They offer to build the road to Klamath Falls within two years from March II, the present year, if the people will secure for them a right of way from the California line to this city, and also subscribe a bonus of \$100,000 in money and lands, to be paid upon the completion of the road.

Can the people do this? Will they do it? What the people state is the best evidence of what they can and will do. The leading business men of Klamath Falls met the

It is a large sum, it is true, but the people of the Kiamath country are liberal and business to the bone, and once convinced that it will pay to raise the sum they will raise it. They resilize that for the development of her wonderful resources a railroad is their greatest need. With a railroad they can do everything without one the country must remain at a standstill, in a measure.

The church is now practically debt free and there is enough in the treasury to make some additions and repairs for the coming Summer. There is naturally great rejoicing over the fourishing fluoricing for the flourishing financial condition of the church, for it has been in the eyes of the national denomination for many years as heavily incumbered and for a time it was thought that it never could of a great deal of good to the city and state. It is being taken up very generally by the best citizens, and they are doing years and committees on expleitation are very husy, even at the start of the movement, sending out reading matter about the Pair and more particularly helinging to hear what influence they can exert at this distance on the Legislatures of their various states to induce them to appropriate sufficient funds with which to erect state buildings at the Fair. When this work, which requires immediate attention, is cared for, during the Spring and Summer these societies will food their old states with pamphlets telling of Oregon and the Fair.

what Church Should Do.

"As a church we should honor the fidelity and worth of those who have preceded us in our church life. It is a good thing for us to keep writing over again the eleventh chapter of the epistle to the Hebrews. That far-famed chapter is a mighty upiliting power in the book of God. And why? Because it is a chapter of recognitions and memorials. It is the Westminster of the book. Westminster Abbey is the greatest stimulus England has to holy ambition and to future greatness. The great dead do not feel the power of Westminster Abbey, but the great living do. Westminster Abbey is a schooner came into the bay in distress, and the man in charge of the cargo came great living do. Westminster Abbey is a schooner came into the bay in distress, and the man in charge of the cargo came great living do. Another writer says: A common fault with young men is lack of enterprise; they are willing to live on their daddy's dollars and have no inclination. daddy's dollars and have no inclination to do any real hard work.' She adds: 'God save us from being tied to such things.' No young man is really worthy the name man who does not have some honest purpose in life and seek by every honorable means with untiring industry to achieve it. It is better for a man to tall in a it. It is better for a man to fall in a noble struggle than to be the most successful loafer the world has ever known. The world has no place for an indolent, stand-around-on-the-corner-with-hishands-in-his-pockets young man. The only secret to success in this life is work.

his life was a most perplexing mystery
to the multitudes, and herein was and is occasion for reverence and adoration rather than doubt; but not one hones doubter was refused proof sufficient o his Lordship. The mind's measure o Christi: Everyone must be judged by his works and words. Apply that principle. Furthermore, measure him by the promises he has made. Upon this basis form your judgment, and answer the question, 'What think ye of Christ?' One's answer to this question is expressed, first, by his attitude toward him and his cause. Sec-ond, by his relation to him. Not to us. but ours to him. This relation must be vital-life-giving, fruit-producing. Third, by his degree of enthusiasm for Christ's cause. No work succeeds without en-thusiasm. It leads armies to victories, the missionaries to achievements, and the church to glorious triumphs. The correct application of these principles are neces-sary, and mean the proper example in the home and to the young Christian, and guarantee to the sorrowing or dying sain: a peaceful closing hour here and a joyful reception youder.
