## BOYCOTT BY TRUST

San Francisco Firms Get No More Sugar.

BELONG TO HAWAIIAN PEOPLE

First Retaliatory Move by Western Refinery That May Be Followed by Interesting Developments -Salt Prices to Advance.

The latest developments in the San Francis ugar trouble caused no surprise among Port land jobbers, as the more by the trust had been anticipated. A private wire assounced that the Western Sugar Refinery had refused sell its product to three large grocery see of that city. These are the houses that dependent company, and the boyout begun As none of the Northern jobbers are affiliated common, 10015c each; Angues, with the Hawatian company, their source of TALLOW-Prime, per pound, 4655c; No. 1 and greate, 24,63c. on the San Francisco market, and, according to greers, does not compare in quality with

, but, of course, it is possible that this be disregarded and prices made that will ward direction. The New York market is strong at the recent advance of 10 points, and Atlantic scaboard, and such a deal might even were steady.

will carrying large stocks of it. Not only in the sugar, but in the sait trade as well, are interesting developments pending. Negotiations are now under way that bid fair to make marked changes in the list, and it is likely that advances will be announced some

SLUMP IN AMALGAMATED

Unsatisfactory Reports of Railroad Earnings-Chicago Terminal Reorganization Rumors.

POINTMENT OVER DIVIDEND.

NEW YORK Jan 20 -Constraint was man fested on the speculative spirit of the s market today, and the tose was beavy dull for the greater part of the sine, positive weakness, however, of the ope-dealings which came over from the prece-

dealings which came over from the preceding day was soon discipated. The pressure contered largely in Amalgamated Copper, owing to disappointment over the dividend declaration. The amount of the distribution was what had been generally expected, but disappointment was felt that the rayle of the dividend was not made regular 1 per cent quarterly, instead of is per cent regular and is per cent extra, which was felt to imply a question as to the maintenance of the rate. The stock was forced down an extreme 15s, and without making a recovery was effectively supported above the low point. While the market was asked from the sympathetic influence of continued weakness in

was effectively supported above the low point. While the market was asved from the sympathetic influence of continued weakness in preminent railroad stocks there seemed a continued weight on it, and the notable adjances in appeals cases were not effective in reviving the atrempth and activity. Great interest was shown in the news of the conferences between Pennsylvania Railroad officials and employers in the effect to adjust the labor dispute and the uncertainty as to the react! had its effect in repressing activity in stocks.

Reports of gross earnings in railroads for the second week in January showed a considerable falling off in the recently prevailing level of earnings with the mixture of besen compared with last year bringing the average for 17 railroads reporting to an actual decrease of ever 2 per cent from last year's level. But the movement of special railroad stocks was clearly based on the hope of increased return from dickfeeds. This was stockby the case with Chicago & Northwestern stocks for which encouragement is given by the recent advance in the divident rate on Chicago, St. Paul.

Minneapolis & Omaha, which is a subsidiary at allowances for the providence of a bose for more liberal dividend allowances.

BEARISHNESS OVERCOME.

Active Buying Causes Firm Close in Chi-

cage Wheat.

CHICAGO, Jan. 20.—Buoyed up by an unexpectedly firm market at Liverpool, wheat here opened at a light gain. May being unchanged to be higher at \$1.14% to \$1.14%. At mission houses. Offerings were rather light. After May had touched \$1.14%@1.14% prices suddenly started downward, and the decline was not checked until May had sold off to The break was due largely to the extreme weakness of outside markets. The poor demand for cash wheat at all centers, however demand for each wheat at all centers, however, was said to be the fundamental reason for the heavy fone of the speculative market. Another influence that contributed to the weakness here was the liberal movement of wheat from Argentina, alignments for the week being 1,176,000 husbries, compared with 216,000 husbries the previous week. Neverthelesa, pit sentiment gradually lost much of its hearishness. One or two prominent operators became fully active buyers. Many of the smaller traders who had sold freely on the early weakness covered their sales and helped cause a slow receivery. The market became active and strong during the last hour, winding up higher than yeakerday, will prices at the top natch of the current day. The final quotation on May was \$1.15.

was \$1.15.

Influenced by higher cables, the corn market was firm, with a fairly active business. May closed unchanged. Sentiment in the cate pit was governed principally by the action of the corn market. May opened a shade to lie higher at 31c to 31G 31bc, and closed unchanged.

The provisions market was firm. Trading

MILLS ARE STILL BUSY

PROGRESS MORE RAPID IN MANU-FACTURE THAN DISTRIBUTION.

Feeling Generally is One of Great Confidence in the Ensuing Year's Business.

NEW YORK, Jan. 28.-Dun's Weekly Betiew of Trade will say tomerrow; Progress is more rapid in manufacture than in distribution, which is largely due to the weather at some points and the unactited feeling in the South, where the collapse of cotton prices has retarded collections and caused many cancellations. That production is maintained by mills and furnaces may be taken as evidence of confidence in the future. Settlement of the protracted labor struggle at Fall River is encouraging, but the industrial atmosphere is disturbed elsewhere, although, on the whole, there is less than the customary idleness for this season.

Railway earnings for January thus far show a gain of 1.3 per cent. Poreign commerce at this port is also better than a year ago, the last week altowing gains of \$3,505.889 in value of imports and \$357.986 in exports.

Hides are still firm as a rule, except that seems declines are recorded on packer maives, as these constitute the betth of current receipts. This is a seasonable influence, and does not detract from the general tone of streaments. tion, which is largely due to the

Pailure this week number 335 in the United States, against 238 last year, and 24 in Can-ada, compared with 33 a year ago.

LOW COTTON DEPRESSES TRADE. In the South Only Are Business Conditions

Unsutisfactory. NEW YORK, Jan. 20.-Bradstreet's tomor Industry attll maintains a position of pre-eminent activity, while distributive trade for Spring, not as yet fully opened, lacks definite form in some lines. Lamber is strong at

Spring, not as yet fully opened, lacks definite form in some lines. Lamber le strong at higher prices than hast year.

With the exception of the South and portions of the Southwest, where lower priced cotton affects collections and elogs the future, the feeling is one of great confidence in the future, and particularly as to the ensuing year's business. Collections are Irregular, being best in the Northwest and Central West and poscest in the South, where low cotton devereess trade.

degrences trade.

Iron and steel in its cruder forms have been Iron and steel in its cruder forms have been rather quieter this week, and the Winter edge of demand being takes off, foundry Iron and Reasemer pig have been shaded in price. Early predictions of a small gain in gross railroad earnings for the year 1904 over 1903, the best hitherto reported, are confirmed by reports to Bradatyret's of a fraction of 1 per cent increase for the last 12 months. Decem-

ber gross receipts show a gain of I per cent over 1000, but for the first half of January the increase is considerably smaller than last

Pear, Business failures in the United States for the week ending January 19 numbered 204, against 205 last week and 206 in the like week in 1904. In Canada failures for the week number 57, as against 24 last week and 25 in the like week a year ago.
Wheat, including flour, exports for the week wheat, including flour, exports for the west ending January 12, are 1,128,074 bushels, against 700,850 bushels last week and 2,385,582 bushels this week last year. From July 1 to date the exports are 28,010,186 bushels, against 95,822,013 bushels last year.
