gle dollar for repairing the Tanner-Creek sewer, but I am willing to vote for a sum to pay the expenses of the City Engineer, in going through the sewer again and finding out just what has to be done. I want to see the sewer off our hands as want to see the sewer off our hands as much as anybody, but I do not think that the city should go into the banking busi-

For the benefit of those members of the liquor license committee who are present at this meeting. I desire to say that Mr. Flegel and myself last night visited every one of these places and found women, such as are described in this section of the ordinance, and stairways connecting the saloons with the section of the property bounds of the saloons. stairways connecting the saloons with disorderly houses above. There are some people who argue that the latter are necessary evils. That may be, but when we have the two evils working together it is high time that we did something to emulate the example of larger cities, and I see no reason why Portland, as fair a city as there is, should not be abso-lately clean."

Mayor Williams' impromptu remarks were greeted with a burst of applause from all assembled, and it was some time before order was restored to the Council chamber and regular business taken up. Mr. Mayor and Gentlemen of the Con Souncil: I have been requested to appear

Council: I have been requested to appear here today on this special occasion and make a presentation of a portrait of the Mayor of the City of Pertland, our Honorable Mayor, who is here before us, to the city. With your permission I will make a few remarks.

George H. Williams has been a leader of thought and a leader of action among us more than 50 years. He has borne high honors because he has carned them. He has stood among the great men of the Nation, with acknowledged greatness among them. As Judge, as Stantor, as Attorney-General of the United States, his name has been conspicuous and has hunored Oregon. As Mayor of Pertland he has shown the same inflexible integrity that had characters.

been conspicuous and has honored Oregon. As Mayor of Fortland he has shown the same inflexible integrity that had characterized the whole of his previous career. As an orator these 40 years, he has had no equal among us. As a man, a neighbor, a genial and generous cilizen, he has had the respect of all.

Tou will find his judicial opinious in the very first volumes of the Oregon Reports, and they stand after the lapse of 50 years as law today. His leadership of the Senate was acknowledged while he was a member of it. His opinious as Attorney-General have honorable place in the series of volumes that contain these reports, from the early time till now. During long years be preferred the retirement of private life, and became Mayor of Pertland only through the persuasion of a large body of his follow-cilizens, who entreated him to accept the position. Portland, under his administration, has made progress in all ways. It is an orderly city. No man has done more to give it the improved metropolitan appearance and character it possesses today. The persuasi and private life of our friend has been as stainless as his public life has been distinguished.

Free men have been subjected to more numerous more litter, more groundless attacks—tributes always to superior abilities—but they never have ruffled the amiability of his nature, nor has he needed to turn aside to answer them.

One of the men whose lives illumine the history of Oregon its denied with the history of Oregon that it cannot grow dim. It is something—it is a great thing—to have one's name so identified with the beginning of the history of a state.

This portrait of Mayor Williams is presented to the City of Portiand.

one's name so identified with the beginnings of the history of a sinte.

This portrait of Mayor Williams is presented to the City of Portiaud.

The artist, Mr. Fisher, is a young man who has grown up among us. It is an excellent picture. The execution honors the subject and does credit to the artist. This portrait is to remain in this hall as long, we may well believe, as this building shall endure. The portrait will be at once an ornament to this chamber and a valued possession of this city. Asked to present it to the city I gladly execute the commission—with benisons on the head of him who, during so many years, has of him who, during so many years, has added character, dignity and fame to the name of Oregon.

Councilman Zimmerman Accepts. Mr. Scott was applauded by the Council members and spectators as he concluded his speech. Councilman Zimmerman in acknowledging the acceptance of the portrait said:

trait said:

Mr. Mayor and Gentlemen of the Council and Clineas Present: As president of this Council it devolves upon me to say something in behalf of the city. This portrait which I am about to accept and which will hang on the walls of this Council Chamber from generation to generation is of a man, who all who come in contact with him every day like the members of this Council and officials of the city government and citizens who call upon him, have learned to love and respect. The picture is a good likeness and does much to show the artistic appreciation of the young artist who presents it.

that I feel highly flattered and honored by
what has been said and done here today. I

Council. I do not think I have done any
more for the city since I became Mayor than
I sught to have done or more than my
duly required me to do. I have tried to the
best of my shilly to improve the conditions of the city preparatory to the Lewis

so far as I know the officials associated with
me in the city government have been actuated by similar motives.

Health Thus Lost is Restored by Lydia E. Pinkham's Vegetable Comp

How many women do you know who are perfectly well and strong? We hear every day the same story over and over again. "I do not feel well; I am over again. "I do not so tired all the time!

More than likely you speak the same words yourself, and no doubt you feel far from well. The cause may be easily traced to some derangement of the fe-male organs which manifests itself in depression of spirits, rejuctance to go anywhere or do snything, backache, bearing-down pains, flatulency, nerv-ousness, sleeplesaness, leucorrhœs.

These symptoms are but warnings that there is danger ahead, and unless heeded a life of suffering or a serious operation is the inevitable result.

The never-failing remedy for all these symptoms is Lydia E. Pinkham's Vegetable Compound.

restored bealth has meant so much to me that I cannot help from telling mine for the sake of other suffering women.

"For a long time I suffered untold agony with a uterine trouble and irregularities, which made me a physical wreck, and no one thought I would recover, but Lydia E.
