

DEATH TAKES TEN

Terrible Fatality Ends Merry-Sleighting-Party.

TRAIN CRASHES INTO SLEIGH

Of Thirteen Women, Seven Are Killed Instantly, Two More Die Before Night, and Only One May Recover.

HORNELLSVILLE, N. Y., Feb. 1.—A passenger train on the Pittsburg, Shawmut & Northern Railroad tonight crashed into a sleigh containing 13 women, killing seven outright and so seriously injuring the remaining six that three of them died after being removed to the hospital.

The accident occurred near Arkport. The sleigh was one of three carrying a party from the Universalist Church of this city.

The dead: MRS. MARY GILLETTE, MRS. CHARLES THOMAS, MRS. EUGENE SHAW, MRS. JOSEPH HALETT, MRS. C. C. GRAVES, MRS. BEIT MOORE, MRS. RUTH PATCHEN, MRS. FRED HOUGHTON, MRS. J. COATES, MRS. FRED GREEN.

The injured—Mrs. E. R. Howie, Mrs. Bond, Mrs. Wallace Clark. Members of the Ladies' Aid Society of the Universalist Church went to a farmhouse near Arkport to spend the afternoon. It was nearly dark when they started on the return trip to the city.

The occupants of the leading sleigh saw the train approaching as they neared the Shawmut crossing. The driver urged his horses ahead and the sleigh passed over the tracks in safety.

The women in the first sleigh then attempted to warn those in the one following of the danger and they did succeed in directing their attention to the rapidly approaching train. The driver quickly pulled up his horses, but he could not check the heavily loaded quickly enough, and when it came to a standstill it was directly across the tracks. The pilot of the engine struck the bobbed with great force, reducing it to splinters and hurling the women in all directions.

Every woman on the sled was killed or injured. Mrs. J. Coates and Mrs. Fred Houghton and Mrs. Fred Green died at the Mercy Hospital late tonight.

AND STILL THEY COME.

Four More of Hoch's Wives Appear—Hoch Indicted for Bigamy.

CHICAGO, Feb. 1.—Two indictments charging bigamy were voted against Johann Hoch by the grand jury today. Three of Hoch's supposed wives were witnesses before the grand jury. When at the Criminal Court building waiting to appear before the grand jury, the three women met each other and they were shocked hands and congratulated each other over their escape from Hoch.

Four supposed wives of Johann Hoch have been discovered in real estate ads. The total is now 23, not counting two in Brooklyn, regarding whom the police have heard only rumors.

The "new" Mrs. Loughken-Hoch, said to have wedded the prisoner in San Francisco four years ago, and to have died suddenly; Mrs. Hulda Nagel-Hoch, of St. Paul; Mrs. Henry Bartel-Hoch and Mrs. Fred Deese-Hoch, both of Cincinnati.

PLAYED "COUNT" IN ST. PAUL

Then Robbed His Temporary Wife of \$3000 and Vanished.

ST. PAUL, Feb. 1.—It is believed here that Johann Hoch is the same man who married a Mrs. Hulda Nagel, of St. Paul, in May, 1902, under the name of Otto von Kern, a Bavarian Count. Soon after the wedding the Count induced "Countess" von Kern to turn over to him real estate she had into cash, and then, while the bride was down town shopping, preparatory to a trip abroad, for which the "Count" at the same time was supposed to be getting tickets, her trunk containing \$3,000 was broken into and robbed of its contents. The "Count" then disappeared.

Mrs. Alma Bechermer, a sister of Mrs. Nagel, says she saw Hoch in real estate ads. Hoch's portrait in the papers, that he is the man who married her sister.

HAD TWO WIVES IN CINCINNATI

One Died Mysteriously, the Other Now Has Another Husband.

CINCINNATI, Feb. 1.—It is thought here that Johann Schmidt, who resided in this city seven years ago, and Johann Hoch, of Chicago, are one and the same. Schmidt's career in Cincinnati lasted from the middle of the year 1896 through 1903, and in that time he married, four months after the death of her husband, Mrs. Henry Bartel. A few months after her death, which is said to have been mysterious, he married Mrs. Fred Deese, a widow of a saloonkeeper. Mrs. Deese-Schmidt afterward married again and now lives in Hamilton, O., where she identified a photograph of Hoch as that of Schmidt.

VICTORY OVER DISEASE.

