NEW YORK, Jan. 38.-New York to NEW YORK, Jan. 18.—New York to-night is recovering from the effects of yesterday's storm, which so effectually put a stop to traffic and tied up some lines of business. Although the day was bit-ter could 16.000 men were sent out to re-move the snow from the leading thor-oughfares. Cars are running on many of the principal lines, the railroads are sending out trains, ferry-boats are run-ning on schedule, and milk, cost and food supplies have begun to reach the city. supplies have begun to reach the city.

#### NO CHANGE OF SHIP SUBSIDY Report of Commission Has Fallen Fiat in Congress.

OREGONIAN NEWS BUREAU, Washngton, Jan. 26.-It is scarcely probable that any attempt will be made at this session of Congress to pass the ship sub-sidy bill. It will die on March 4, along with hundreds of other less important measures. The object of the bill prob-ably has been accomplished in showing that this Congress at least is not in favor

of a subsidy measure.

In fact, nothing has fallen so flat as this production of the Merchant Marine-Commission. The most earnest advocates of the bill soon realized after the report of the commission was presented that it was useless to attempt to pass it. This was not because a fillbuster in the Senate would cause its detest, but it had been plainly shown that there was not a majority in either House or Senate for bill. The report of the commission a great disappointment. That it ald result in bringing about a subsidy measure when subsidies were so unpopular during the time that they were pushed by Hanna, was a surprise, and straightway the men who have charge of affairs in Congress set about to defeat it.

Of course the advocates of the schema

will try to make it appear that the reason why the bill was so unpopular at this ression of Congress was because the leaders did not want to increase appropriations at a time when rigid economy was necessary. But such is not the fact. The economic question might have been be-fore the Senate and House leaders, but the fact remains that the bill was not onsidered because it was unpopular and occuse members of Congress are not willing to consent to subsidies

# NOT BOUND BY HUMAN LAW.

#### Main Argument for Expulsion of Smoot From Senate.

WASHINGTON, Jan. 28.-Arguments in the Smoot investigation were begun to-day. Judge R. W. Tayler, of Ohio, who has conducted the case for the testants, opened, and tomorrow the arguments for Senator Smoot will be made by A. S. Worthington, of this city, and Waldemar Van Cott, of Salt Lake. is expected former Secretary of the Treasury John G. Carliale will close for the protestants. Judge Tayler reminded the committee

that it had been a year since the inves-tigation was instituted. He stated that the question of morals was but incidental and that the principal question involved was one of government and law. He took the position that a Senator who was not a respecter of the law he was charged to make could not be fitted to serve in the highest legislative branch of the Gov-

tilied ft. I would not say a word against the characters of the members of the Mormon hierarchy, or Senator Smoot, or any of his associates," said Judge Tayler. "I do not speak of these because they are lawless, but because they are not hawless. If it were a mere question of lawbreaking this would not cause a rinlawbreaking, this would not cause a rip jaworeasing, this would not cause a rip-ple. The country is filled with lawbreak-ers; the jails are filled with them. It is because the law they obey is higher than the law of the land. When man-made law comes into conflict with a higher law, Semator Smoot says he would go to another country, where the law of God and men would not conflict. I am ready to admit the Mormons are not breaking the laws from a spirit of nawlessness. If they were the question would be easy to deal with."

Judge Tayler then took the question of the powers of the Senate to exclude members elected to that body, and ad-vanced the argument that if a Senator was ineligible to hold office he might be excluded by a majority vote, and if, by any chance, he was sworn in and took his seat, the Senate still had the power to exclude him by a majority vote. In other words, if the cause for expulsion is something ante-dating his election and not discovered until the Senator takes his seat, then the two-thirds rule for expulsion does not apply. Judge Taylor expulsion does not apply. Judge Tayler declared that the two-thirds rule covers instances where expulsion is desired because of some act committed by a Senator while serving in the Senate.

Senators Balley, Beveridge, Forsker,

That the church, the hierarchy and

its members were placed higher than the lis members were placed higher than the line was Judge Tayler's chief contention why Senator Smoot should be unseated. He said the church received revelations, and the hierarchy, being in immediate contact with God, the church was placed above the law of the land. In closing, Judge Tayler and Judge Tayler said:

Judge Tayler said:

"A grave question is yours to answer. Reed Smoot himself is but a trivial incident in the mighty problem. It is the problem of government; the institutional question whether law or caprice shall govern people who know no ruler but the law, and no safe rule but respect for law. A Senator from the States; he legislates for 80,000,000 people who bold, as their most cherished possession, such a respect for law, because it is law, as Reed Smoot, unhappily for him, has never Reed Smoot, unhappily for him, has never felt or understood from the moment of his first conscious thought down to the present hour."

