Stocks of Grain in Exchange Warehouses

in California.

SAN FRANCISCO, Feb. 1 .- (Special.) -- Stocks

of grain in regular warehouses of the Mer-

chants' Exchange are reported as follows:

Wheat, 32,101 tons; barley, 19,264 tons; oats

2604 tons; corn, 227 tons; bran, 325 tons; beans,

160,359 sacks. Compared with a month ago

wheat decreased 14,000 and barley 2700 tone

Other grains show a small increase. Continued general rules in California, which have vasily improved the grop outlook, caused easiness in speculative prices, but spot quotations for all

cercals remained firm, owing to the smallness of niocks. Feedstuffs were steady. Flour was firm. Hay was dull and weak. Grain

freights are practically down to nothing and nominal at 16 shiftings usual Furrows on

tions. There are no vessels on the engaged Stormy weather checked trade in the fruit

thanket and prices were nominally unchanged. Five carloads of navel oranges were auctioned as follows: Pancy, \$150, 50; choice, \$5.59 \$1.40; standard, 90c@\$1. Fourteen carloads of apples have arrived from the north thus far

this week, overloading the market with cut

## INQUIRY FOR WHEAT

Better Demand From the East and California.

## QUOTATIONS HAVE ADVANCED

No Flour Business With the Orient\_ Hop-Buyers and Sellers Waiting for Developments-Farm Produce Active.

There is a better inquiry from the East and California for Northwestern wheat, but the demand for other cereals has fallen off. The four market is particularly dull. In the hop Rusiness has been good in all lines of country produce with a general hardening of prices. Potatoes and onions are slower. There have been no important changes in the grocery list

WHEAT-Prices in the wheat market are quoted about one cent higher this week, in sympathy with the strength shown in the Enst and at San Francisco. There is considises a good movement. Nothing seems possible in the way of export business, owing to the tively small portion of the crop remains in 'armers' hands and the bolders, as a rule, are indifferent sellers. Conditions in Europe are reported by the London correspondent of Northwestern Miller of January 25 an

There has been a decided increase of firm es in the wheat market this week, although t is unattended by much activity in the demand. Russia is shipping much more moder

one acres, but of the total of \$2.20,000 acres, tunder wheat, and although the provinces of Buenos Ayres and Entre Rios send as very glowing reports of the croy, the increase in those districts compared with last year is not likely to compensate for the deficiency else-

the barvest and the bad weather in Santa of the barvest and the bad weather in Santa Fe during harvest operations the new wheat is slow in coming forward to the scaboard, so that schipments on any important scale are not expected until next modifi, whereas last year the export movement was already large by the middle of January. Under these circumstances, buyers are willing to pay elapence more for January subminents of La Pista wheat then for later ones.

The recent depressing element in the trade, as I pointed out a fortnight ago, was the very favorable official account of the Indian crop which is regarded as likely even to equal last year's abnormally large yield, which in his turn was about 14,000,000 quarters or near-ity 50 per cent above the previous average. The consequence was that bear opegators sold consequence was that bear operators sold erop. No. 2 Calcutta, which was worth 6d on the spot in London, down to 20s 6d for April-May and May-June shipment

affoat for Europe, however, tended to alarm these bears and the present price is 30s per quarter. There is, I think, a disposition to forget the extraordinary character of the searon, and to rely upon India and Russia per-

more than ordinary risk.

Advices from the Coast reported arkets, with prices ranging from 27 steady markets, with prices ranging from 27 to 30 cents, and the reports from up the state reported prices holding steady at 30532 cents. Experts for the week from the port of New York were 850 bales. Experts from Phila-5604 bales, and from Boston for the same period 135 bales, making the total export movement to date from the three ports, New York, Philadelphia and Boston 68,201 bales. The Kentish Observer of January 12 said

of the foreign situation: The demand for English hors continues quiet, and runs mostly on Mid Kent and Sussex hops at prices which growers would not have "tooked at" a month or two since. A few growths have changed hands recently at from £8 les to £8 les per cwt., all round. Holders of East Keuts decline to accept less than £10 per cwt., but there are no offers at that price at present. Consumers have been buying foreign hops in large quantities, thus hoping to wear out the patience of the home reconsure.

wild, Neame & Co., hop factors, London, report: There is no alteration to report in the state of our market. Business continues quiet

and values unaltered.

Manger & Henley, London, report: A steady inquiry continues for the cheaper grades of neeful copper hope, and a fair business has been done during the past week. Values favor buyers where sales are pressed, but remain quotably unchanged.