Japanese Army Medical Service Shows Remarkable Efficiency.

GENERAL OKU'S HEADQUARTERS, Jan. 25, Noon, via Tientsin, Feb. 1.—Japanese field surgeons and field hospitals have accomplished a triumph, according to statistics obtained by the correspondent of the Associated Press from the Chief Surgeon of General Oku's army. There have been in the entire army since the landing on May 6 only 40 deaths from disease.

The figures show that up to December 1 there were treated 34,622 cases of disease of those 40 resulted fatally, 18,275 patients recovered, 266 were sent to Japan, and the remainder were undergoing treatment when the figures were compiled. It is believed that these figures are unequaled in the history of warfare.

There were only 193 cases of typhoid and 342 of dysentery, while of beri-beri there were 576. The other cases of disease were not serious.

The casualties in General Oku's army from May 8 to December 19 were as follows: Killed, officers 26, men 617; wounded, officers 418, men 20,327; missing, officers 4, men 82.

Sixteen per cent of the wounded died, 19 per cent recovered in the field, and 65 per cent were sent to Japan. Eighty-five per cent of the wounds were inflicted by rifle shots, 8 per cent by artillery, and 7 per cent by cold steel. The largest percentage of recoveries was in the cases of chest wounds. Most of the recoveries were due to the small caliber of the rifle bullets.

The percentages of the other Japanese armies are believed to be about the same.

Death of Oldest Engineer.

HELENA, Mont., Feb. 1.—M. Sherwood, who is said to have been the oldest locomotive engineer in the United States, is dead at his home in Billings, aged 83. He

The Finest Pianos AT LOWEST PRICES

It is a recognized fact that our line of pianos is far superior to any other line carried here. In fact, there are more of the great artists using our pianos than any other makes.

VLADIMIR DE PAOHMANN, The great Russian pianist, who is to appear here at the Marquand Grand, February 11, under direction of Miss Lois Steers, uses the Baldwin, the piano that took the Grand Prize at the St. Louis Exposition recently. We are the sole representatives for this make as well as the Knabe, Everitt, Hardman, Fischer, Packard, Ludwig and other high-grade instruments, all of which have won high honors at all the great expositions.

Comment is made on the \$106,000,000 naval bill, with the conclusion that "no nation was ever dominant on the sea in time of war that was not strong on the sea in time of peace in its merchant marine."

Concluding the report says: We applaud the splendid achievements of Japan on the sea, and yet without her merchant marine Japan would have been unable to deliver the overwhelming blow that she has upon her adversary, England is mighty in her war navy because she is mighty in her merchant marine. Russia presents a singular contrast, and Russia is weak in her merchant marine.

If war should come today, we have not ten ships in our merchant marine fit to be taken over by the Government for war purposes, and we could not man with efficient seafaring men our battleship cruisers, torpedo-boats, etc., of our splendid navy.

The merchant marine is a handmaiden of the war navy, and no nation ever achieved greatness in any direction which was not strong in the other.

To Reorganize Naval Service. WASHINGTON, Feb. 1.—Representative Foss, of Ill., introduced a bill today "to reorganize and increase the efficiency of the personnel of the fleet of the United States." The bill shortens the course at the Naval Academy from 18 1/2 to three years. One year's duty after graduating is required instead of two, as at present. The age of midshipmen entering the academy is fixed at from 15 to 17 years. The bill creates a "reserve list," on which Captains who have reached the age of 60 years shall be placed. This age limit is gradually increased to 65 years. Commanders are put on this list at the age of 55, the age thereafter being reduced to 50. Officers on the reserve list are to perform shore duty only, and every transfer of an officer to this list shall create a vacancy on the active list. Two grades of Vice-Admirals are created.

Crop Outlook on Pacific Coast. WASHINGTON, Feb. 1.—The Weather Bureau's outlook for crop conditions for the month of January, 1905, says: In the Rocky Mountain region and to the westward the temperature was milder than usual, with more than the average precipitation in the Southern plateau region and Southern California, and much less than average precipitation as a whole. On the North Pacific Coast the winter wheat outlook is favorable, except for late sown in Washington. In California the prospect is excellent, except along the Sacramento River, where some damage has been caused by heavy rains.

