

CHECKED BY STORMS
Distributive Trade Affected Throughout Wide Area.
IRREGULARITY IN REPORTS

Most Industrial Lines Continue Busy, Testifying to Confidence That Interruption Will Be Brief—Foreign Trade Gaining.

NEW YORK, Jan. 27.—Bradstreet's tomorrow will say:
Incidentally has retarded distributive trade, railway traffic and some forms of production throughout a wide area. The result is some irregularity in the reports from different sections. Industry still leads distribution in activity. The volume of new buying in iron is light, but specifications are coming out freely and current production is above the maximum. Seasonable influences affect sales of lumber, but that industry is in a very strong position in the Northwest. The Southern lumber and naval stores industry shows general improvement, and even in the Pacific Northwest there are signs of reaction from the late winter depression.

FOREIGN COMMERCE INCREASES.
Railway Earnings Show Only a Slight Gain.

NEW YORK, Jan. 27.—Dun's Weekly Review of Trade tomorrow will say:
Storms at home and complications abroad tended to check activity for the week ended January 26, but most industrial lines continue busy, testifying to confidence that trade's interruption will be brief.
Foreign commerce at this time for the last week of 1904 was \$70,850 in imports and a loss of \$1,600,117 in exports, as compared with the same time in 1904. Railway earnings in January were only 4 per cent larger than in the same month of 1904.

Bank Clearings.
The following table, compiled by Bradstreet, shows the bank clearings at the principal cities for the week ended January 26, with percentage of increase and decrease as compared with the corresponding week last year:

BUY FOR LONDON ON ACCOUNT OF STRENGTH AND BREADTH GIVEN TO STOCK TRADING.

NEW YORK, Jan. 27.—The upward course of prices in the stock market which set in yesterday continued this morning, and the market for a time showed strength and breadth. Considerable buying for London account helped to the extent of the demand being met and was in part toward the latter part of the day, and there was a notable falling off of the volume of dealings and some reactions in price. The feature of the latter part of the day was the large number of industrial shares which were pushed up successively. The minor iron and steel stocks and those of trade and service lines were the most active. The steel industry was the most prominent. Equally conspicuous was the fact that the United States Steel stocks and Amalgamated Copper were heavy and backward to the movement. The same was true of the electric and Smelting. This led to the inference that profits were being sought on the recent advance in the major industrial group, and the movement in the minor industrial.

GRAIN SPECULATION CALM.
FUTURES HAVE SMALL DECLINE ON SAN FRANCISCO EXCHANGE.

NEW YORK, Jan. 27.—Speculation in grain futures was very quiet today. The market was steady, with a slight decline in prices on the San Francisco exchange. The local grain market was very quiet today. While spot wheat ruled steady at yesterday's advance, futures had a small decline in sympathy with a drop in Chicago. Barley options stood up fairly well, though May closed slightly below yesterday's final price. There is still an important short interest in the market. The advance of green feed has a depressing effect.

WHEAT FIT WHEAT.

Increased Shipments From Argentina Cause Easier Tone.
CHICAGO, Jan. 27.—With the exception of a short period of strength near the middle of the session, sentiment in the wheat pit was quite bearish. Influenced by lower prices at Liverpool, following increased shipments from Argentina, the market was generally bearish. May being off 1/4 to 1/2 at 110 1/2 to 110 3/4. A factor that contributed to weakness was the more liberal movement in the Northwest, receipts today for 13 cars greater than were received the corresponding day a year ago. Later a firmer tone developed on news from the Northwest and Southwest. St. Louis received the 100,000 barrels of wheat from the Southeastern millers. Advice from Minneapolis told of increased sales of flour and of higher prices paid by the millers. Reports from the Northwest indicated that the market there was in line with export bids, and that some business had already been done in that direction. A sale of 100,000 barrels of wheat for Japan was reported by the Pacific Coast items. The market readily responded to the improvement, May advancing to 111 1/2. The strength was only temporary, however, the market becoming weak on general profit-taking. The market closed weak with May at 111 1/2.