W. H. and H. Le May, hop factors, London, report: The demand is of a recell that

doe, report: The demand is of a retail char-scier, but just sufficient to take any hope that are offered a little below nominal rate. The trade for Worcesters has not increased much in volume since the holidays, and only Your pockets of growers hope have passed the public scales here last week. Values remain without alteration. Up to December 31, 7009 pockets of new hope were weighed at the pockets of new hops were weighted at the public market, compared with 14,571 in 1900.

and probably less than 3000 pockets of 1904 growth new remain unsold in planters' hands.

Albert Heller, hop merchant, Prague, writes tory and Western medium, 21250 fine medium, 17018c; fine, 16017c.

good inquiry on the Bohemian and German hop markets for all sorts of 1994 hops and prices are quoted very firm, with rather an improv-ing tendency. PRODUCE-The market for farm products

has been in better shape this week. Poultry, eggs and butter have generally been in good request. Receipts of chickens have been lighter and, therefore, prices were maintained without much difficulty. The colder weather and a falling off in egg receipts have forced prices upward. Butter is quoted firm, but as the San Francisco market is easier, it is feared that if shipments are brought from

there it will have a weakening effect locally There has also been a better demand for dressed meats, which has kept the market in strong tone. Refeipts of livestock have been fairly large and prices have ruled steady. Potatoes are slower, both here and at San Francisco, while local receipts have been adequate. The onion market is steady with

Apples are arriving more freely, but the trade, as in all kinds of fruits, has been checked by the cold weather.

mand. Russia is shipping much more moderately and as stocks in Russian ports are 35 per cent less than at this time last year it is probable that until the reopening of Azot navigation in the Spring, we may not find the average weekly abityments from that country equal those of last year frem January 1. 

\*\*sia: about 250,000 quarters.\*\*

Another feature which has tended to check any further downward movement is the receipt of confirmatory reports from the Argentine Republic that the crops of Santa Fe and Cordoba have been sadily damaged both in quality and quantity; as a matter of fact, the bulk of the present offers of Resario (Santa Fe) whest for shipment now being made, have a quarantee of only about 61 pounds per bushel, whereas at this time last year 63 to 64 pounds per bushel wheat from these districts was paramount.

This fact is quite important, as the Santa Fe and Cordoba provinces last year had 5,000,000 acres, out of the total of 9,270,000 acres, under wheat, and although the provinces of Busing Ayres and Ecter Bile continues of Engage and Ecter Bile continues of Engage and Ecter Bile continues of Business Ayres and Ecter Bile continues of Business Ayres and Ecter Bile continues of Business Ayres and Ecter Bile continues and Ecter Biles and Ecter Biles

BACON-Fancy breakfast, 18c per pound; tandard breakfast, 17c; choice, 15c; Raglist breakfast, 11 to 14 pounds, 14c; peach bacon, 18c.

SAUSAGE-Portland ham, 125c per pound. SAUSAGE-Portland ham, 12the per pound mineed ham, 10c; Sammer, choice dry, 17th bologim, long, 5the; weinerwurst, Sc; liver, 5c pork, Sc; blood, 5c; headcheese, 17the; bologim forming with ease the task of making up for America's shortcomings in the matter of wheat exports.

Nothing is more probable in my opinion than that Ruissia, Ascentine and Australasia will between them chip only about 600,000 quarters a week during the next three months, and it is now tolerably rectain that European importing countries will require at least 1,100,000 quarters a mock). It will be seen that the remainder, for 1,000 quarters a week, is a large amount for light. America and Canada to make good.

A rapid reduction in our stocks curing the next three months seems in fact, inevitable, and those who sell in blank during the remainder of this season will do so, I think, with more than ordinary risk.

with more than ordinary risk.

FLOUR, FEED, ETC.—Stagnation continues to rule in the floor market, so far as export burdness is concerned. It was thought the colonials would be in the market before this, but prices are still an obstacle to trading. The local movement is fair. Milited of all kinds remains strong, but is no higher in price. The barley market is firmer in sympathy with the advance at San Francisco, but there is not much setivity here in splite of reports of strong inquiry. Oats are also quiet and sicady. No change is reported in the hay market. Local stocks are heavy.

HOPS—Both buyers and sellers of hops are waiting for semething to turn up. Very few transactions were reported in the past week, bealers who have made offers to the East at current rates have had no response to their telegrams.