Officers' Pay Question Settled. WASHINGTON, Feb. 1.—The House provision in the Army appropriation bill limiting the pay of retired officers strictly to the retired pay of their rank, which has been the subject of disagreement between the two houses, was settled today by the Senate conference accepting the House provision in principle.

Senate Gives More for Agriculture. WASHINGTON, Feb. 1.—The agricultural appropriation bill was reported to the Senate today by the Senate conference aggregating \$6,387,170, an increase of \$206,740 over the bill as passed by the House.

MORSE WILL ANSWER.

One of Principals in Divorce Scandal Returns From Europe.

NEW YORK, Feb. 1.—Charles W. Morse, former president of the American Ice Company and promoter of an extensive bank consolidation plan in this city, who has long been the central figure in one of the most sensational matrimonial tangles of recent years, arrived here today on the steamer Deutschland, after a prolonged stay in Europe. Mrs. Clarence Cowles Dodge Morse, the millionaire's wife, did not accompany her husband. Mr. Morse said that he had returned to answer any charges that may be made.

During absence of Mr. Morse abroad a long and searching investigation of the Dodge divorce reached a point where the grand jury of New York County returned criminal indictments against at least a half-dozen persons, among them two lawyers of wide prominence. Some of the indictments returned by the jury have not yet been made public, and it was believed that further sensational developments would quickly follow the arrival of the steamer on which Morse took passage from the other side.

No announcement, officially, has been made as to what course the authorities having the Dodge-Morse tangle investigation in hand would pursue, but it was believed that an attempt would be made to supplement the evidence already in possession of the District Attorney's office.

SCHARFF NOT A CATHOLIC.

Cardinal Gibbons Denies His Authority to Act for the Church.

WASHINGTON, Feb. 1.—Cardinal Gibbons has sent the following statement to the representative of the Bureau of Catholic Indian Missions in this city for presentation to the Senate committee on Indian affairs: In view of certain statements made by Senator Bard before the Committee on Indian Affairs of the Senate, I deem it proper to state that the Catholic church has no political agent at Washington or anywhere else; that Professor Scharff, who is referred to in Senator Bard's statement, is not a member of the Catholic church or of the Bureau of Catholic Indian Missions, and has never been employed by the church or by the Catholic Indian Bureau in any way whatsoever.

GREATEST OF WATER-WORKS

Croton Dam, Largest Piece of Masonry in Modern Time Completed.

NEW YORK, Feb. 1.—After 19 years of labor and the expenditure of \$9,000,000, the new Croton dam near Croton-on-Hudson, in Westchester County, from which this city will draw largely for its water supply, has been practically completed. It is the largest piece of masonry in the world, except the Pyramids of Egypt. The floodgates have been shut down for the first time and the dam has begun to fill with water.

It is estimated by the engineers that it will require about two years to fill. When the water reaches the base of its coping it will make a lake 16 miles long. The water will rise 30 feet above the old dam. The new dam will hold 30,000,000 gallons of water. Half a dozen towns which occupied the site were abandoned.

The original contract price for the dam was \$5,000,000, but the contract was broken and the work was done by the city yard.

Increase of New Corporations. NEW YORK, Feb. 1.—Figures of new companies formed in the Eastern states in January with a capital of \$20,000,000 or

more reached a total of \$116,250,000. This is an increase over the December figures, which aggregate \$107,900,000, and also over the January figures of last year, which aggregate \$107,900,000, followed by New Jersey, with \$2,000,000.

SHY AT THE BILL.

(Continued From First Page.)

powers of the proposed commission as agreed to. The bill, in fact, is a compromise measure, neither side gets all it wants and some portions will not be opposed by the railroad companies and others by the people, who will be satisfied with nothing short of a most severe measure. Enough is known of the committee for the coming report to warrant

the belief that its appearance in the Legislature will be the signal for a hot fight. E. W. W.

Parks to Succeed Gruber.

OMAHA, Feb. 1.—W. L. Parks has been appointed general superintendent of the Union Pacific Railroad, to succeed J. M. Gruber, who resigned some time ago to accept the superintendency of the Burlington lines east of the Mississippi River.

More Coal for Japanese Fleet.

TOKIO, Feb. 1.—The Austrian steamer Siam, bound for Vladivostok from Cardiff with coal, was seized off Hokkaido Island yesterday.

No Attack on Cronstadt. ST. PETERSBURG, Feb. 1.—There is no truth in the sensational reports circu-