# How to Deepen Channel.

PORTLAND, Jan. 24—(To the Editor.)—I see so much latly about the Co-jumbla river bar that I wish to bring he-fore the public a proposition I have thought of, for some time. In th first place I sm an old retired hay seed and no a title about mining and since I was a boy big enough to go swiming I have nom the efect of water on sand

to go swiming I have mone the effect of water on, sand
You can take a piace where the water is hardly strong enough to move the sand and with your foot or a stick drawn through It with the curant you will soon see the channel depening, therfore I wish to combine what I have learned at my profesions with what nature taught me when I was a boy and do something for mi country. I propose to take what a tarner would call a spring tooth harow or a go deetl, made to cut wide swath and draw it down over the bar when the tide is running out and a good stage of water in the river, say at th annual flowed in spuce.

In mi mind the action of the water running back and fourth libelines to settle and forms.

from imind the action of the water runing back and fourth inclines to setle and forms a crust, which would hardly move without some asistance. Therefore mi go-devil would I think solve the problem. It would evidently loosen the sand up all by leaving the bottem in a corugated shape runing paralel with the curant, it would surely carry a great deal of sand and sediment to sea. I have thought of making splication to unkle sam for a trial of this plan on the dredg chinook of say about from days during the high water next summer. I will farmish the go-devil and necessary cable, which will cost three or four hundred dollars, and if it deceand deepen the channel three or four feet I will bee disappointed, but if it increases it one foot in that time it will bee money well spent.

I have no doubt the dredg chinook can do good wark, though I think it is very slow compaired to the amount of sand to handle, of course some will say book, crank and solourth, but I would like to hear from some planer mining man an the subject, he can tell what cleet water has on sand with a little asistence.

# WHY WE CAN

### So Fearlessly Quarantee Vinol.

"It is true," said a member of Woodard, Clarke & Co., "we stand ready to refund money pold us for Vinol every time it falls to do what we claim for it, and when we tell you that Vinol actually has a record of succeeding in \$8 cases out of every 100 you can see why it is we are so ready to do this.

"There is absolutely nothing that will act as a general rebuilder, strength restorer and flesh creator for old people, children, weak people and during convalencence equal to Vinol.

"The reason for this is that Vinol contains in a highly concentrated form those important medicinal elements that have always made cod liver oil famous, but it is far superior to cod liver oil and emulsions, inasmuch as it contains none of the grease or oil to upset the stumach and retard its work, and it is delicious to the taste."

Mrs. W. C. Parker, of Jackson, Mich., writes: "I have been sick and all run down for over a year, have taken all kinds of medicines and treated with our best physicians, but received no benefit. I was so weak and nervous that I could not sieep or bear the slightest noise. Friends recommended Vinol. I took two bottles of it and cannot recommend it too highly after what it has done for me. My nervousness is gone, I have gained in flesh and strength and sleep well. I wish every woman suffering as I did would try Vised."

Further than this, the Governor-General takes an optimistic view of the situation in the provinces. He said:

"As you see, the city is perfectly tran-uil. There have been no disorders since unday, and there will be none in spite of the exaggerated alarmist reports with which foreign countries have been flood-ed. I am in a position to guarantee the peace and safety of the city. The workmen have already begun to return to work, but it is hardly possible for a general re-sumption to occur before Monday. You have read my proclamation. The vast majority of the workmen were deceived into associating themselves with a political movement. The government intends to do everything possible under the law to see that they receive junitee."

"What of the future? People talk

of a revolution or of an era of bombthrowing," he was asked.
"I am an optimist," was the reply. "I have no fear of a revolution. As for homb-throwers, they are few in num-

Do not undervalue the services of a skilful physician. Even the best medicine cannot take the place of the family doctor. Therefore we say: Consult your physician freely about your case and ask him what he thinks about your taking Ayer's Cherry Pectoral for your cough. If he says take it, then take it. If he says do not take it, then follow his advice.