The New York market is thus reported by the Journal of Commerce of January 28:

There were reported to the effect that some feedlers in the local market were showing rather more of a desire to sell, they being sanzious, it was understood, to turn some of their biddings of hops into cash. Eugers, however, were indifferent and to have moved supplies lower prices would have had to be accepted. Advices from the Coast reported steady markets, with prices ranging from 27 to 30 cents, and the reports from up the state face of the coats in the prices from the Coast reported steady markets, with prices ranging from 27 to 30 cents, and the reports from up the state of coats, and the reports from up the state of coats, and the reports from up the state of coats, and the reports from up the state of coats, and the reports from up the state of coats, and the reports from up the state of coats, and the reports from up the state of coats, and the reports from up the state of the coats are the coats are the coats and the reports from up the state of the coats are the coats Groceries, Nuts, Etc.

## OUTWARD FLOW OF GOLD

NOMINAL OCCASION FOR SELLING OF STOCKS AT NEW YORK.

Large Exports Were Expected This Week-Offerings Proved Heavier Than Could Be Absorbed.

NEW YORK, Feb 1 .- The heavy engagements of gold for expert to Paris tomorrow were made the nominal occasion for selling of stocks today, but the taking of profits on yesterday's feverish and volatile advices was an obvious motive in many parts of the list. The weakness of these stocks was offset by strong advances at other boints, according to the usual methods of supporting the market to facilitate the taking of profits by professional operators! But the not very striking advance in such stocks as Beading and Missouri Pacific among the usual favorites, even supplemented as it was by the rise in a long list of suscisities proved a noor substitut as yesterday's feverish and volatile advices wa list of specialties, proved a poor substitute as a stimulating factor for yesterday's motive in the Vanderblits. The mass offered to the market for digestion proved under these circumstances somewhat heavier than could be comfortably absorbed and the prevailing tone was heavy.

Large exports of gold were expected this week and the prospect has occasioned little concern. The insatiable demand of the Paris

market for gold is the more nutable in view of the rapid recuperation of London's supply, that capital having received \$5,000,000 from Egypt and the largest single consignment ever received from Cape Town within the past week. Yet the principal demand from Paris continues to be diverted upon New York.

Quite a factor in the stock market was the action of the Vanderbilt shares and of the attention given the recent runners recording. wholesale consolidation of that group with the great Harriman properties. Testerday's ac-tion towards the concentration of operating control in the Vanderbilt group and the known extension of Rockefeller holdings in New York Central, while of admitted impo-New York Central, while of admitted impor-tance in the standing of these securities, was not felt to be sufficient to explain the violent movements in the group. The rise of 25 points yesterday in Chicago, St. Paul, Minneapolis & yesterday in Chicago, St. Paul, Minneapolla & Omaha, which was partly lost before yesterday's closing, was completely yielded at one time today on transactions as small as those of yesterday. Its parent stock, Northwestern, and New York Central were also subject to the pressure to get out of the high level of prices. "

\$4.5064.75; rough heavy, \$4.6564.75; light, \$4.5564.75; bulk of sales, \$4.7064.72; Sheep-Receipts, 18,000. Shoop steady to higher; good to choice wethers, \$5.1065.00; fair to choice mixed, \$464.90; Western sheep. There was no difference of opinion as to the favorable showing of the quarterly report of the United States Steel Corporation, but its securities were also subjected to a natural process of resilizing, with the good news all public. The strength of the local tractions seemed to be associated with a threat of a strike by Subway employee. The halting and irregular time of the market continued irregular tupe

Bonds were irregular. Total sales, \$5,985,000.

domestic manufactures from the United States in 1904 exceeded for the first time \$500,000,000, against \$421,000,000 in 1903, and \$441,000,000 in the earlier high-record year, 1990. Comparing 1904 with still earlier periods it may be said that the exports of manufactures were in 1894, ten years earlier, but \$177.000,000; In 1884, \$136.000,000; in 1874, \$92,000,000; in 1864, \$40,000,000, and in 1834, \$28,000,000. These figures relate to calendar years except those of 1884 and earlier dates, which are those of fiscal years. The chief growth in the exports of manufactures, it will be seen, has oc-curred during the past decade, the growth during that period being \$025,000,000, against \$41,000,000 in the decade 1884-1894, \$44,-900,000 in the decade 1874-1884, \$52,000.000 the decade 1864-1874, and \$12,000,000 in the decade 1854-1864. Thus the increase in the experts of manufactures, decade by de-cade, from 1834 to the present time has been as follows: yesterday were 500 sheep and 200 hogs. The following prices were quoted at the yards: CATTLE-Best Eastern Oregon steers, \$49

