FOR A MINING BUREAU.

Mr. Fisk Gives Reasons Why It Should Be Established.

PORTLAND, Jan 28.—(To the Editor.)— In your special Salem correspondence of January 25 I note an Item headed, "Ne Demand for a Mining Bureau," which Gliotes a member of the mining committee diotes a member of the mining committee as saying that the miners are not asking for it, and the demand comes from men who are looking for positions, or have some personal ends to serve, oir. I think this is a great miletake. There are only two bills introduced in the Legislature for amining bureau, one by Senator Whealdon, of Wasco, and the other by Senator Brownell and R. G. Smith, of Josephine. In the House the two are identical. The latter I had a hand in drawing up. I am sure Sautor Whealdon has no aspirations in that line. He is neither seeking a job nor has a personal end to serve, and I am positive that I have no such views for I have a standing offer for a permanent position, the saisary of which would cover twice the amount that these bills provide for any position in the mining bureau. The numerous inquiries received by the Chamber of Commerce, Board of Trade, the Lewis and Clark Commissions and hundreds that I have received from all over the United States, from people destrous of settling in our state and engaging in some of these industries, all testify to the importance of some such bureau of information, where authentic knowledge can be found. I am interested, in common with other Oregonians, in this matter, and would advise any one who is interested to read over these bills, and if not meritorious, or not calculated to open up the resources of our state and induce the investment of large capital within our border, and tending to largely increase the taxable property in Oregon, then I say, kill the bill. And to the foreign investor or inquirer I say apply to California, iffains, Washington and Montana mining bureaus for such official information as you may desire. In Oregon we keep no such information for the benefit of the public. Grand Jury Is Busy With Land Company.

CASE WILL BE A LONG ONE

Many of the Cases to Be Investigated May Not Come Up Before March Session-New Indictments Expected Shortly.

The Butte Creek Land & Livestock Company is like the mythical cat with the nine lives. It is hard to finish. Yesterday morning the Federal grand jury spent its time listening to a few of the witnesses who know of the dealings of the com-pany and in the early afternoon the same procedure was gone through with sgain. Nothing has been done, so far as surface indications point, and nothing will be done this week, so it is said. The slowness and tedium of the exam-

inations will not end with the month, it is now stated, but will run into February.
There are many things yet to come up which have not been touched and which cannot be neglected. The slowness of the investigations into the matters now be-ing considereds will make it necessary to prolong the session for a greater period than was hoped would be the case. New indictments will be returned before

the first of the month, it is thought, but who, or how many, will be involved is not known and can only be guessed at.

Many Yet to Come. It now develops that many of the cases which are capable of investigation and

FAVOR CALIFORNIA JUNKET. Councilmen Give Views of Proposed Telephone-Inspection Trip.

From remarks dropped at the City Hall From remarks dropped at the City Hall yesterday by several Councilmen it is probable that the jaunt will be made to Los Angeles, in spite of public protest. "I want to know," said Mr. Zimmerman, "If the geople of Portland are standing in with the monopoly. The Pacific States Telephone Company is a monopoly. There is no question about it. But I want to see these new telephones before I vote for a franchise. If the instruments are not as good as they say, do you think I would you for them to come in here? Of course and Bottlers' Union, sergeant-at-arms.

THE BABY GRAND PIANO.

It is the instrument covered by all musicians, but possessed by few on account of its price. Here is a chance to get a magnificent specimen for actual wholesale price, which brings it down to price of an upright. Will you miss the chance, or take advantage of it? A. W. Meyer, 74 Sixth.

us a better telephone system, why don't you go?" I believe in it and I am going to go if the others do."
"When will the trip take place?"
"I don't know, exactly, but I feel that it will occur some time in February." "What is the precise nature of what the Empire Electric Company has agreed to do?"

They haven't agreed to anything. I anticipate that they will entertain us just as you or I would if we were interested in something and had a prospective investor with us."

Another Councilman stated he had heard remarks to the effect that some

persons did not know what the public was protesting about when a little trip was proposed for Councilmen who had worked three years for the munificent sum of \$5 a month.

sum of £5 a month.

"Supposing it was a pleasure trip. Why, we deserve it. But aside from that, we are going to do the city some good. There is no question but what we will learn something by visiting other cities that will be of material benefit to the city." Other Councilmen were reticent about expressing any opinion on the junket. The matter will come up before the next meeting of the Council, and will be decided.

T WAS in the committee room of the Council Chamber yesterday, just after the clouds of war had wafted away on the heavy tobacco-smoke atmosphere. The franchise for the proposed Hillsboro road had been discussed heatedly and the aftermath waxed warmer. There was some doubt as to the extent of the Oregon Traction Company's enterprise. "Why, I wish you to understand," mid

H. A. Brandon, consulting engineer, "that if this road was only to be built to the city limits the company I represent would not want the contract. But a fow weeks ago I put in a blast on a road in California that raised tons and tons of rock that amounted to more than half the yardage in this whole proposition."