Considering the last decade, in which the

Hogs-Receipts today, 30,000; tomorrow, 30,000. Market, strong to 5c higher; mixed and butchere, \$4.45@4.87%; good to choive heavy, This increase of \$81,000,000, the largest increase shown in exports of manufactures in any calendar year in our export record, occurs chiefly in from and steel, copper, refused mineral offs, and cotton. Comparing 1904 with 1503, the increase in iron and steel is \$29.500,000; in copper, \$31,000,000; in mineral oil, \$8,000,000; and in cotton manufactures, \$6,500,000. A statement print-ed herewith gives the total value of the ten principal articles or groups of articles. classified as manufactures in the export statements prepared by the Department of Commerce and Labor through its Bureau of Statistics. These ten articles or groups of articles, considered in their relative magnitude, are iron and steel manufactures comper manufactures, refined mineral cits leather and manufactures thereof, cotton manufactures, agricultural implements, characteristics.

chemicals, and cars and carriages.

Considering iron and steel, the largest of these groups of manufactured articles and the most important because of the fact that it represents in a higher degree the finished product than is the case with certain other of the articles classified as man-ufactures, it may be said that the figures of 1903, \$123,030,613, are more than four times as great as those of a decade earlier, the total value of iron and steel manufac-tures exported in 1834 being but \$29,943,729, while the total value of iron and steel manufactures exported since 1900 exceeds \$1,009,000,060, the precise total, considering in all cases the figures of calendar years, being \$1,008,307,405.

The table which follows shows the value

of the exportations of ten principal manufactures in the calendar year 1904, compared with the immediately preceding year. and the total of all manufactures exported

SLUMP IN WHEAT.

this week, overloading the market with com-mon grades. Pancy are scarce and firm. Potatoes and onlone are quiet and easy. Hops are quiet and mendy. Dairy products are easy. Receipts: 25,900 pounds of butter, 38,000 pounds of cheese and Market,

shade higher at \$1.16%@1.17. Increased re-ceipts in the Northwest had a tendency to create bearish sentiment at the atart, but news from the Southwest was sufficiently bullish to prevent any great amount of selling. Arrivals at Kansas City and St. Louis today were only \$4,000 bushels, compared with 255,-000 bushels a year ago. After selling off to \$1.16%@1.16%, May advanced to \$1.17% on a fair demand from commission houses. The buying was partly the result of firmness of cables. Extreme cold weather in the North-west was also a decided factor. The effect of the cold wave, it was claimed, would be a material decrease in receipts. Later in the day the market was somewhat affected by the weakness of coarse grains, but showed only a slight loss. During the last hour, however, wheat became decidedly weak, following de-clines at Minneapolis and St. Louis. A report from Minneapolis that some of the mills there would close owing to the poor demand for flour was apparently the most important in-fluence. In the May option the low point of the day was reached at \$1.10%. Final quota-tions on May were at \$1.10%\$1.10%.

Heavy liquidation by a prominent long caused weakness in the corn market, which closed almost at the low point. May opened a shade to 140% higher at 45645%, and closed at 44%@44%c.

closed at 44%g44%c.
More interest was manifested in oats than has been in evidence for months. May closed slightly lower at 30%g30%c.
Provisions were weak on a selling movement brought out by anticipation that the monthly statement of contract atocks would show a considerable increase. At the close May pork was off 12%c lard was down 10@12%c and ribs were off 3c at 86.82%. The leading futures ranged as follows: WHEAT.

Dorothy Russell's Romance Ends. CHICAGO, Feb. 1.-The runaway marriage of Lillian Russell's daughter, Dorothy, has ended in the divorce courts. In a petition filed in court here today, Abbot L. Einstein, the husband, is charged with being extravagant, lazy and brutal. "He refuses to work, and I am compelled to support him." Is one complaint of the petitioner. Failing to get money from his wife, it is declared Einstein took \$2000 worth of her diamonds and spent the proceeds in gambling. Six weeks after marriage Einstein is alleged to have heaten his young wife severely. He is alleged to have attacked her many other times. Twice, it is declared, he threatened her with a revolver in disputes about The lodgestness—Monmouth motor like operations. ened her with a revolver in disputes about
